List of Figures

Volume Two

1.01 Map of Indus Valley Tradition showing the distribution of all of the currently known Indus Valley Tradition sites from all periods 274

2.01 Map of Indus Valley Tradition showing the names of regions mentioned within the text. 275

2.02 Chart of precipitation from Western India and Pakistan (Allchin *et al* 1978: 29) 276

2.03 Mean monthly discharge of the Indus and Narmada Rivers (Allchin *et al* 1978: 29)) 277

2.04 Modern climate statistics from Ahmedabad (Gazetteer of India 1965: 115-116) 278

2.05 Map of topography & rivers in Gujarat 279

2.06 The Great Rann of Kutch east of Dholavira (photo: Manuel) 280

2.07 Modern agricultural statistics from Gujarat (Possehl 1999: 339) 281

2.08 Modern climate records from Bahawalpur (Kureshy 1978: 163) 278

2.09 Modern agricultural statistics from Cholistan (Possehl 1999: 386) 282

2.10 Palaeo-river systems of Sindh (from Flam 1999: 59) 283

2.11 Changes in the course of the Indus River over time (Flam 1999: 59) 284

2.12 Integration Era drainage systems in Punjab (Possehl 1999: 382) 285

3.01 Indus Valley Tradition chronology (after Shaffer 1992b: 426) 286

3.02 Early Food Producing Era sites mentioned in the text 287

3.03 Regionalisation Era sites mentioned in the text 287

3.04 Aerial photograph of Rehman Dheri (Allchin and Allchin 1982: 151) 288

3.05 Plan of Kalibangan (top) and Harappa (bottom) (from Thapar (1975) and Kenoyer (1998)) 289

3.06 Integration Era sites mentioned in the text 290

3.07 Localisation Era sites mentioned in the text 290

3.08 The Economico-Religious model proposed by Atre (1989: 58) 291

3.09 Hinterland divisions between the major cities of the Indus Valley Tradition (after Possehl 1993: 7) 292

4.01 Map showing the location of the Gujarat Environs Survey in relation to Bagasra and Kuntasi, with the ten transect lines displayed 293

4.02 Schematic diagram of Jacobson's postulated satellite settlement 294

system, and map showing the sites he names as within it
4.03 Schematic diagram of Kenoyer's postulated settlement hierarchy, and map showing the hypothetical divisions between the five largest sites 295
5.01 Map showing the location of the sites identified on the Gujarat Environs Survey 296
5.02 Shell bangle (top) and bead blank (bottom) from A007 demonstrating the presence of both fully processed and partially processed material found at the site 297
5.03 Terracotta beads/spindle whorls from A007 and A013 298
5.04 Turbinella Pyrum cores from A007, part of the shell bangle manufacturing process 299
5.05 Lithic cores and flakes from A003 and A015 300
5.06 Castor cultivation in the Gujarat Environs Survey (photo: Manuel) 301
5.07 Early Food Producing sites in Gujarat 302
5.08 Regionalisation Era sites in Gujarat 303
5.09 Size of Regionalisation Era sites in Gujarat 304
5.10 Integration Era sites in Gujarat 305
5.11 Size of Integration Era sites in Gujarat 306
5.12 Localisation Era sites in Gujarat 307
5.13 Size of Localisation Era sites in Gujarat 308
5.14 Site size distribution by period in Gujarat 309
5.15 Site size distribution by period in Gujarat 310
5.16 Number of sites within each region of Gujarat by period 311
5.17 Site size distribution by period in Cholistan 312
5.18 Size of Hakra Phase sites in Cholistan, and Musafarwali Environs 313
5.19 Size of Kot Diji Phase sites in Cholistan, and Lathwala Environs 314
5.20 Size of Harappa Phase sites in Cholistan, and Ganweriwala Environs 315
5.21 Size of Punjab Phase sites in Cholistan, and Kudwala Environs 31
5.22 Size of Painted Grey Ware Phase sites in Cholistan 317
5.23 Relationship between site size and the distance from Dholavira during the Regionalisation, Integration and Localisation Eras 318
5.24 Dholavira Environs during the Integration Era 319
5.25 Relationship between site size and distance from Lothal during the Integration and Localisation Era 320
5.26 Lothal & Kotada Environs during the Integration Era 321

5.27 Lothal Environs during the Localisation Era 322

5.28 Relationship between site size and distance from Kotada (Jamnagar) during the Integration Era 322

5.29 Relationship between site size and distance from Tarana-III during the Localisation Era 323

5.30 Tarana-III Environs during the Localisation Era 324

5.31 Relationship between site size and distance from Musafarwali during the Hakra Phase 324

5.32 Relationship between site size and distance from Lathwala I during Kot Diji Phase 325

5.33 Relationship between site size and distance from Ganweriwala during the Harappa Phase 325

5.34 Relationship between site size and distance from Kudwala during the Punjab Phase 325

5.35 Rank-size analysis from Gujarat during the Regionalisation Era (top), Integration Era (middle) and Localisation Era (bottom) 326

5.36 Rank-size analysis from Cholistan during the Regionalisation Era (top), Integration Era (middle) and Localisation Era (bottom) 327

6.01 Cattle in the Gujarat Environs Survey (photo: Manuel) 328

6.02 Charcoal making near to Kuntasi (photo: Manuel) 328

6.03 Schematic map showing the distribution of the main vegetation types within the Gujarat Environs Survey 329

6.04 Schematic map showing the hypothetical movement of resources and goods within the Gujarat Environs Survey. 330

6.05 Size and function of Hakra Phase sites in Cholistan 331

6.06 Size and function of Kot Diji Phase sites in Cholistan 332

6.07 Size and function of Harappa Phase sites in Cholistan 333

6.08 Size and function of Punjab Phase sites in Cholistan 334

6.09 Size and function of Painted Grey Ware Phase sites in Cholistan 335

6.10 Dundkianwali – an Integration Era site from cholistan engulfed in sand 336

6.11 Drigwala – an industrial site in Cholistan showing exposed kilns on the surface 336

6.12 Plan of Dholavira with "citadel" marked in red, "middle town" marked in blue and "lower town" marked in yellow (after Bisht (1999)) 337

6.13 View of the outer wall at Dholavira, looking north from south of the site 338

6.14 Plan of Lothal with "citadel" marked in red, "lower town" marked in yellow and industrial areas marked in green (after Rao (1973)) 339
6.15 Warehouse at Lothal (photo: Manuel) 340
6.16 Bazaar at Lothal – looking south (photo: Manuel) 340
6.17 Bead Factory at Lothal (photo: Manuel) 341
6.18 Dockyard at Lothal – looking south (photo: Manuel) 341
6.19 Stone "anchors" at Lothal (photo: Manuel) 342
6.20 Plan of Kuntasi, with industrial areas shaded green, and residential areas shaded yellow (after Dhavalikar (1995)) 342
6.21 Dhavalikar's model of Cultural Imperialism (from Dhavalikar (1995)) 343
6.22 Buffalo near to Nageswar (photo: Manuel) 344
6.23 Deer near to Nageswar (photo: Manuel) 344
7.01 Postulated "Indus Empire" represented as a network as oppose to a territory 345
7.02 Site plans of Bagasra, Lothal, Dholavira, Surkotada, all within Gujarat. All four show very different morphologies 346
7.03 Postulated settlement hierarchies in Gujarat during the Localisation Era based solely upon site sizes 347
7.04 Schematic model of the Gujarat Environs Survey area. The top model shows the relationship between Bagasra, Kuntasi and non-urban sites according to Dhavalikar. The bottom model shows the relationship incorporating the findings of the Gujarat Environs Survey 348

List of Tables

2.02 Precipitation records for Western India and Pakistan (Allchin *et al* 1978: 29) 276
2.02 Acreage of crops and numbers of animals maintained throughout Gujarat 1964 (after Possehl 1999: 339) 281
2.03 Table showing acreage of crops and numbers of animals maintained throughout Cholistan 1903/4 and 1960 (after Possehl 1999: 386) 282
2.04 Climate sequence based upon pollen record as proposed by Singh (1971) 349
2.05 Reconstruction of Southwest Monsoon strength (Pant *et al* 2005: 349

491)
3.01 Chronological sequence for key sites in Gujarat 350
3.02 Calibrated C^{14} dates from sites in Gujarat 351
3.03 Correlation between the chronologies used by Mughal (1997) and Shaffer (1992a, 1992b) 352
3.04 Models of political and social organisation to be tested within this thesis 353
4.01 Series of possible theoretical continua between concepts of heterarchy and hierarchy (after White (1995)) 354
4.02 Definition of the function or designation given to sites in Cholistan (adopted from Mughal 1997) 354
5.01 Summary of Gujarat Environs Survey site data detailing the size, finds and phasing of each site 355
5.02 Summary of vegetation data for the Gujarat Environs Survey 356
5.03 Site size summary for Gujarat 357
5.04 Size and density of each subregion of Gujarat, with Indus Valley Tradition comparisons 358
5.05 Site size summary for Cholistan 358
6.01 Summary of size and function data from Cholistan 359

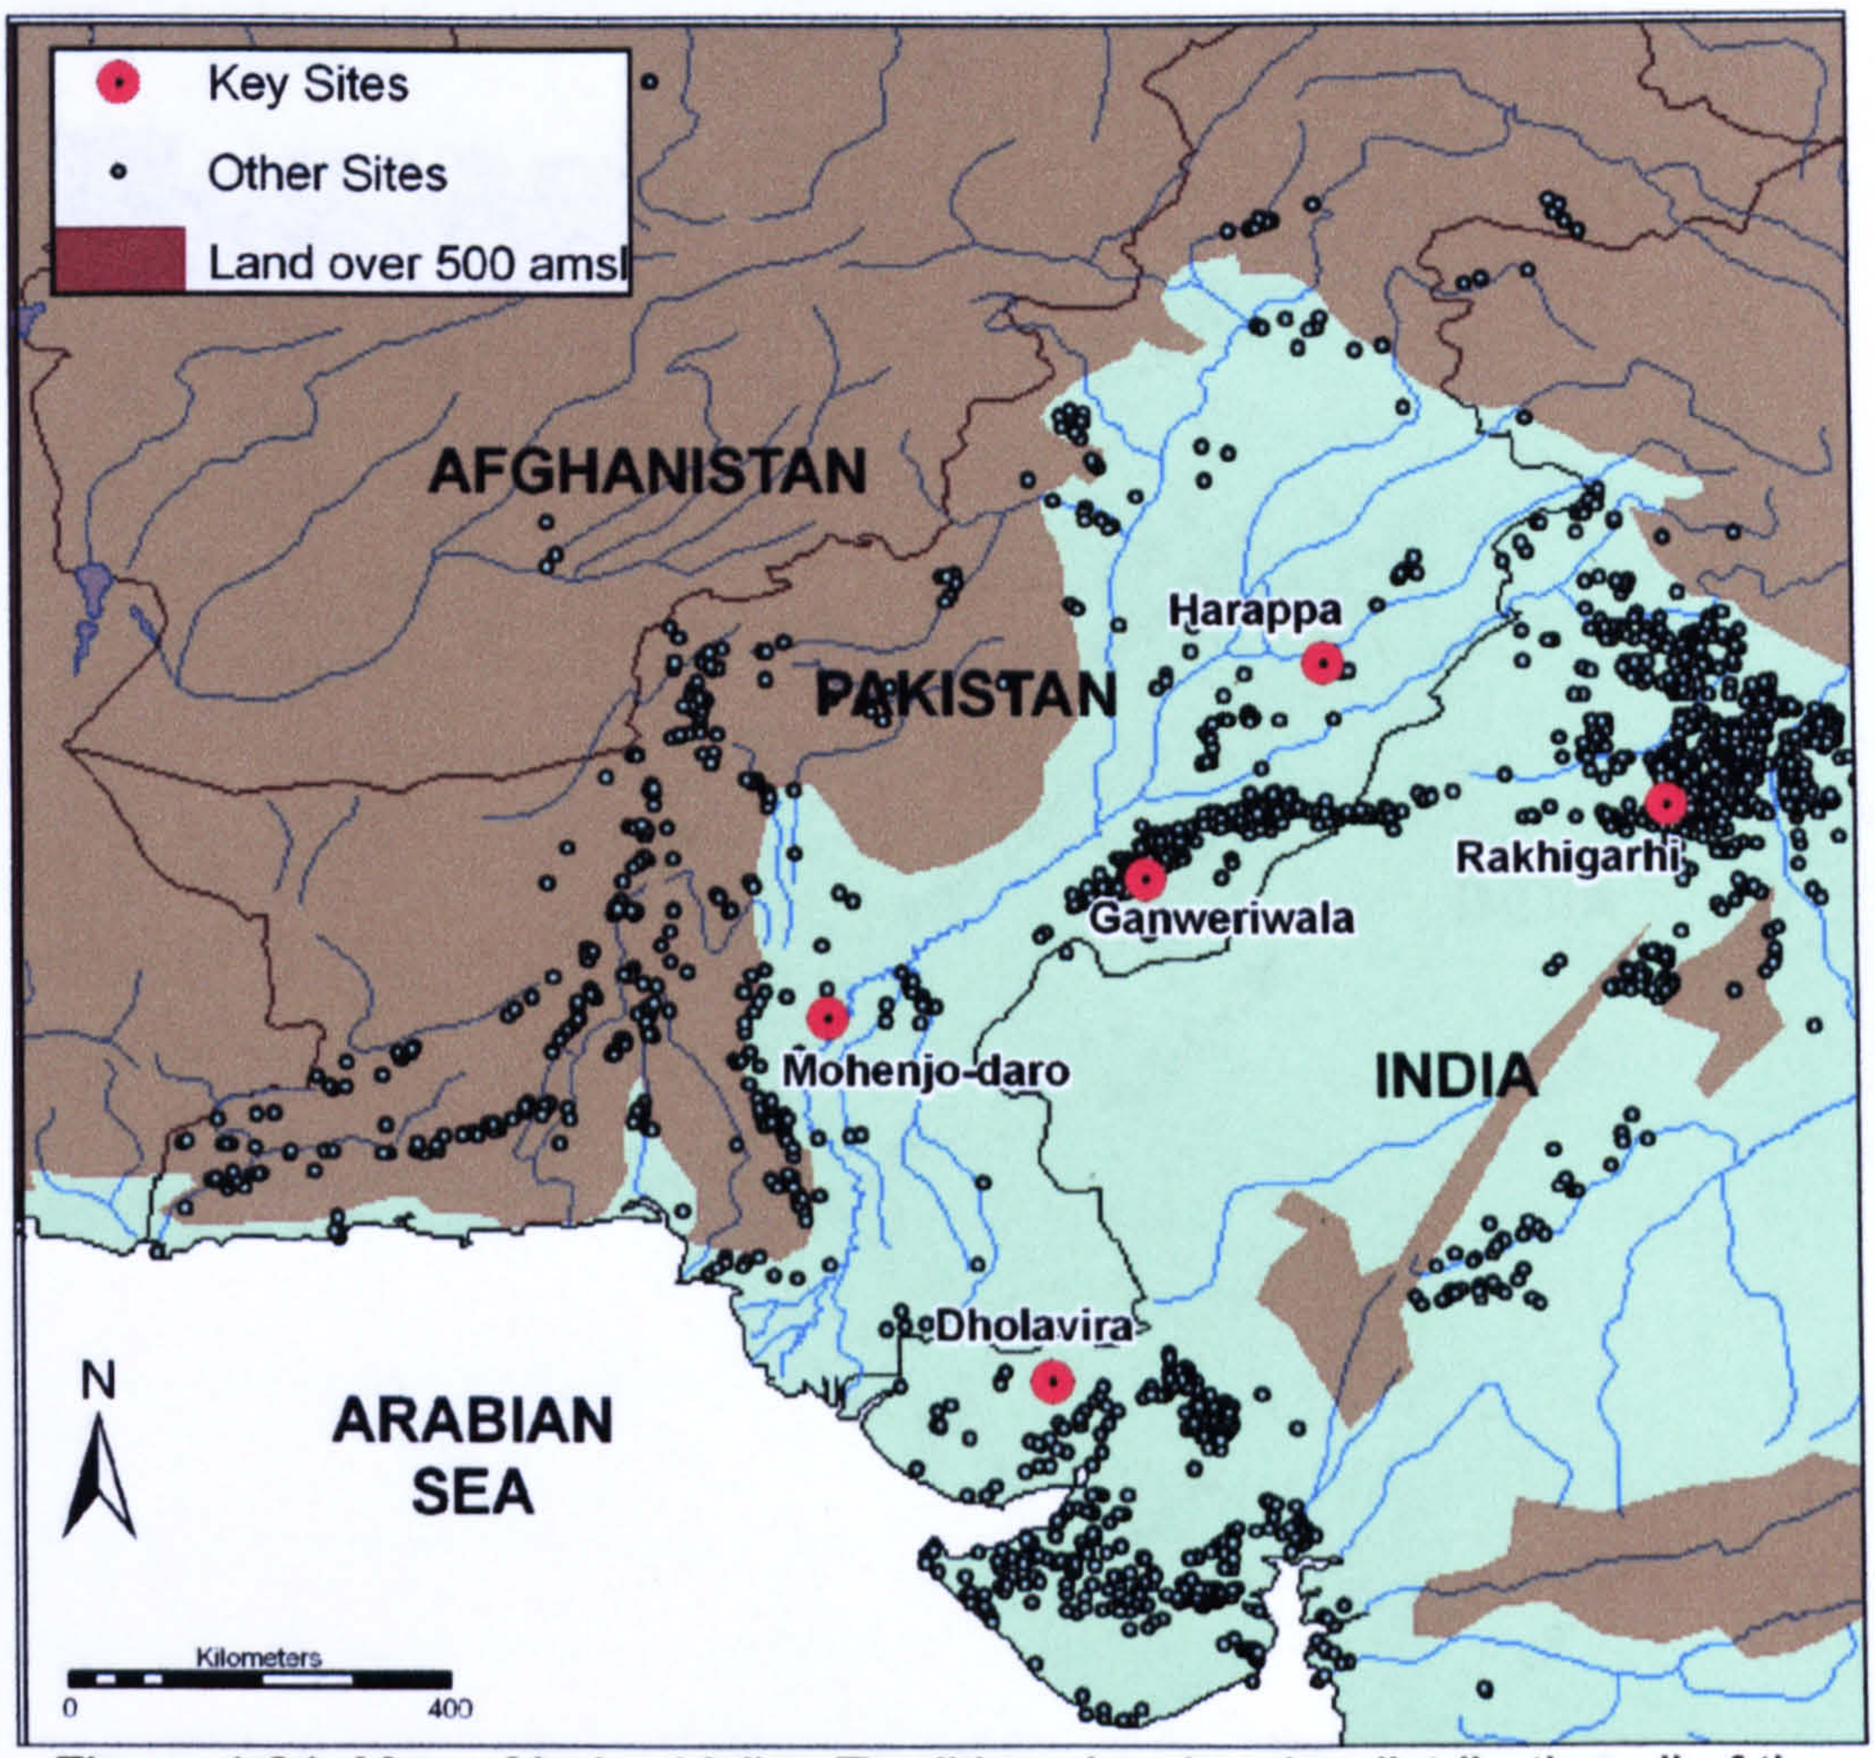

Figure 1.01. Map of Indus Valley Tradition showing the distribution all of the currently known Indus Valley Tradition sites from all periods.

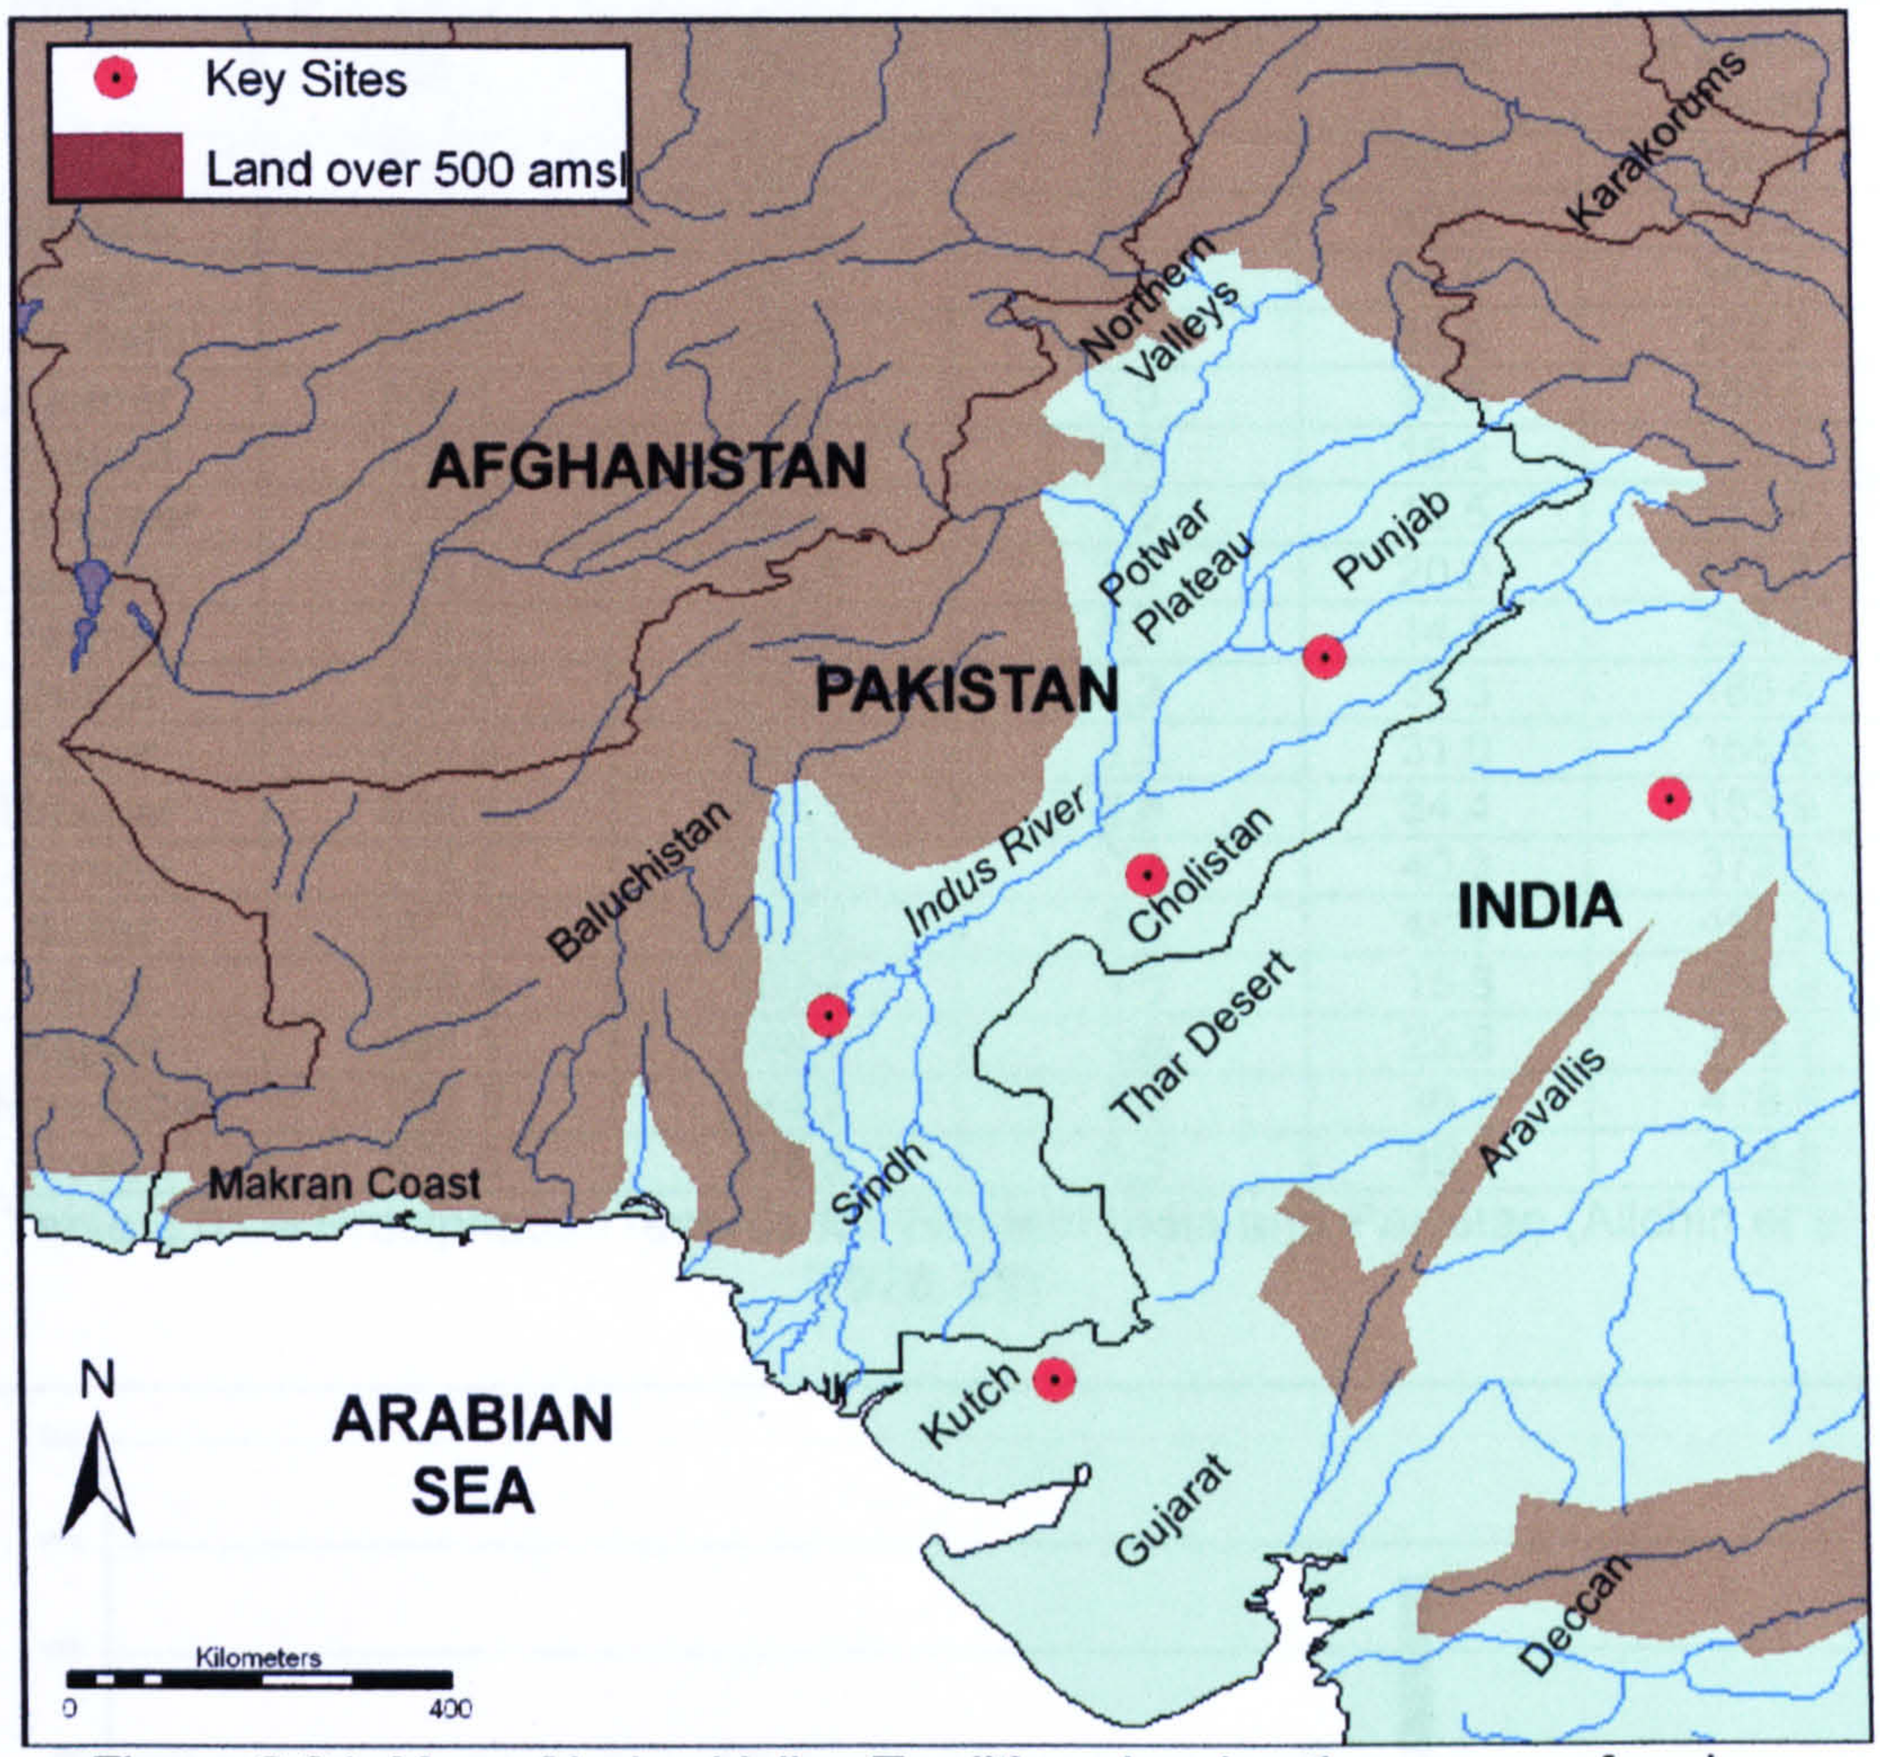

Figure 2.01. Map of Indus Valley Tradition showing the names of regions mentioned within the text. The Key Sites are named in the previous figure.

Station	Mean Annual Precipitation (mm)	Maximum Monthly Precipitation (mm)	Minimum Monthly Precipitation (mm)	Number of Rainy Days	Highest recorded precipitation in 24hour period
Agra	664.8	210.1	3.1	35.1	286.0
Ambala	766.7	220.2	4.1	40.6	233.5

Dholavira (Blsht 1999)

Surkotada (Joshi 1990)

Figure 7.02. Site plans of Bagasra, Lothal, Dholavira and Surkotada, all within Gujarat. All four sites show very different morphologies.

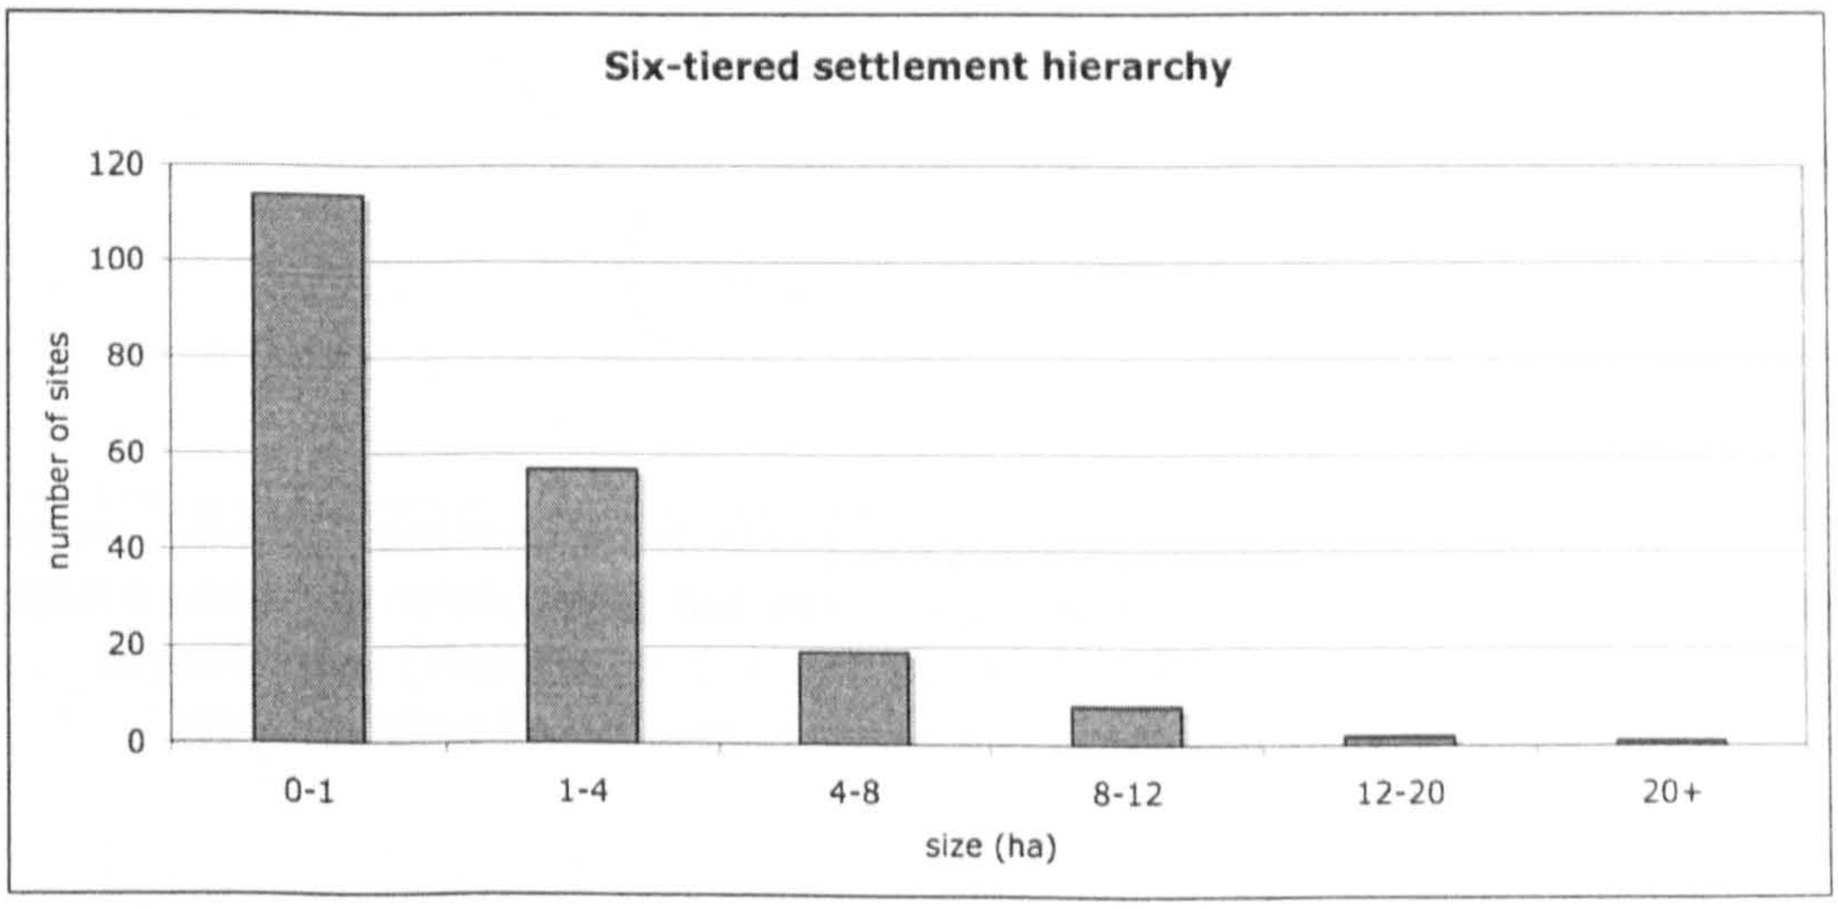

Figure 7.03. Postulated settlement hierarchies in Gujarat during the Localisation Era based solely upon site sizes

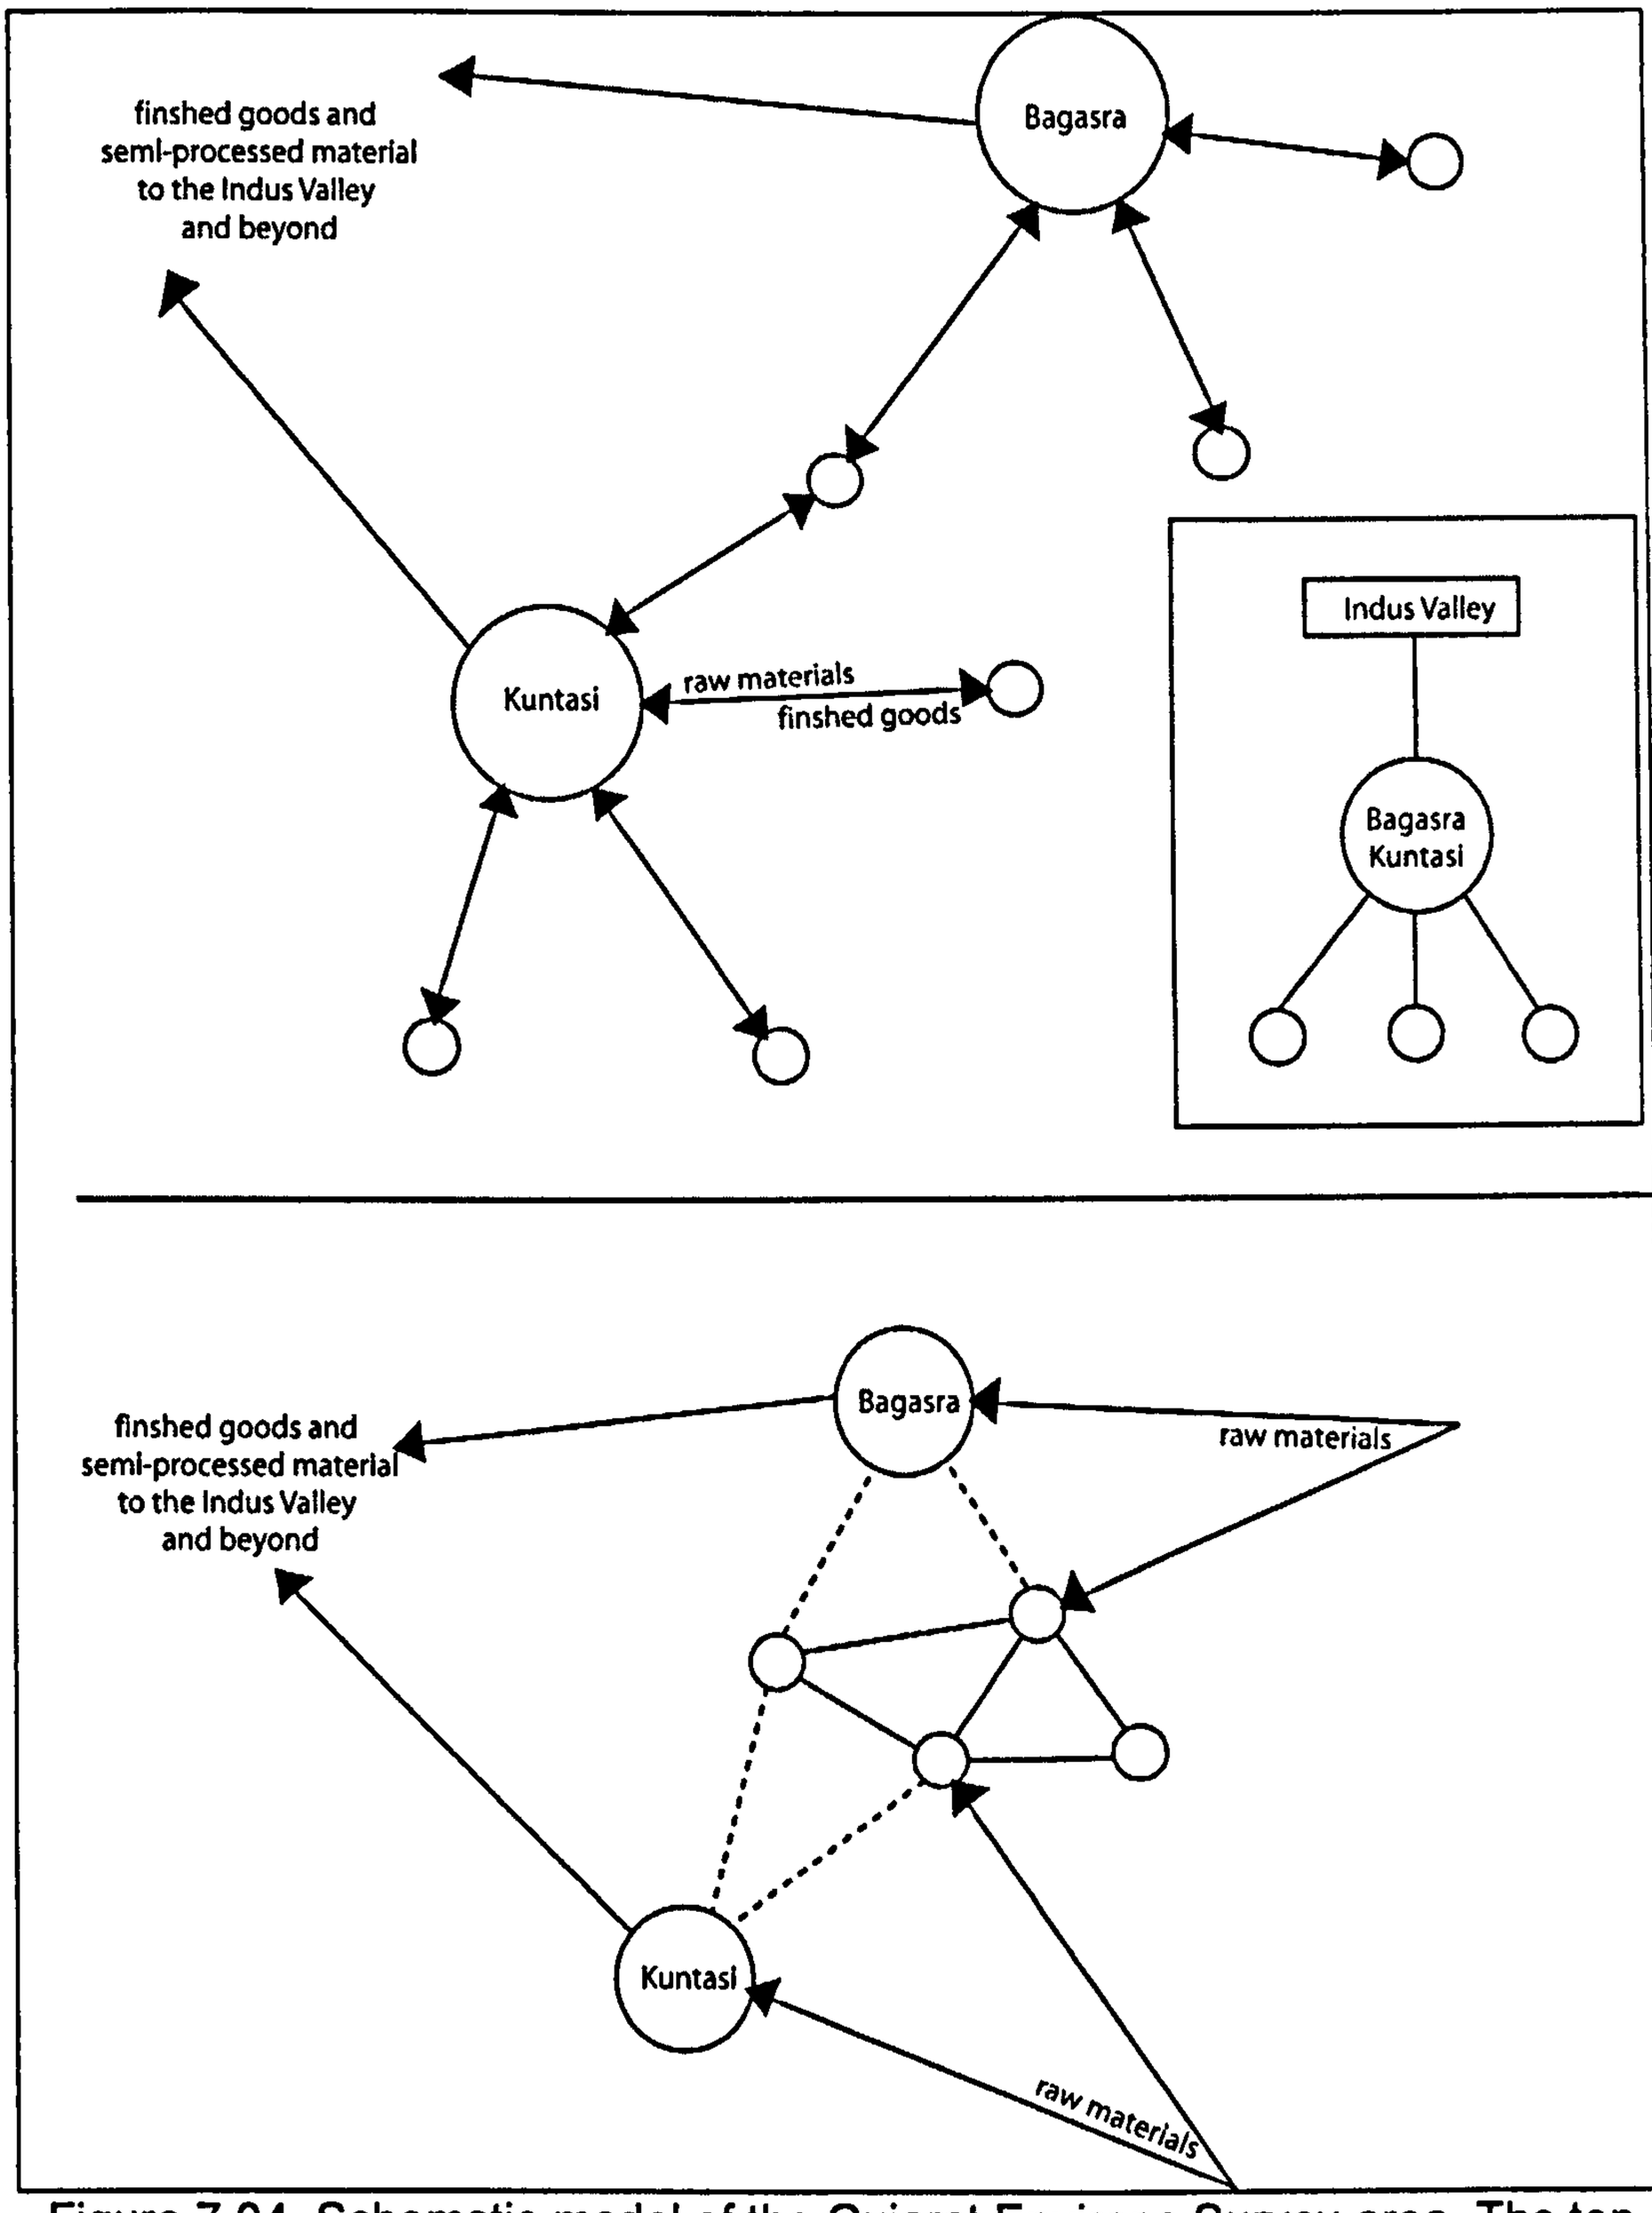

Figure 7.04. Schematic model of the Gujarat Environs Survey area. The top model shows the relationship between Bagasra, Kuntasi and non-urban sites according to Dhavalikar. The bottom model shows the relationship incorporating the findings from the Gujarat Environs Survey

Phase	Date (BCE)	Pollen Zone	Description
I	<8000		Severely arid; unsuitable for habitation
II	8000-7500	A	Wet; rainfall +25mm pa compared to today
III	7500-3000	B	Slight decline in rainfall, but miniscule; rise in carbonised vegetable remains, suggestive of scrub-burning, possible primitive agriculture
IVa	3000-1800	C1	Sudden and considerable increase in rainfall, +50cm compared to today; continuation of scrub-burning
IVb	1800-1500	C2	Short, dry period; lakes begin to salinate
IVc	1500-1000	C3	Slight reversal to relatively weak wetter interval

Table 2.04. Climate sequence based upon pollen record as proposed by Singh (1971)

Episode	Period	Processes	Inferred Climatic Events	Strength of Southwest monsoon
1	>20ka to ~16ka	Loess deposition	Last glacial phase	Weaker
2	~16ka to >12ka	Weak weathering	SW monsoon re-establishment phase	Stronger
3	~12ka to >9ka	Loess deposition	Younger Dryas cooling	Weaker
4	9ka to ~4ka	Pedogenesis (S_1)	Holocene optimum	Much stronger
5	4ka to 1ka	Loess deposition	Mid-late Holocene arid phase	Weaker
6	<1ka to present	Pedogenesis (S_2)	Same as at present	As now

Table 3.04 Models of political and social organisation to be tested within this thesis

Theoretical Continua	HIERARCHY	HETERARCHY
Rules of individual behaviour	Rigid; proscribed; strong sanctions against violations	Flexible; social ties not permanently broken if violated
Gender relations	Masked gender stratification and role definition; male dominated	Female economic & political power; role flexibility
Economy	Controlled; centralised	Multi-modal; self-organising; market based; commercial
Social status	Ascribed; hereditary; rigid class system; vertically differentiated	Flexible; includes personal achievement; multiple avenues to status; horizontally differentiated
Conflict resolution	Violence focused; control oriented; solutions imposed	Peace-focused; co-operation; alliance oriented; negotiation
Social ideology	Global; cultural imperialism; seeks to reduce or eliminate intergroup differences	Localised; pluralistic; horizontally differentiated; ethnic differences accepted or integrated
Political relationships	Autocratic; authoritarian; centrifugal; expanding	Consensus; democratic; centripetal; attracting
Temporal dynamics	Linear; progressive; steady	Oscillating; cyclical

Table 4.01 Series of possible theoretical continua between concepts of heterarchy and hierarchy (after White (1995))

INDUSTRIAL	RESIDENTIAL-INDUSTRIAL	RESIDENTIAL	CAMP-SITE
Exclusively for the large-scale production of fired brick, pottery and other items of daily use. Possible metallurgical activities	Settlements that include kilns, and/or show evidence of occupational differentiation and/or specialised activities "as an integral part of the site"	Sites that demonstrate permanent or prolonged occupation, and the possession of cultural materials, but do not have evidence of manufacturing industry	Sites that suggest temporary or seasonal occupation (e.g. transhumance).

Table 6.01 – Summary of size and function data from Cholistan

Appendix One

Appendix One details the results of the Gujarat Environs Survey undertaken in early 2006. The following pages detail the information from each of the sites identified during the survey, and the vegetation data for each transect.

The Gujarat Environs Survey was undertaken in early 2006, and concentrated on the area between Kuntasi and Bagasra, in Maliya Taluka, Rajkot District, Gujarat, India. It aimed to understand land-use and settlement patterns during the Indus Valley Tradition, and ascertain whether particular activities were restricted to urban or rural sites. It achieved these aims through understanding the following objectives:

1. The location and phasing of rural (non-urban) sites of the area;
2. The morphology and function of rural (non-urban) sites of the area;
3. The relationship between urban and rural (non-urban) sites;
4. Modern vegetation use in the area;
5. Resource pattern and networks within the area

The survey mapped the location and function of archaeological sites within a randomly selected 10x5 kilometre area between Kuntasi and Bagasra. See section 4.4.1 for a more detailed methodology, and sections 5.2 and 6.2 for results and discussion.

The co-ordinates of the four corners of the survey area are:

NW: N23.00.525 E70.34.250

NE: N23.00.525 E70.40.330

SW: N22.57.829 E70.34.250

SE:: N22.57.829 E70.40.330

Transects were walked in a north-south direction every one kilometre east-west within the 10x5 km grid. The following pages provide details of all of the sites encountered, and photographs of the artefacts colleted from each site.

Shell Bangles

sf031 – fragment of shell bangle manufactured from *Turbinella Pyrum*

sf064 – fragment of shell bangle manufactured from *Turbinella Pyrum*

Shell Cores

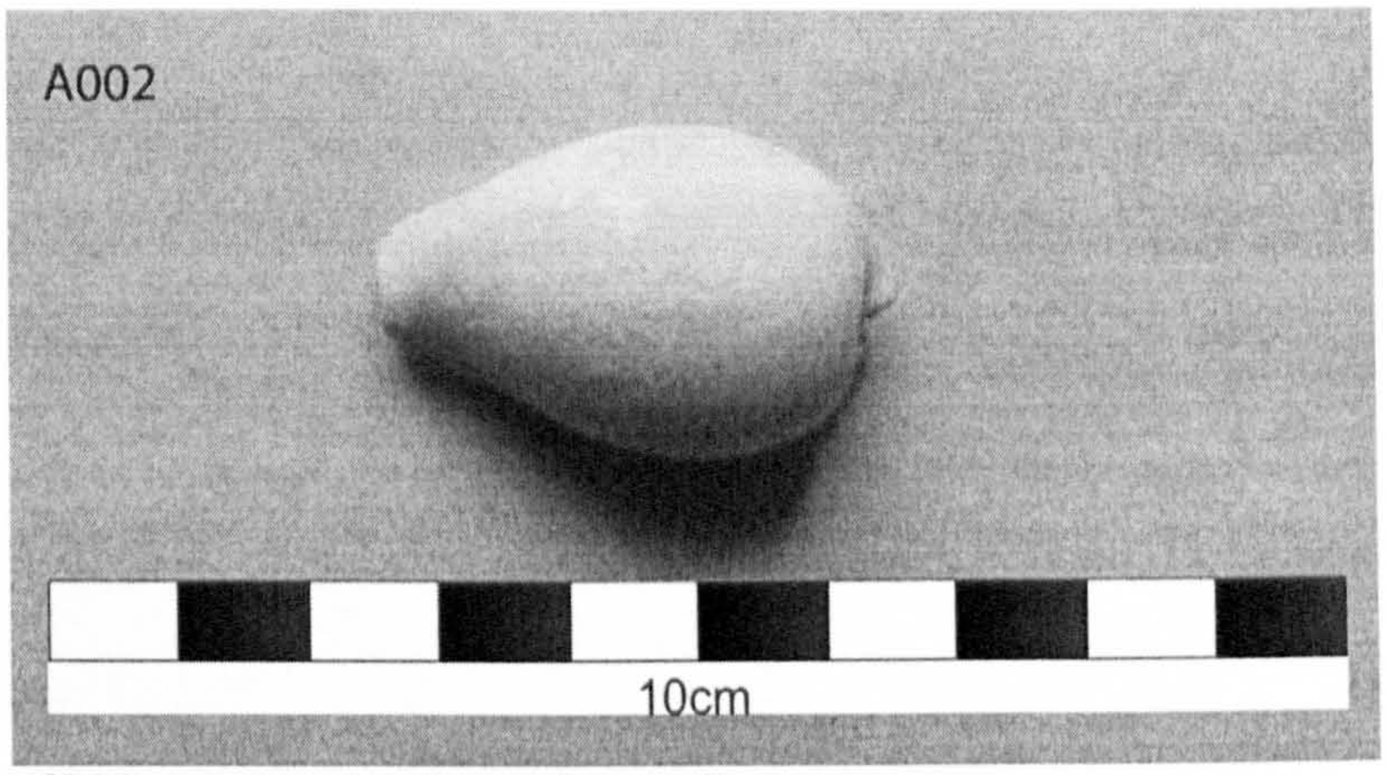

sf013 – *Turbinella Pyrum* core

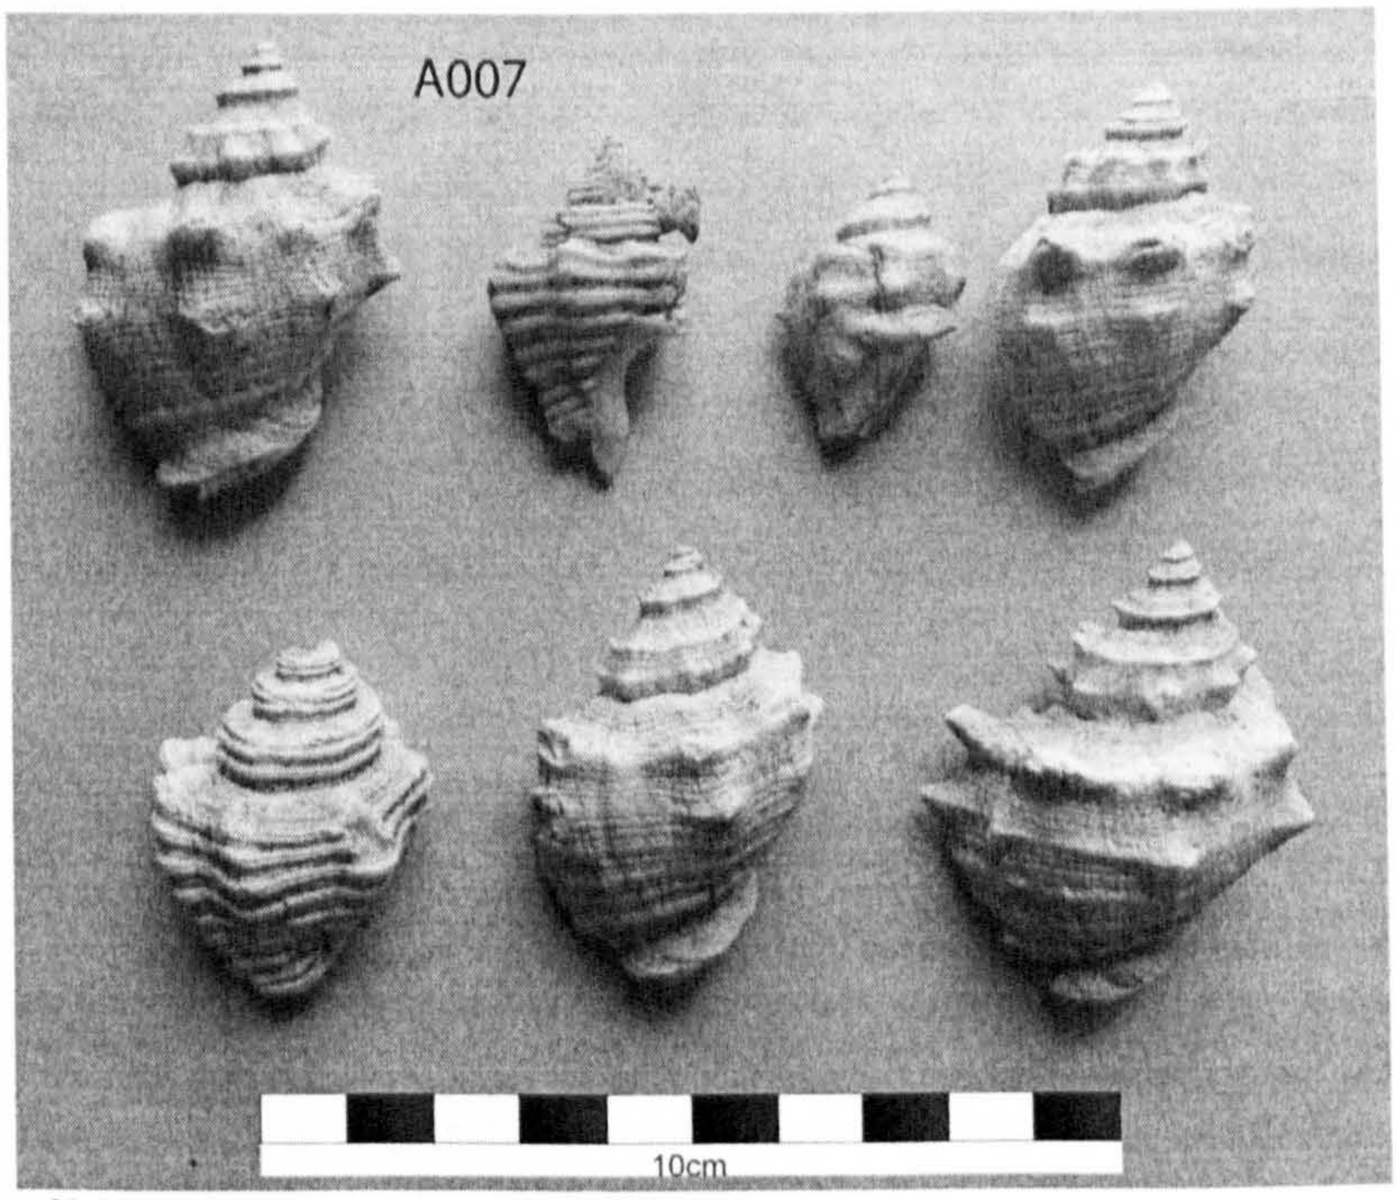

sf032 and sf033 - *Turbinella Pyrum* cores

Unworked shell

sf002 – unworked cowrie shell

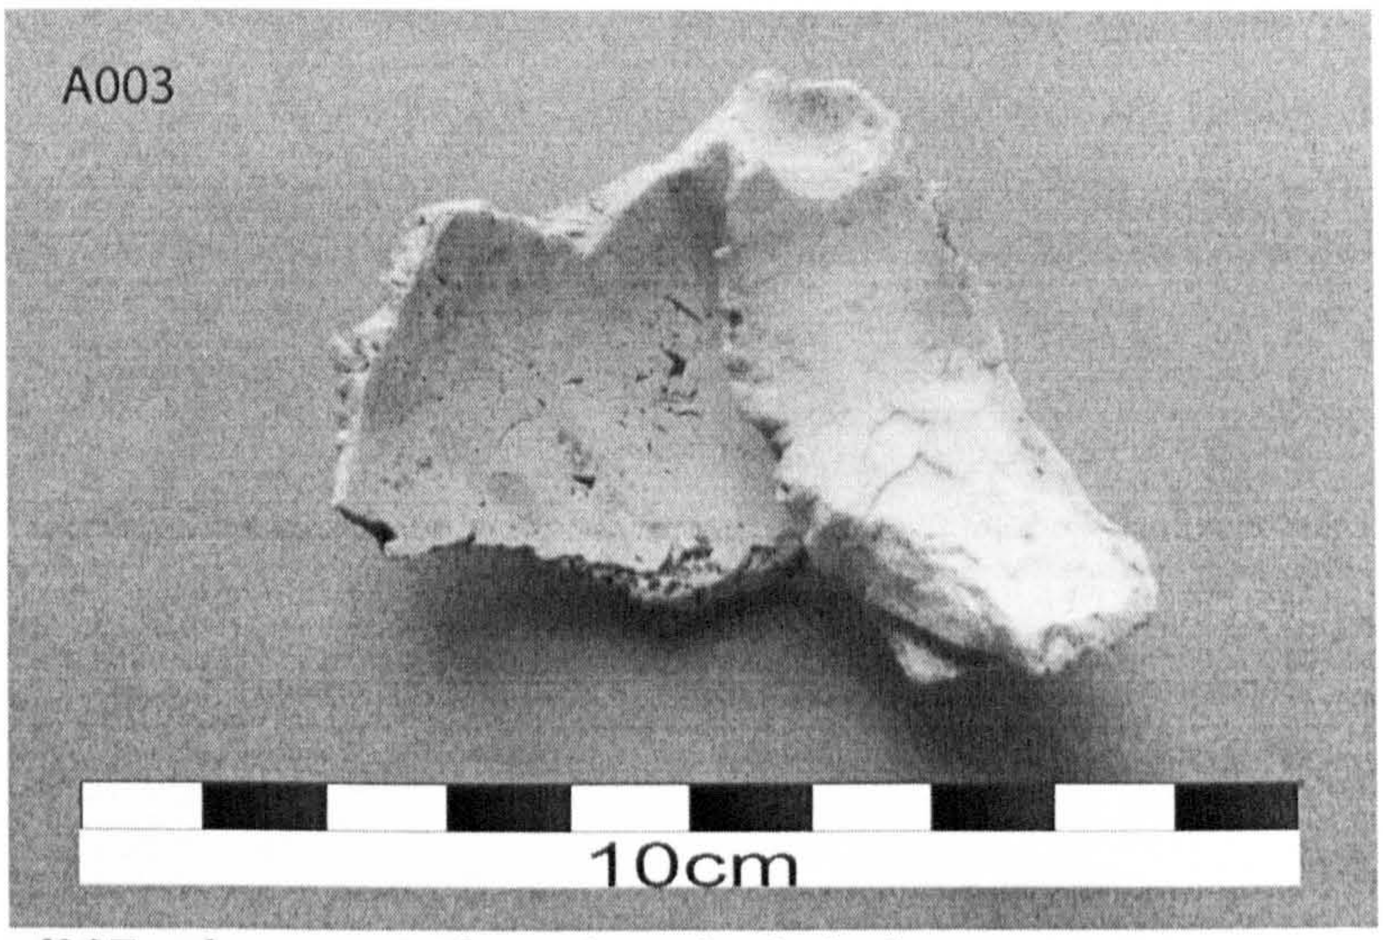

sf037-sf043 – unworked shell

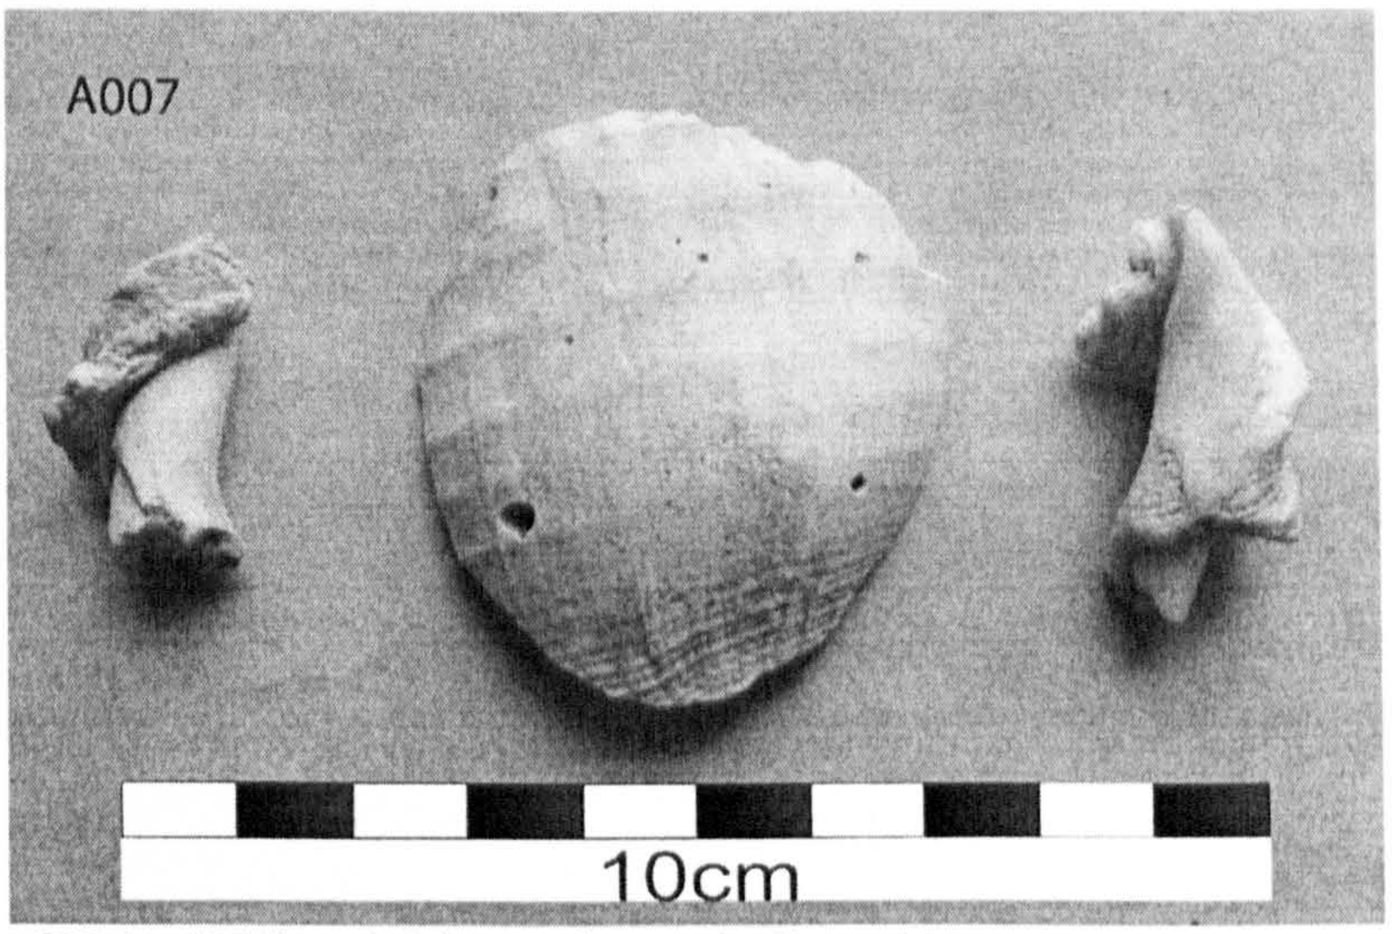

sf071-072

Shell debitage

sf007 – fragment of semi-worked shell

sf034-sf036 – debitage from shell working process

Rubber Stone

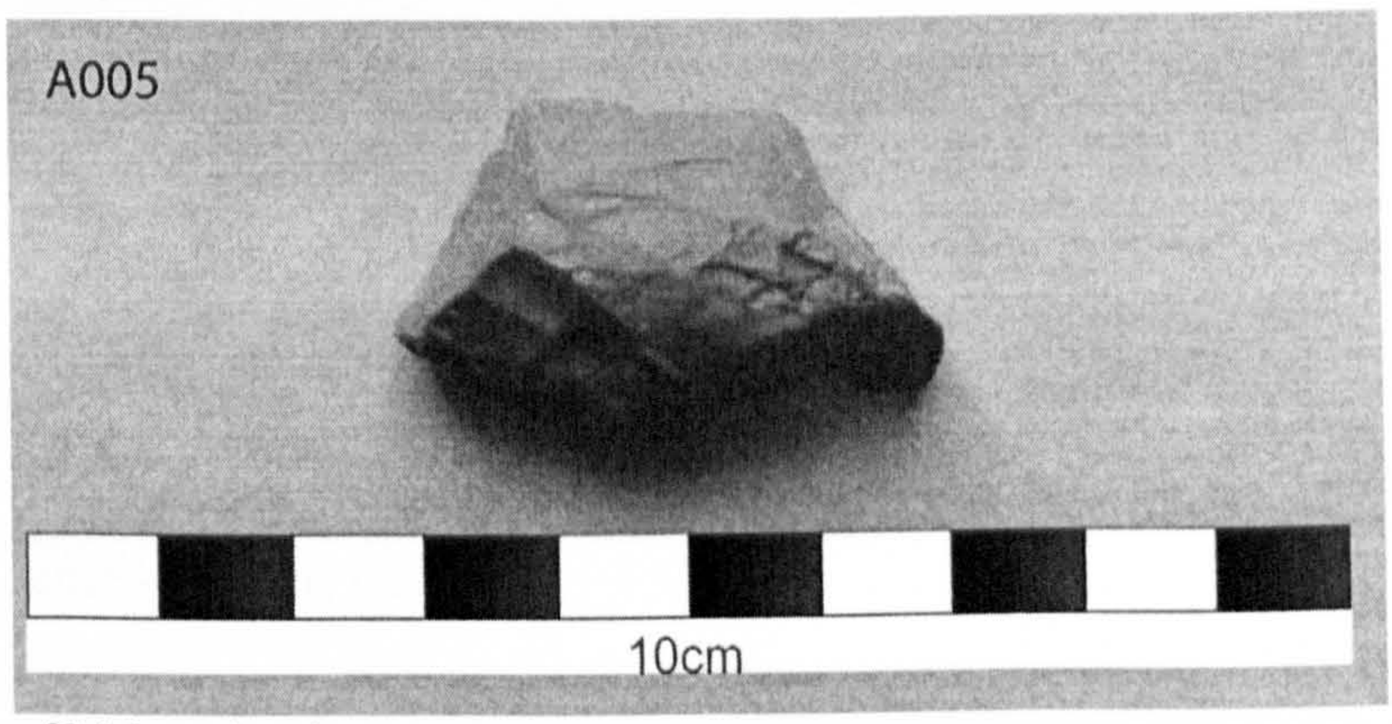

sf001 – rubber stone made from basalt

Lithic Cores, Flakes and Nodules

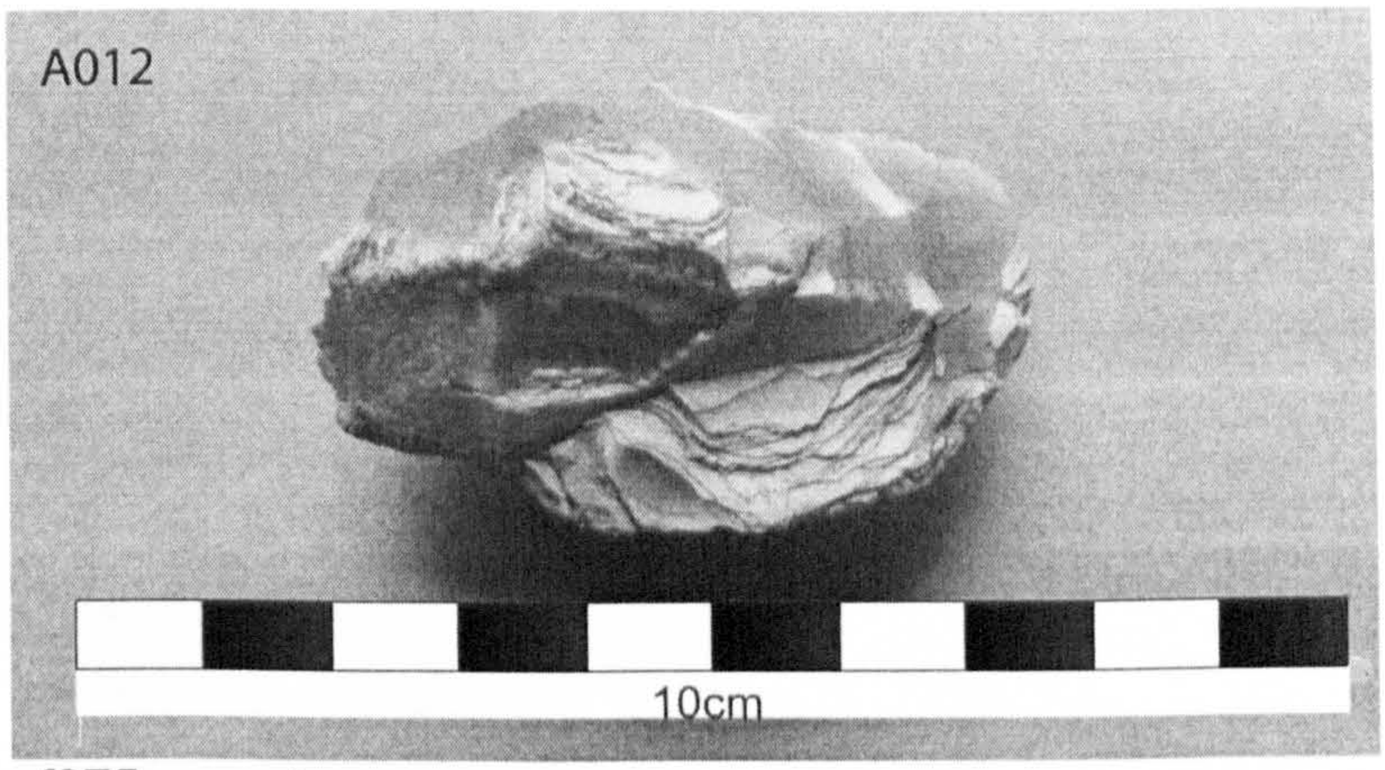

sf009 – chert core; sf010-sf011 – quartz flakes; sf012 – quartz nodule

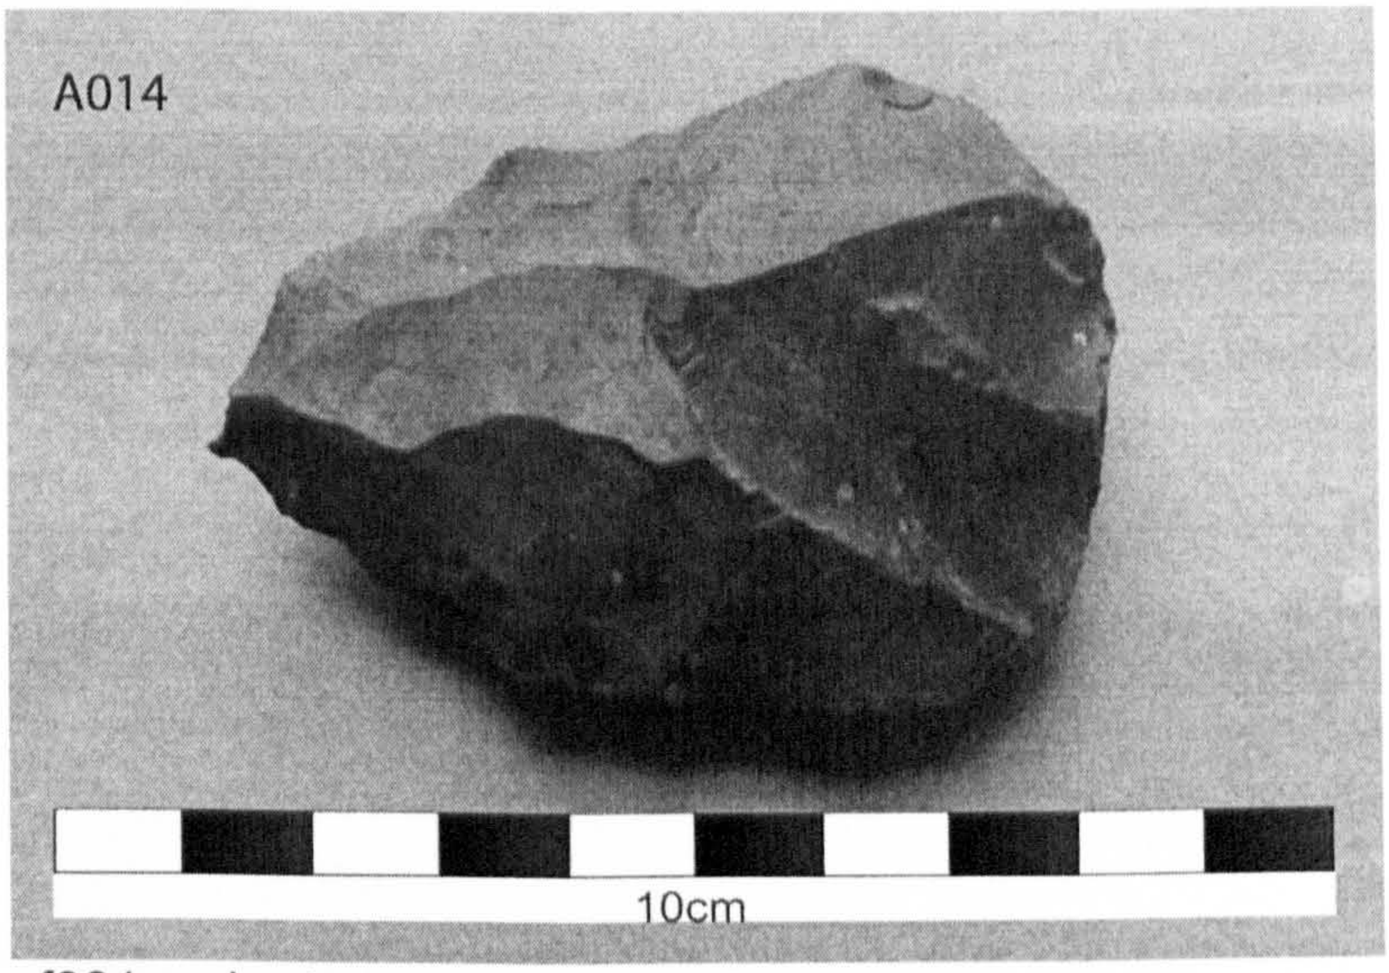

sf014 – chert core

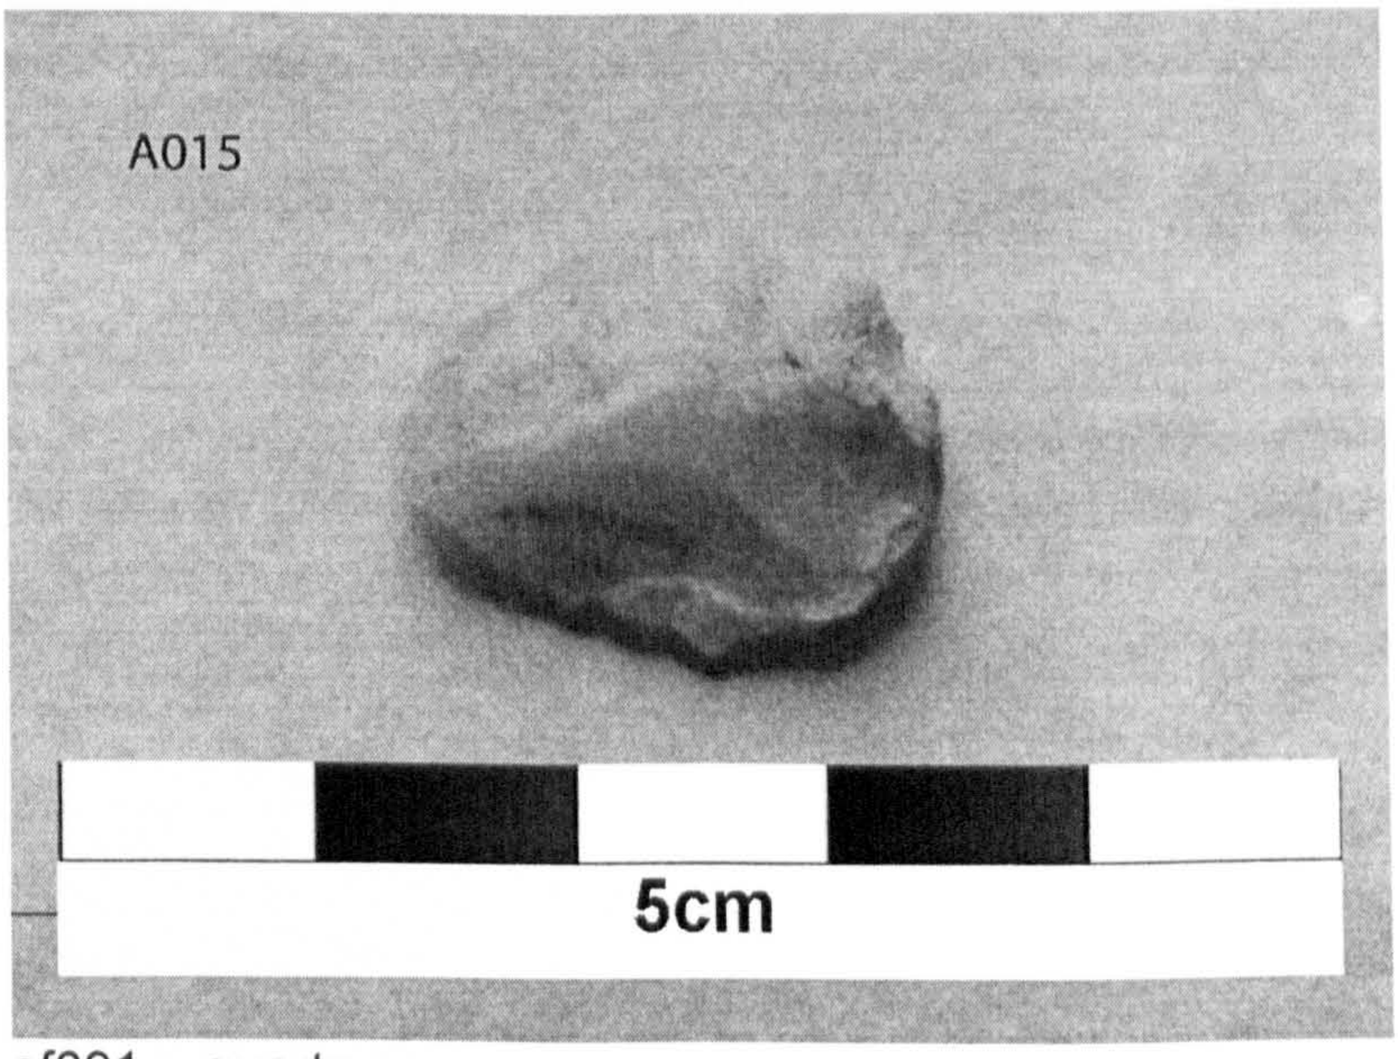

sf044 - core chert; sf045 – agate core; sf046 – chert flake
sf047 – agate core; sf048 – agate core; sf049 – agate flake

sf075 – agate core

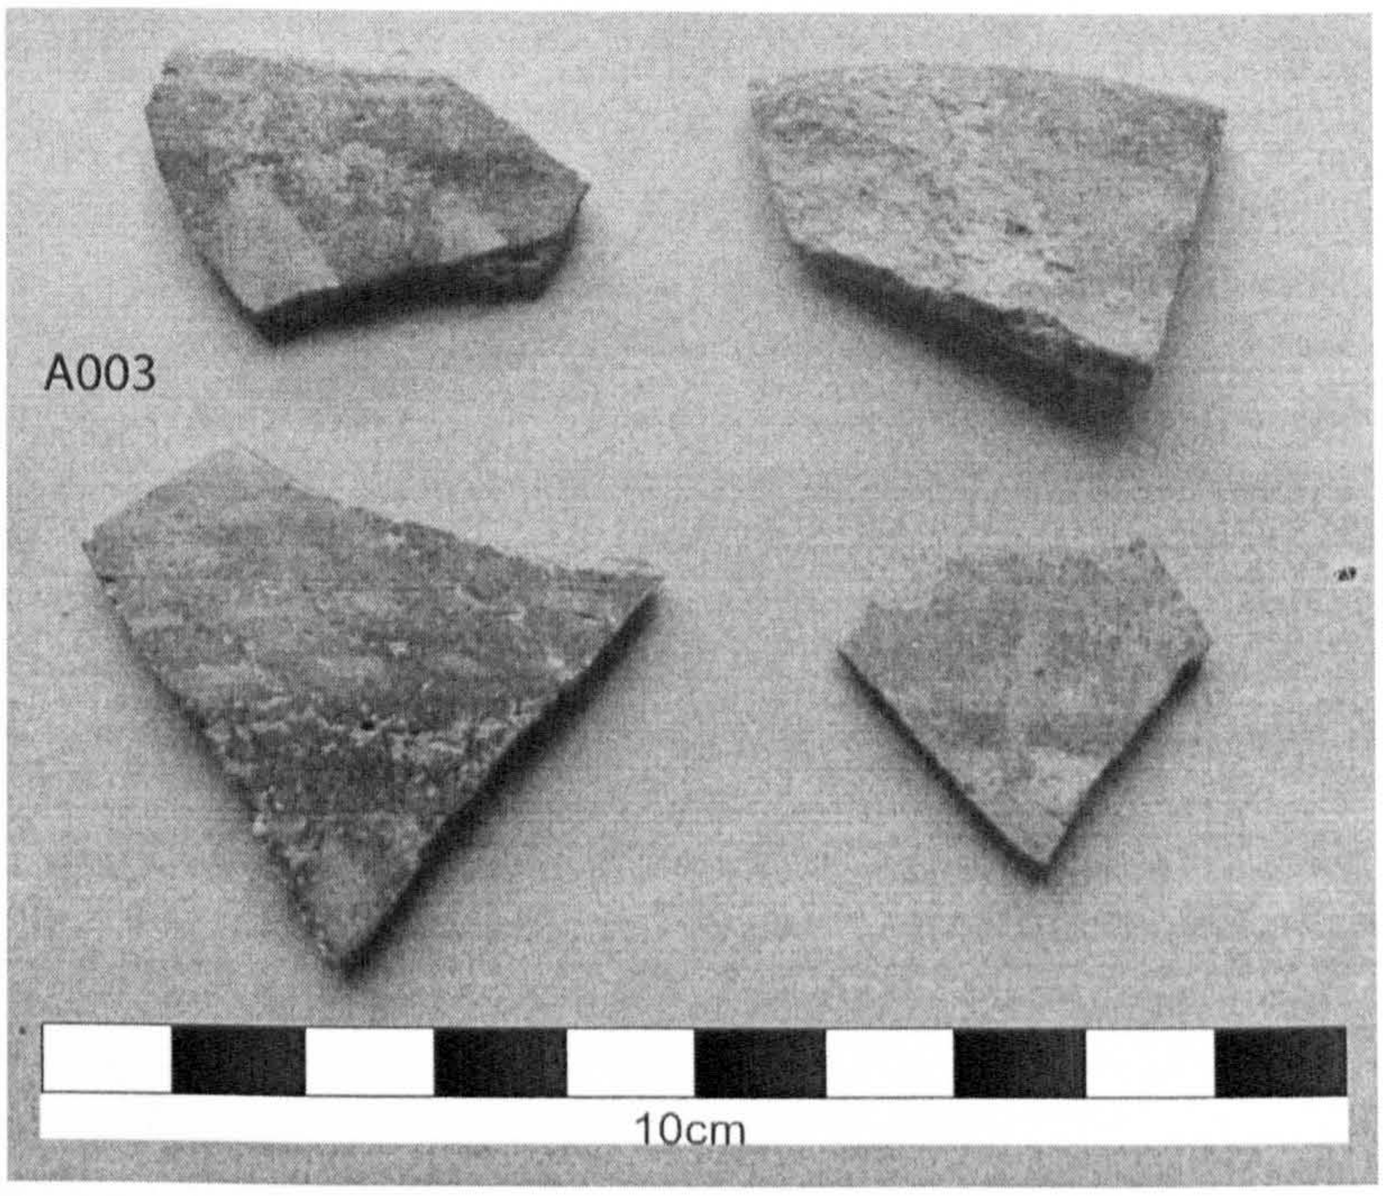

sf081 – chert core

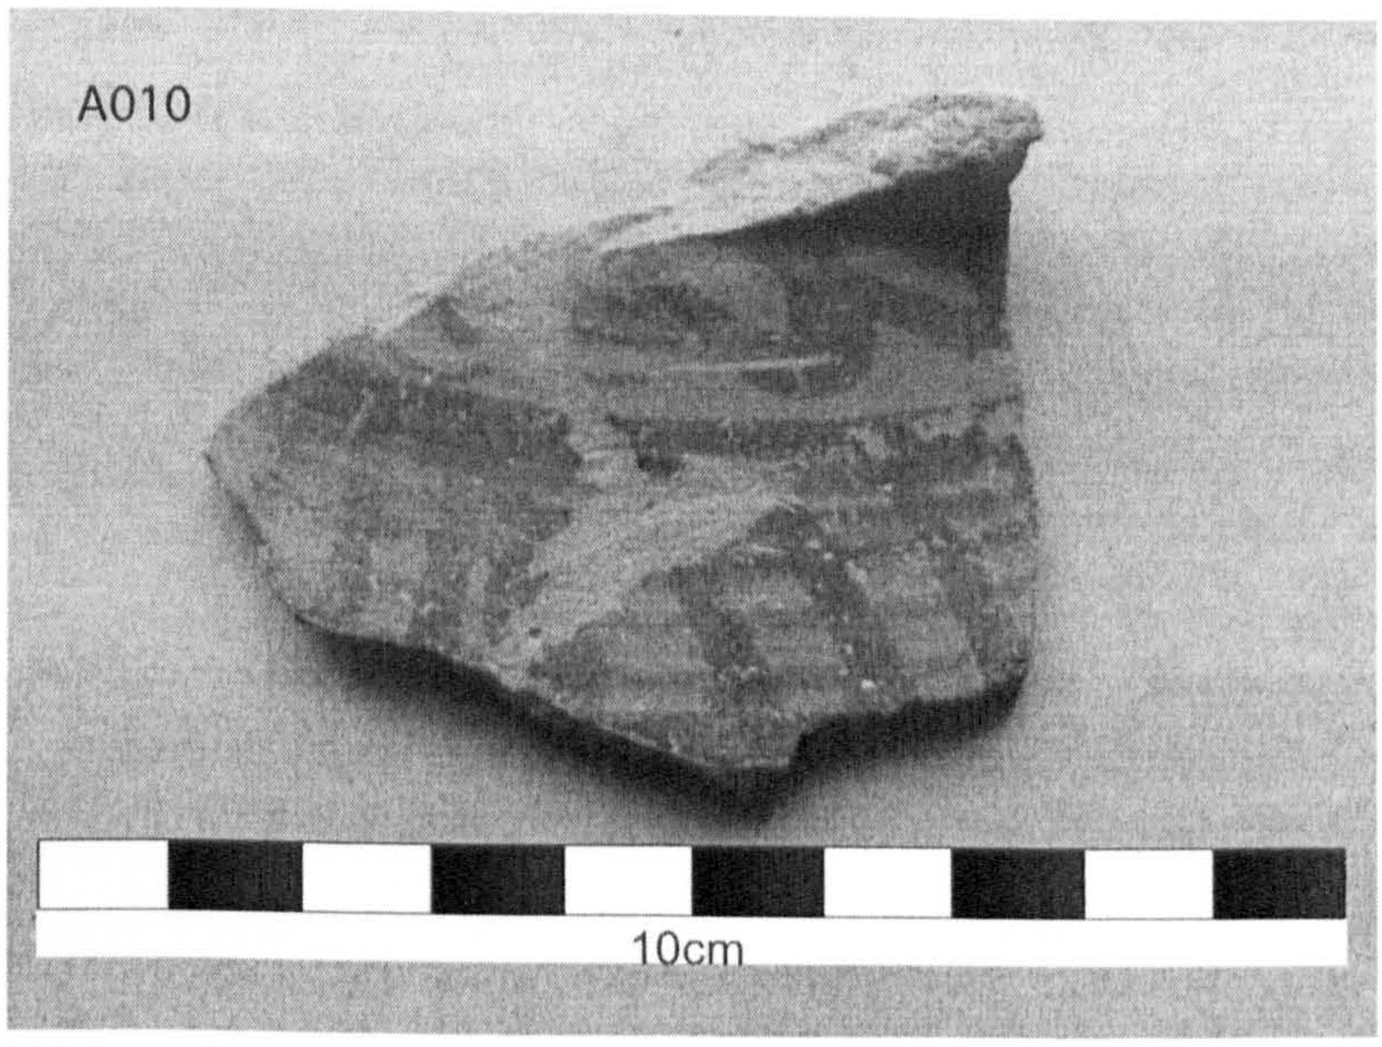

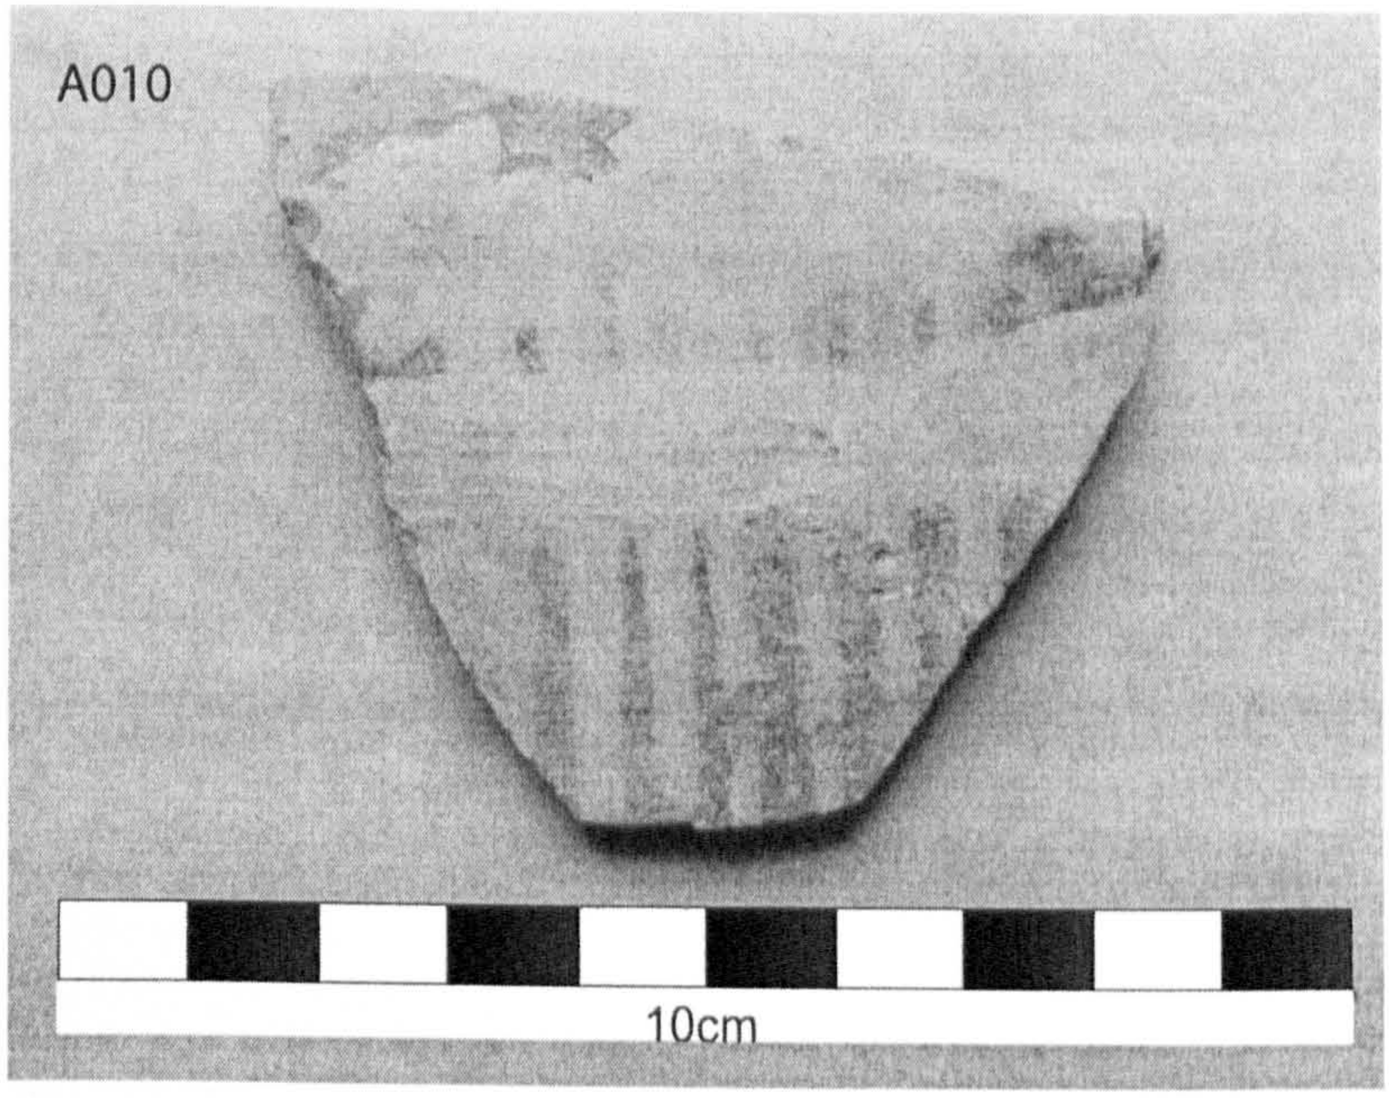

sf091 – quartz core

Decorated ceramics

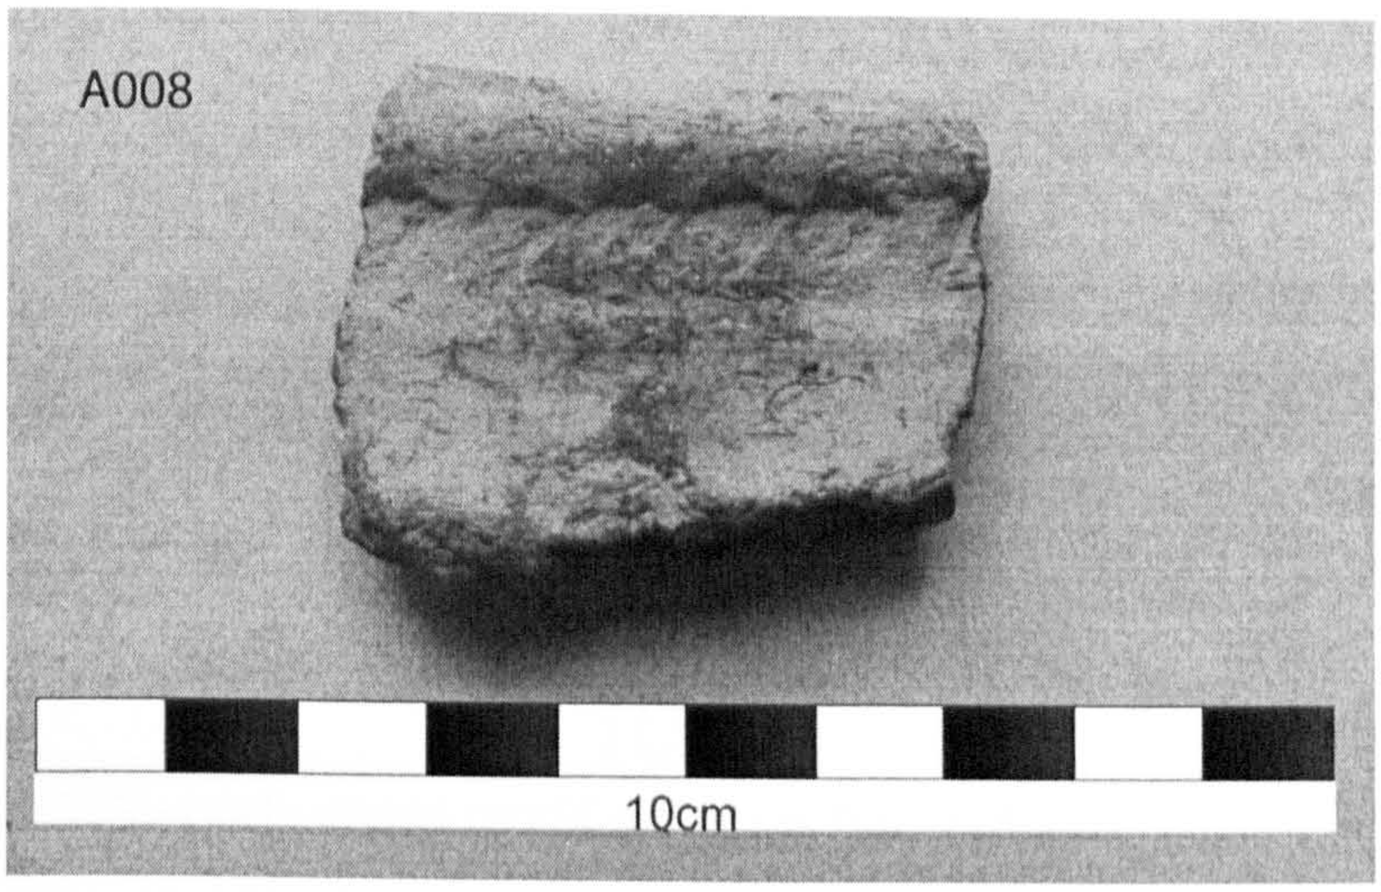

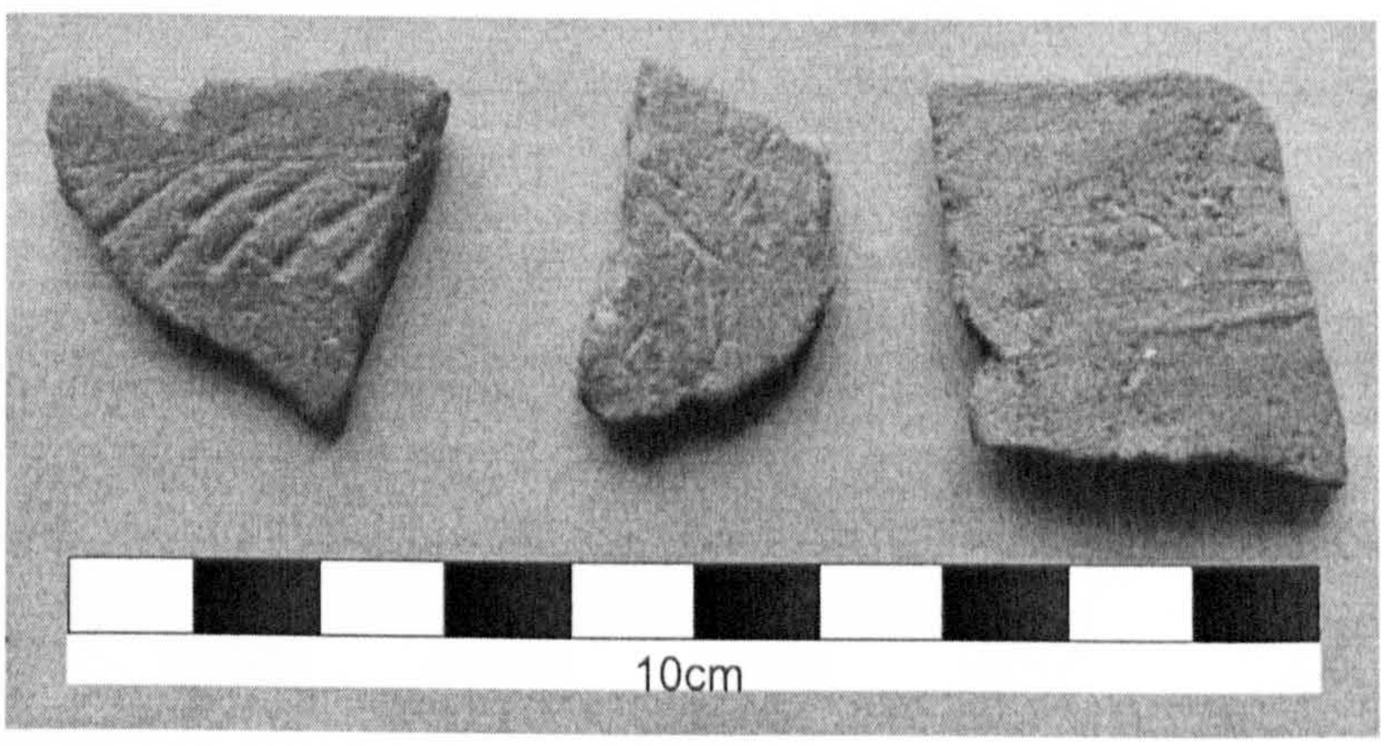

A010
10cm

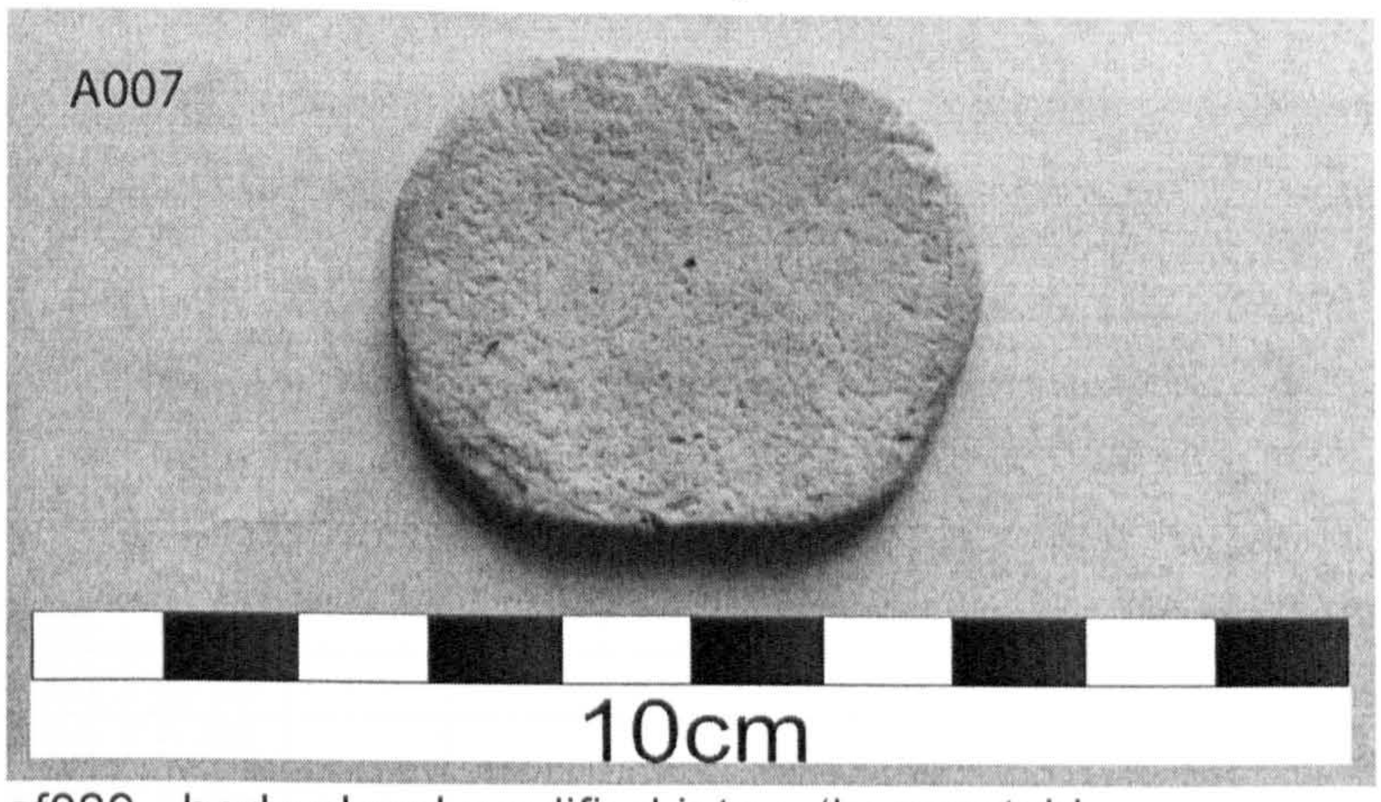

A010

Appendix Two

Appendix Two contains the data from published surveys and excavations within Gujarat. The following pages contain a list of all of the sites, and provide detail concerning the location, phasing and size of each site.

The Gujarat dataset has been compiled from a number of different sources, ranging from published survey reports, journal articles, volumes such as *Indian Archaeology: a review*, and excavation reports where available. However, the diverse sources of information mean that in some cases data has been omitted, is not available, or has been modified to allow a greater degree of congruency between sites. This Appendix should not be utilised as an exhaustive source of information about the sites listed – references for the source material is included within the Appendix. See section 4.4.2 and 4.4.3 for more details regarding how the dataset was compiled, and for a brief history of excavation and survey within Gujarat.

The data is divided into three sections – Site Information, Periodisation & Size, and Affiliation. Site Information provides the basic information for each site – its name, location, site number (listed on the maps within Chapter Five), and references. Locations are given in hours.minutes.decimal seconds. The Periodisation and Size section is straight forward, indicating the periods during which the site was occupied and the size of the site during this period. Finally, the Affiliation section indicates whether a site is characterised by one of the many different archaeological "cultures" present within Gujarat. The accuracy of this section is less reliable than the previous two, due to the constantly changing understanding of the cultural diversity present within Gujarat.

Appendix Three

Appendix Three contains the data from Mughal's survey of the Ghaggar-Hakra River within Cholistan. The following pages contain a list of all of the sites identified and used within this thesis, detailing the name, location, periodisation, size and function of each.

The Cholistan dataset is derived from a single field survey undertaken over several years. As all of the data has been compiled by the same team, it is much more homogenous than the Gujarat data. The data is developed primarily from *Ancient Cholistan* (Mughal 1997), although elements have been incorporated from some of his other papers on the subject (Mughal 1971, Mughal *et al.* 1996). As a result, bibliographic data is not included within the appendix. As with the Gujarat dataset, this appendix details only the basic site information – for more detailed information the original publications should be consulted. See section 4.4.4 and 4.4.5 for more information regarding the methodologies used within Mughal's survey.

The data is divided into two sections – Site Information and Phasing. Site Information provides the basic information – site number, site name and its location. Again the location is given in hours.minutes.decimal seconds. The second part of each entry details the phasing of each site – divided into Hakra, Kot Diji, Harappa and Punjab Phases - the size during said phase and the function assigned by Mughal. More specific information regarding each site may be available in one or more of the articles or books published by Mughal on the subject.
