Use policy
The full-text may be used and/or reproduced, and given to third parties in any format or medium, without prior permission or charge, for personal research or study, educational, or not-for-profit purposes provided that:

- a full bibliographic reference is made to the original source
- a link is made to the metadata record in Durham E-Theses
- the full-text is not changed in any way

The full-text must not be sold in any format or medium without the formal permission of the copyright holders.
Please consult the full Durham E-Theses policy for further details.
K.A. STEER, The Archaeology of Roman Britain

PLATES: There were originally 51 plates, numbered 1–14, 15A & 15B, 16–50. Plates 1–3 are maps. Plates 10, 15A, 21 and 26–28 were lost in the period before the thesis returned to the custody of the University Library. The portfolio should therefore now contain 45 plates, plus a second copy of plate 20.

RUBBINGS: There are 57 rubbings now present (on 60 pieces of paper), numbered as follows:

Nos 3–7 (3 is in 2 pieces)
14
16–18 (16 is in 2 pieces)
20
23–24 (24 is in 2 pieces)
25–28
30–35
37–41
47–48
50
53–55
58–59
65
67
74–75
77–81
86
92–98
103–104
106
111–112

Some rubbings originally present may have been lost, but most of the missing numbers refer to inscriptions which themselves are lost or survive only in a very fragmentary state (see the catalogue of inscriptions in vol.1)

FIGURES: In 1978 there was no sign of any of the figures listed at the start of the text volume, and no one could recall these ever having been present.
