Belle Tout Marl 3

Belle Tout Marl 2

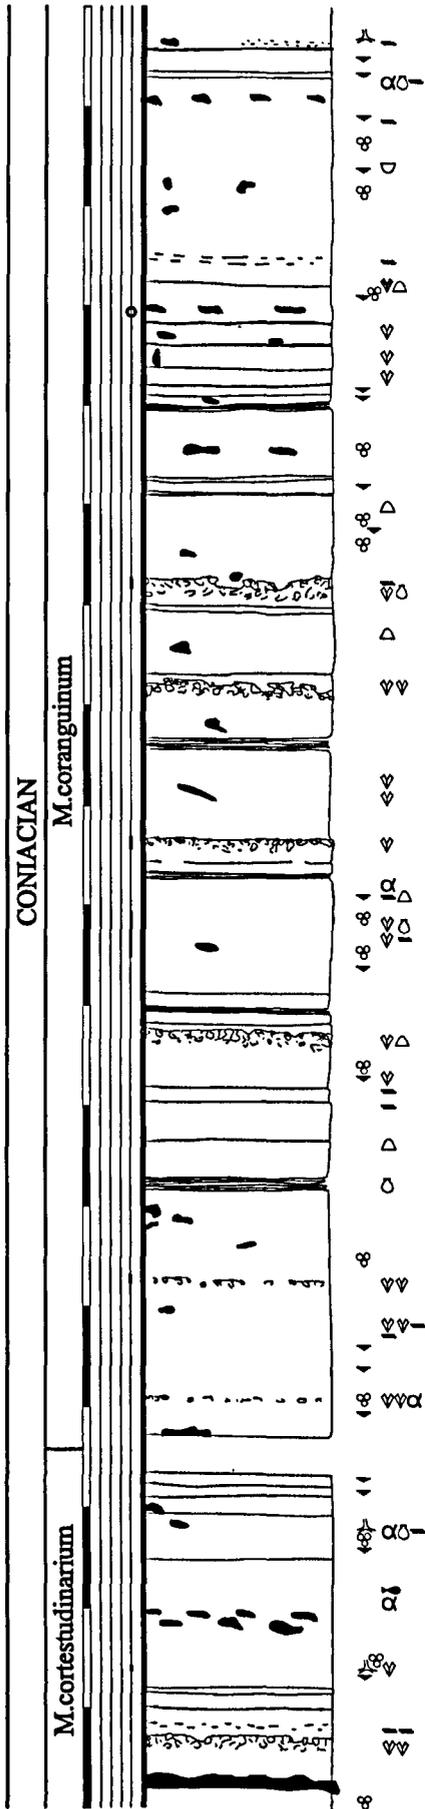

Belle Tout Marl 1

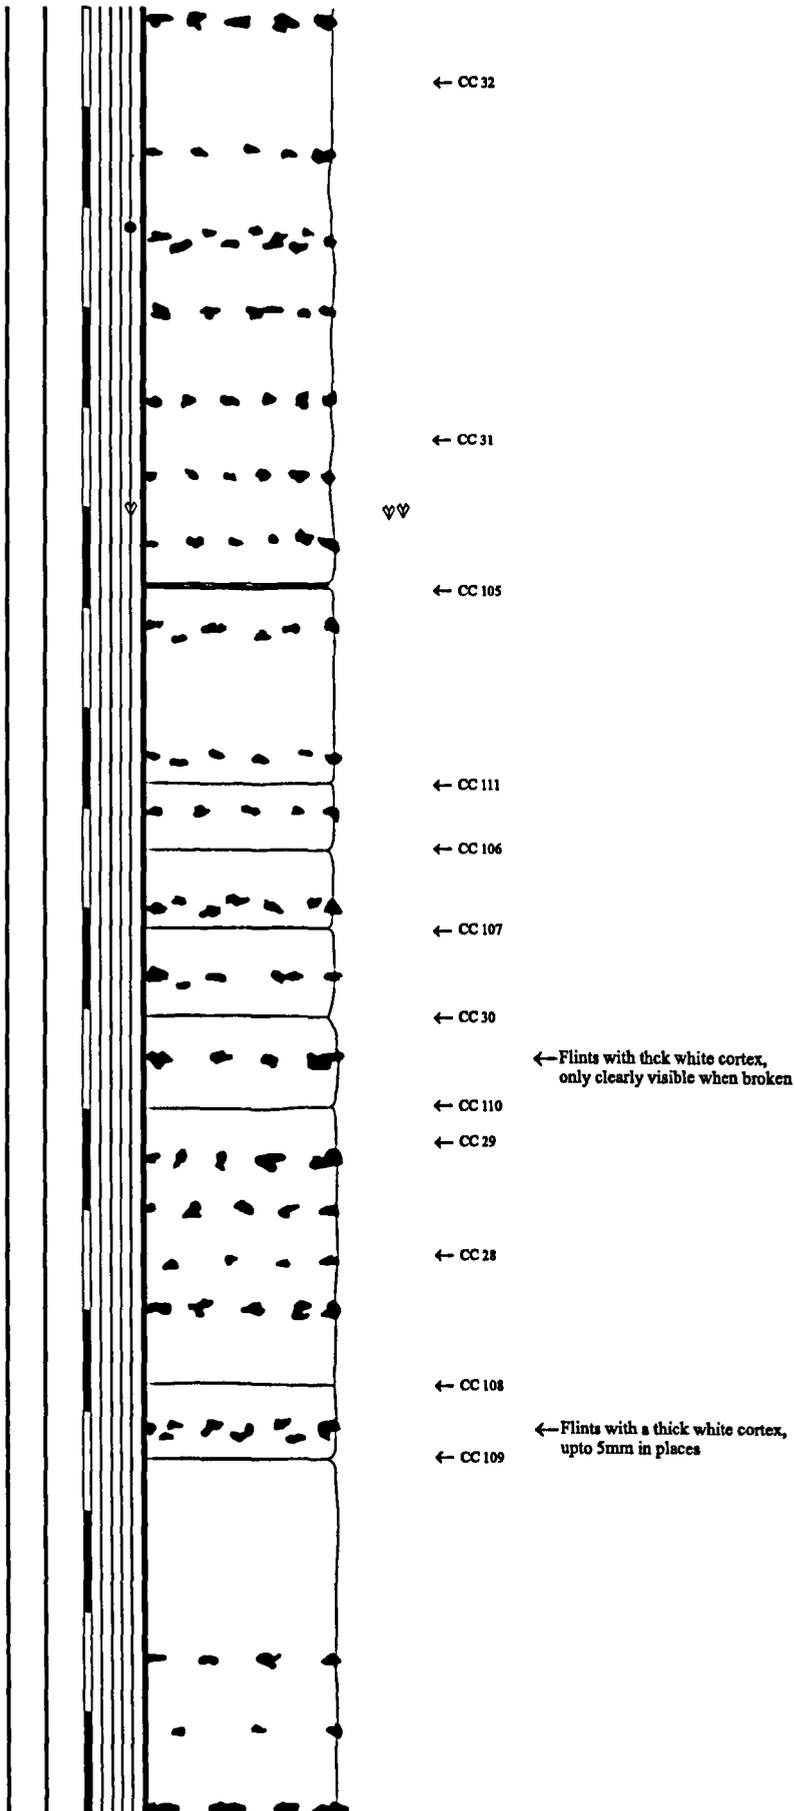

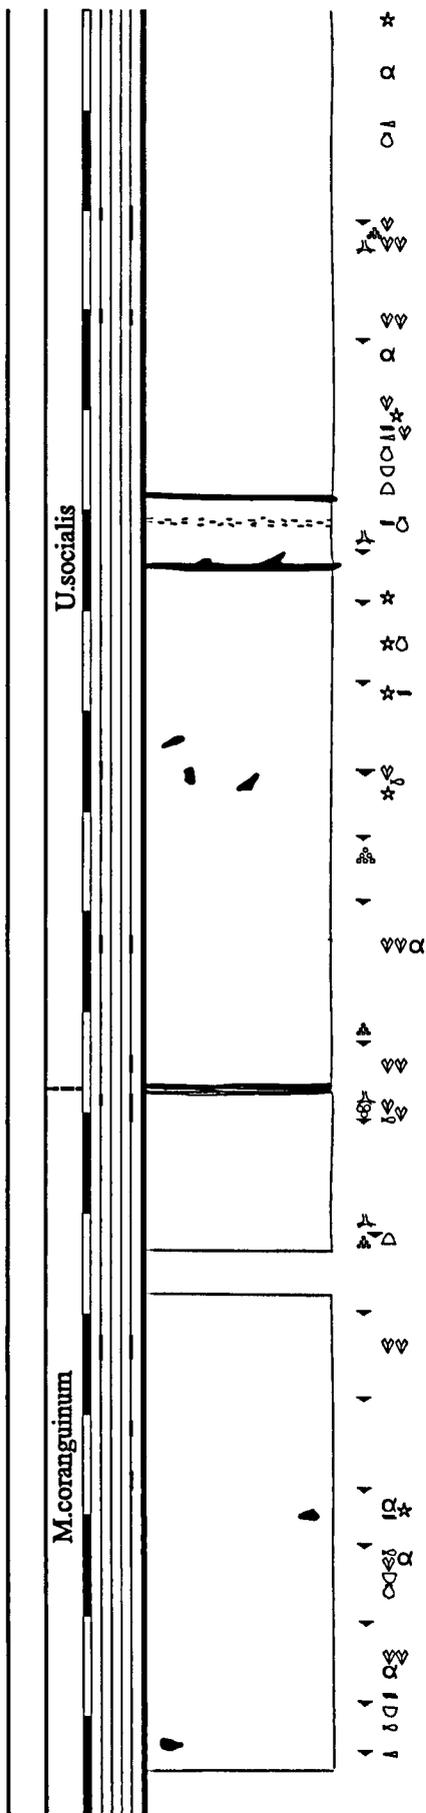

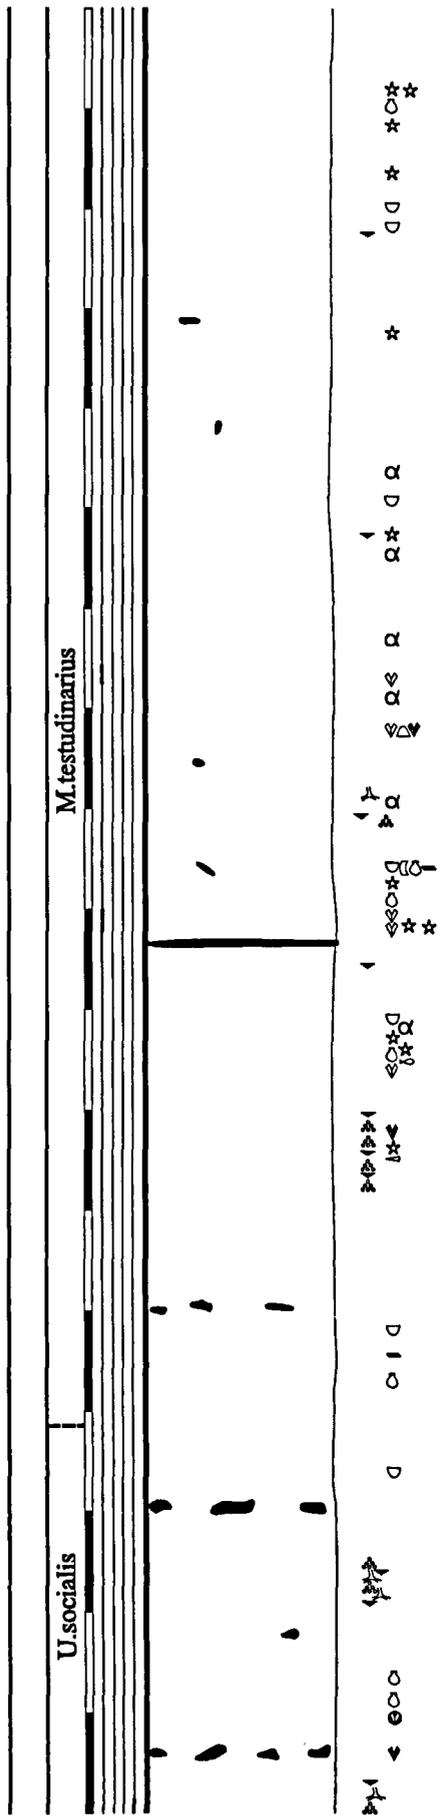

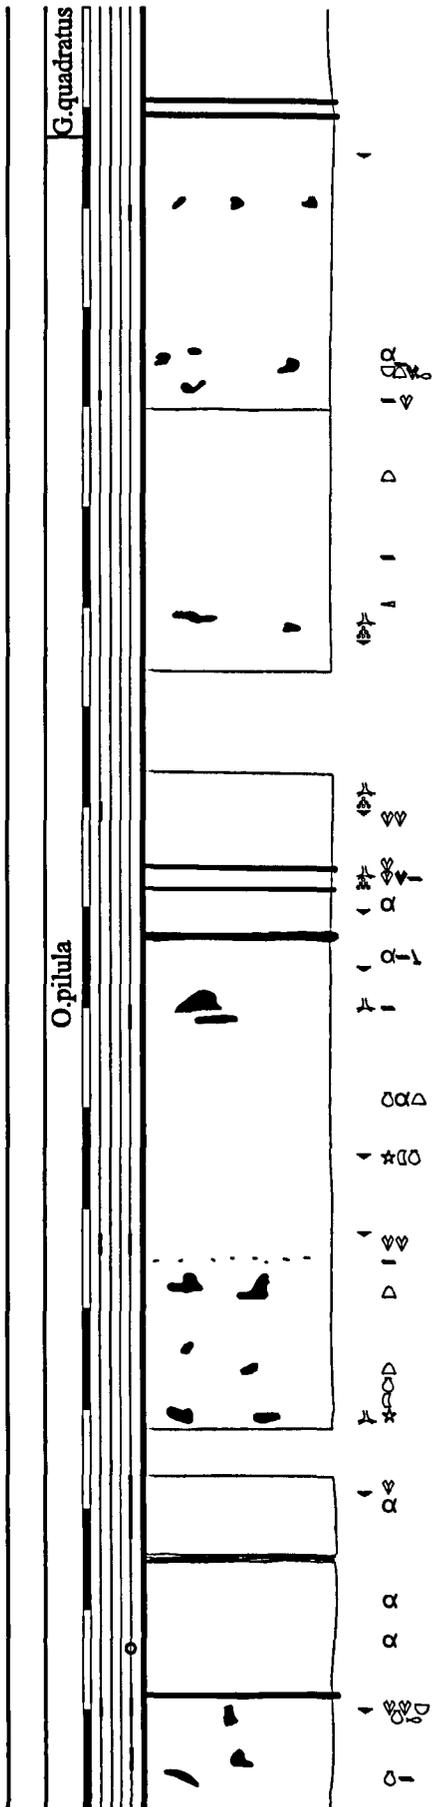

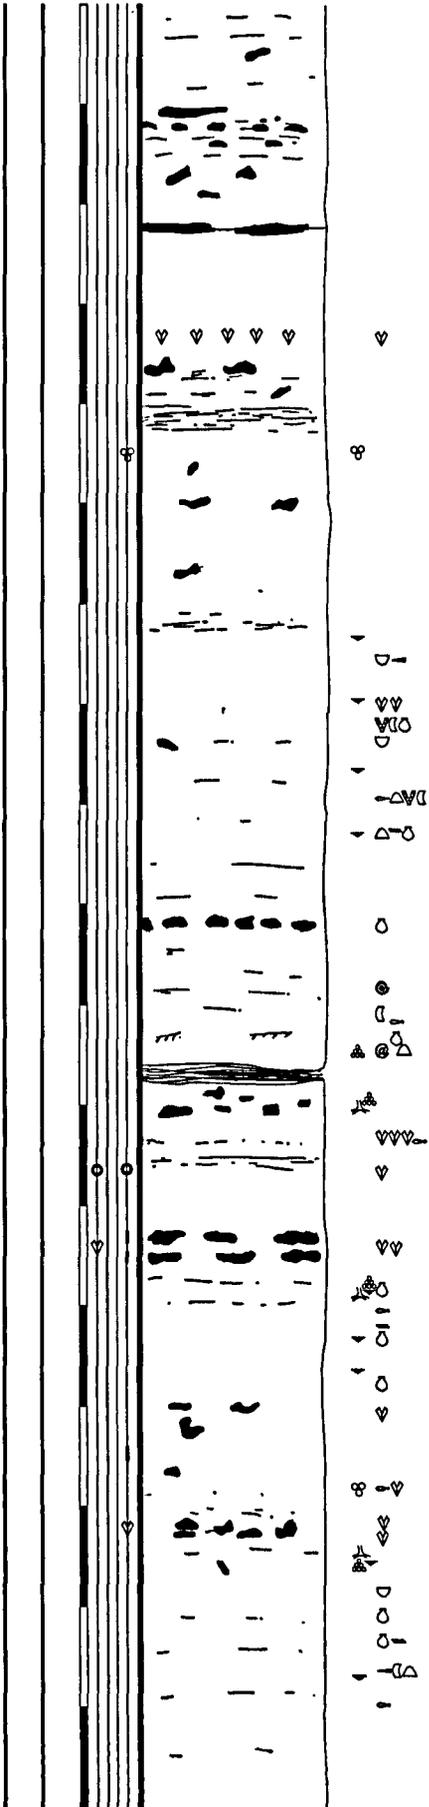

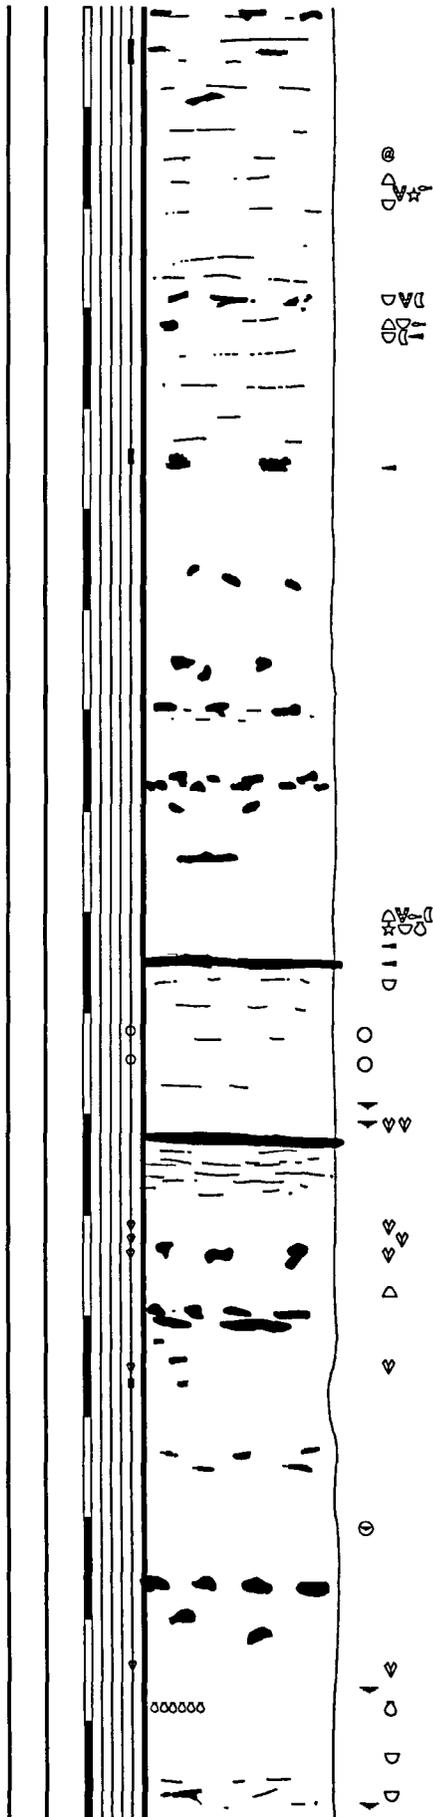

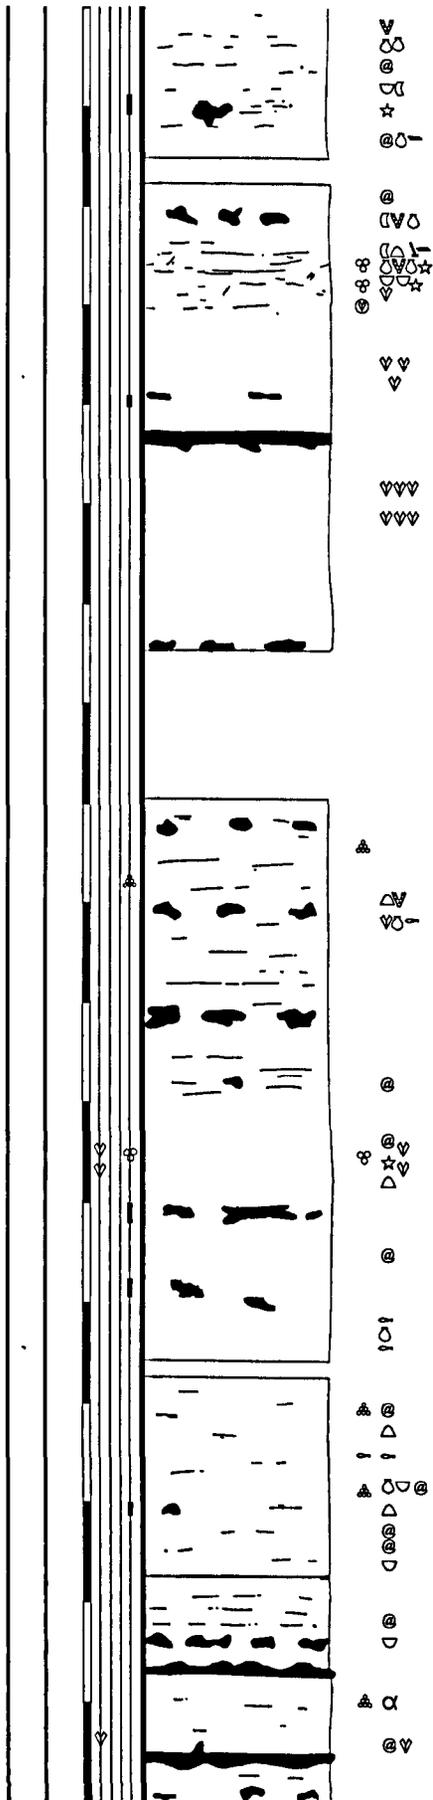

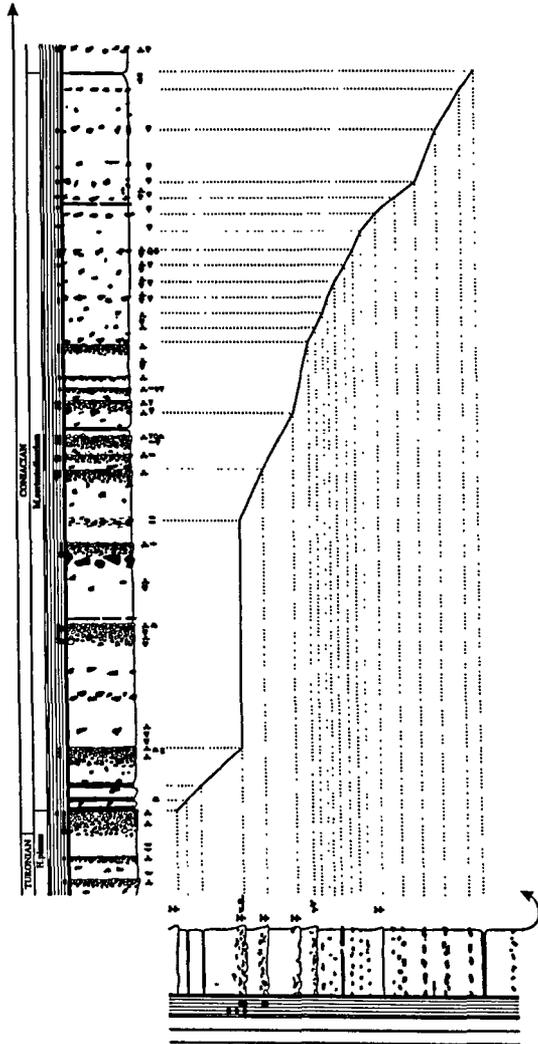

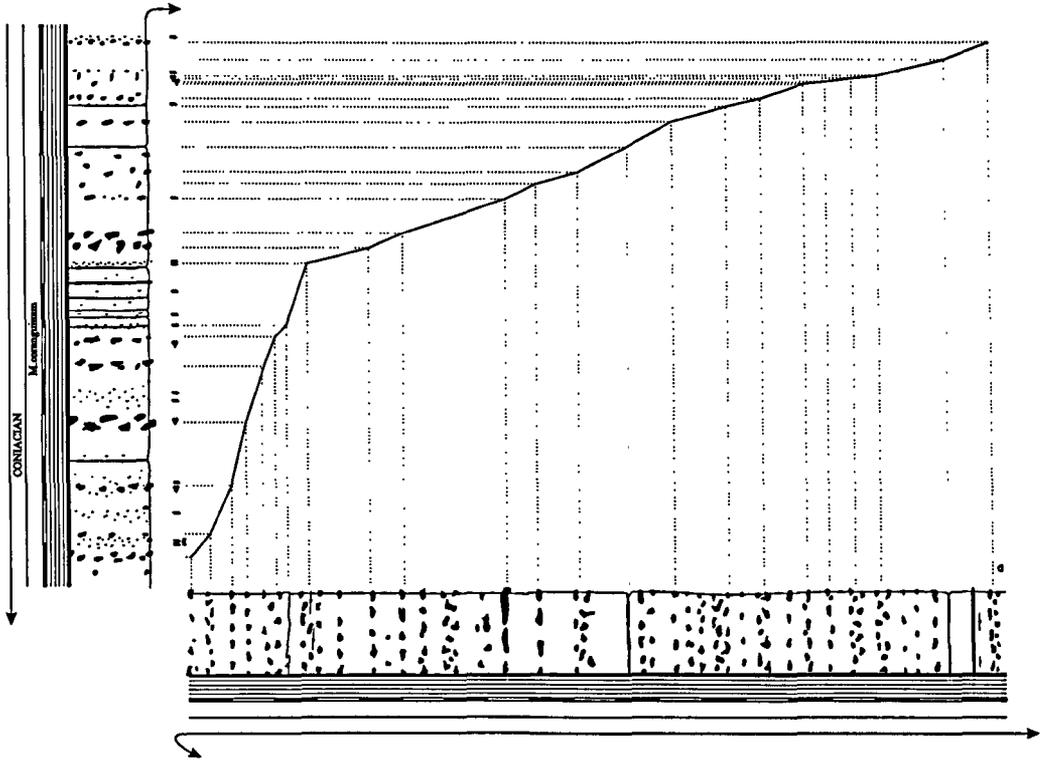

# Appendix B

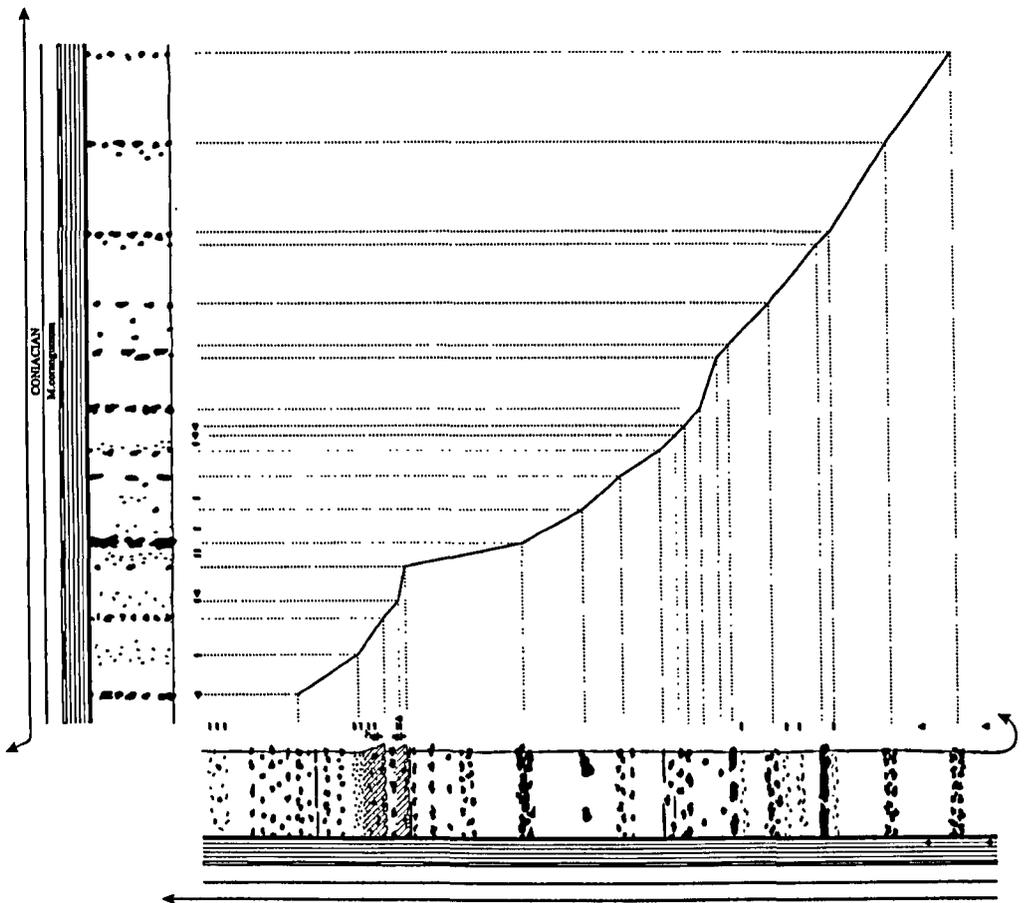

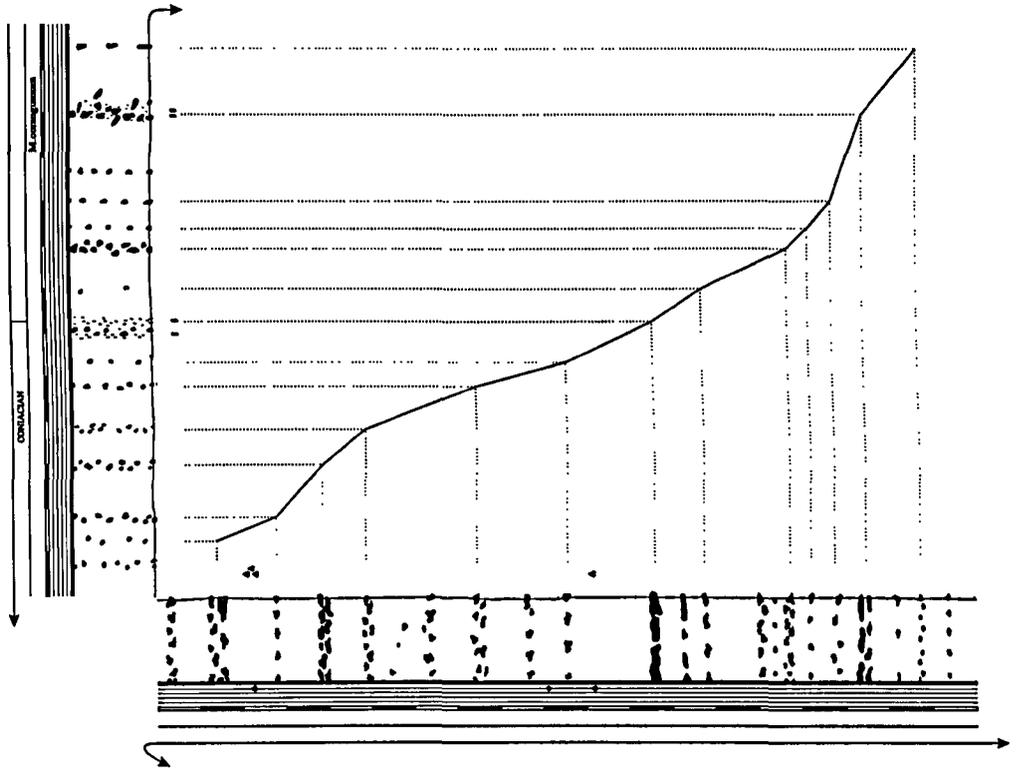

## Cross-Plots

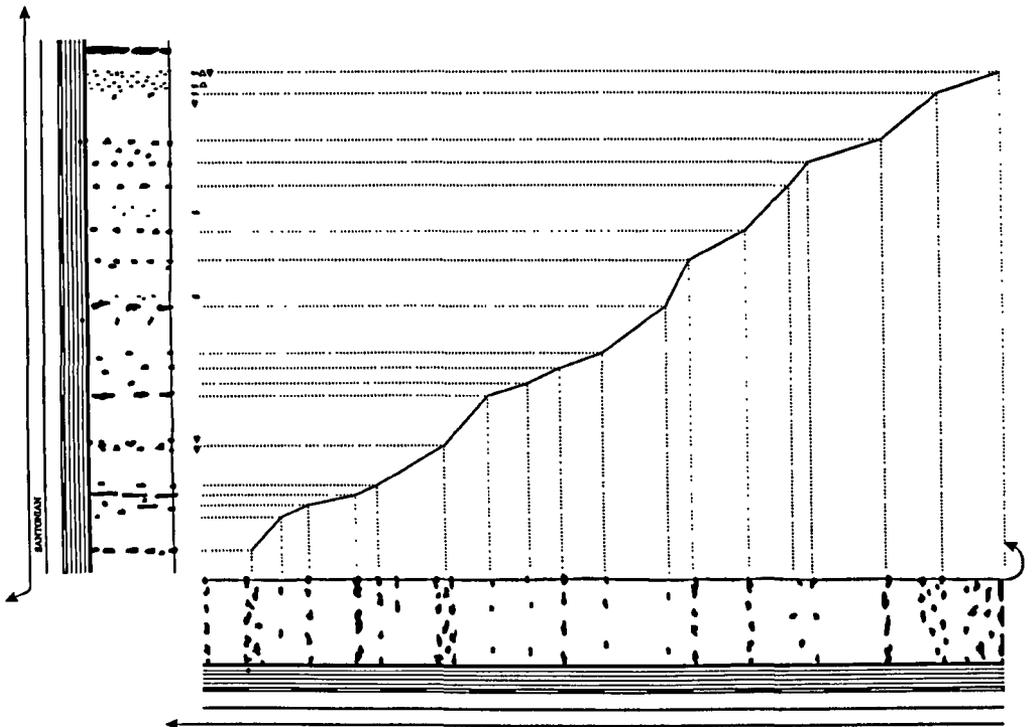

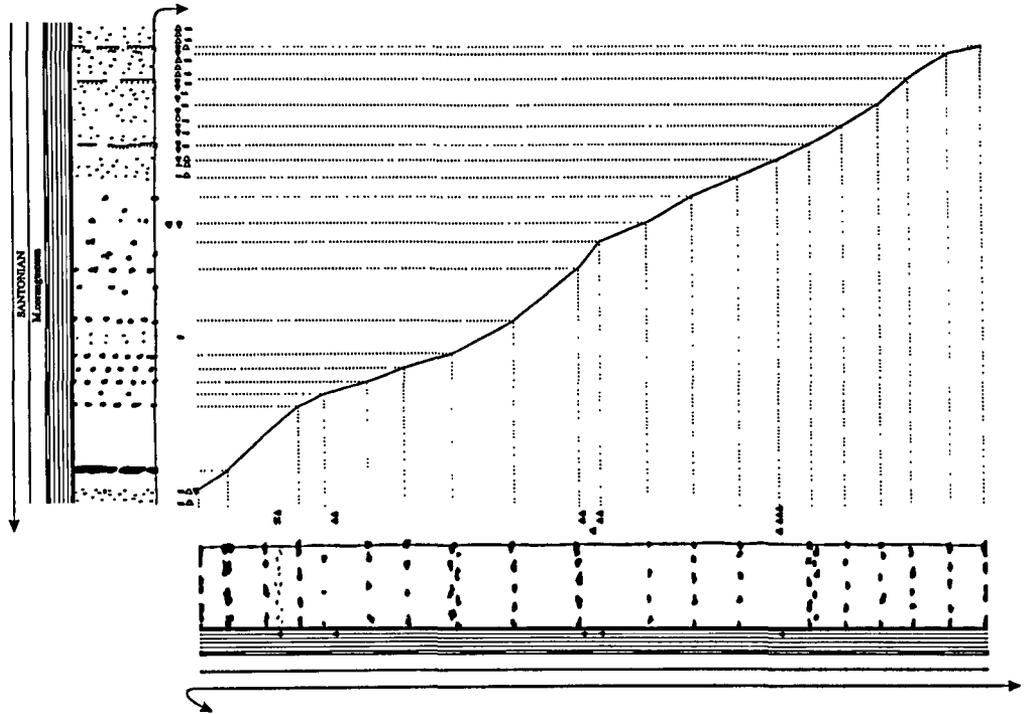

The main sections used in the sequence stratigraphical analyses, Culver Cliff, East Kent Coast, Précy-sur-Oise, Seaford Head and the Trunch borehole are cross-plotted against each other.

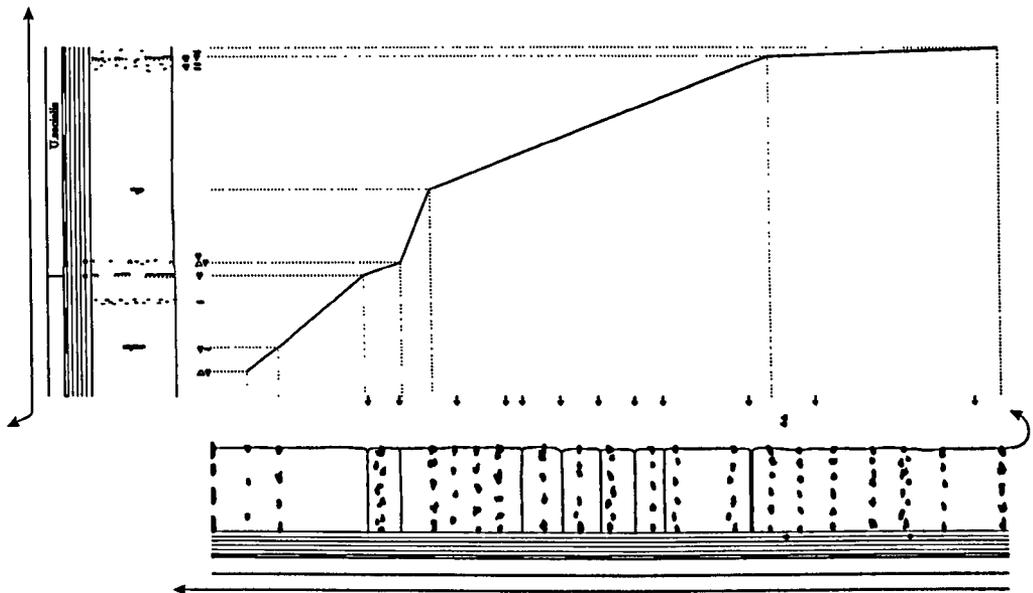

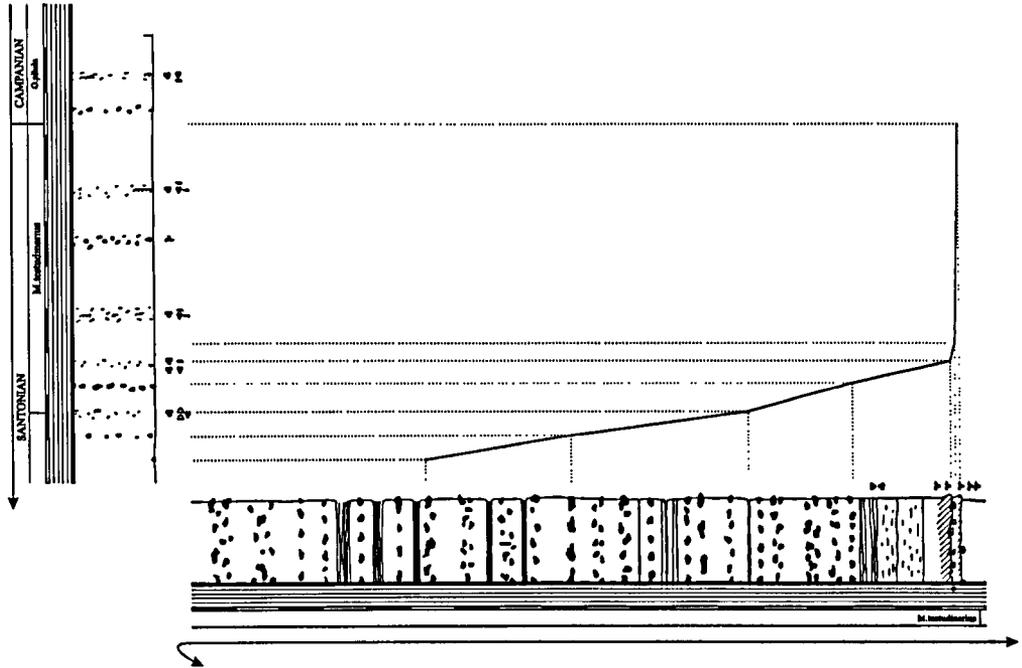

Secondary sections are cross plotted against the nearest convenient section to demonstrate the transfer of the sequence stratigraphical analysis to these less complete successions.

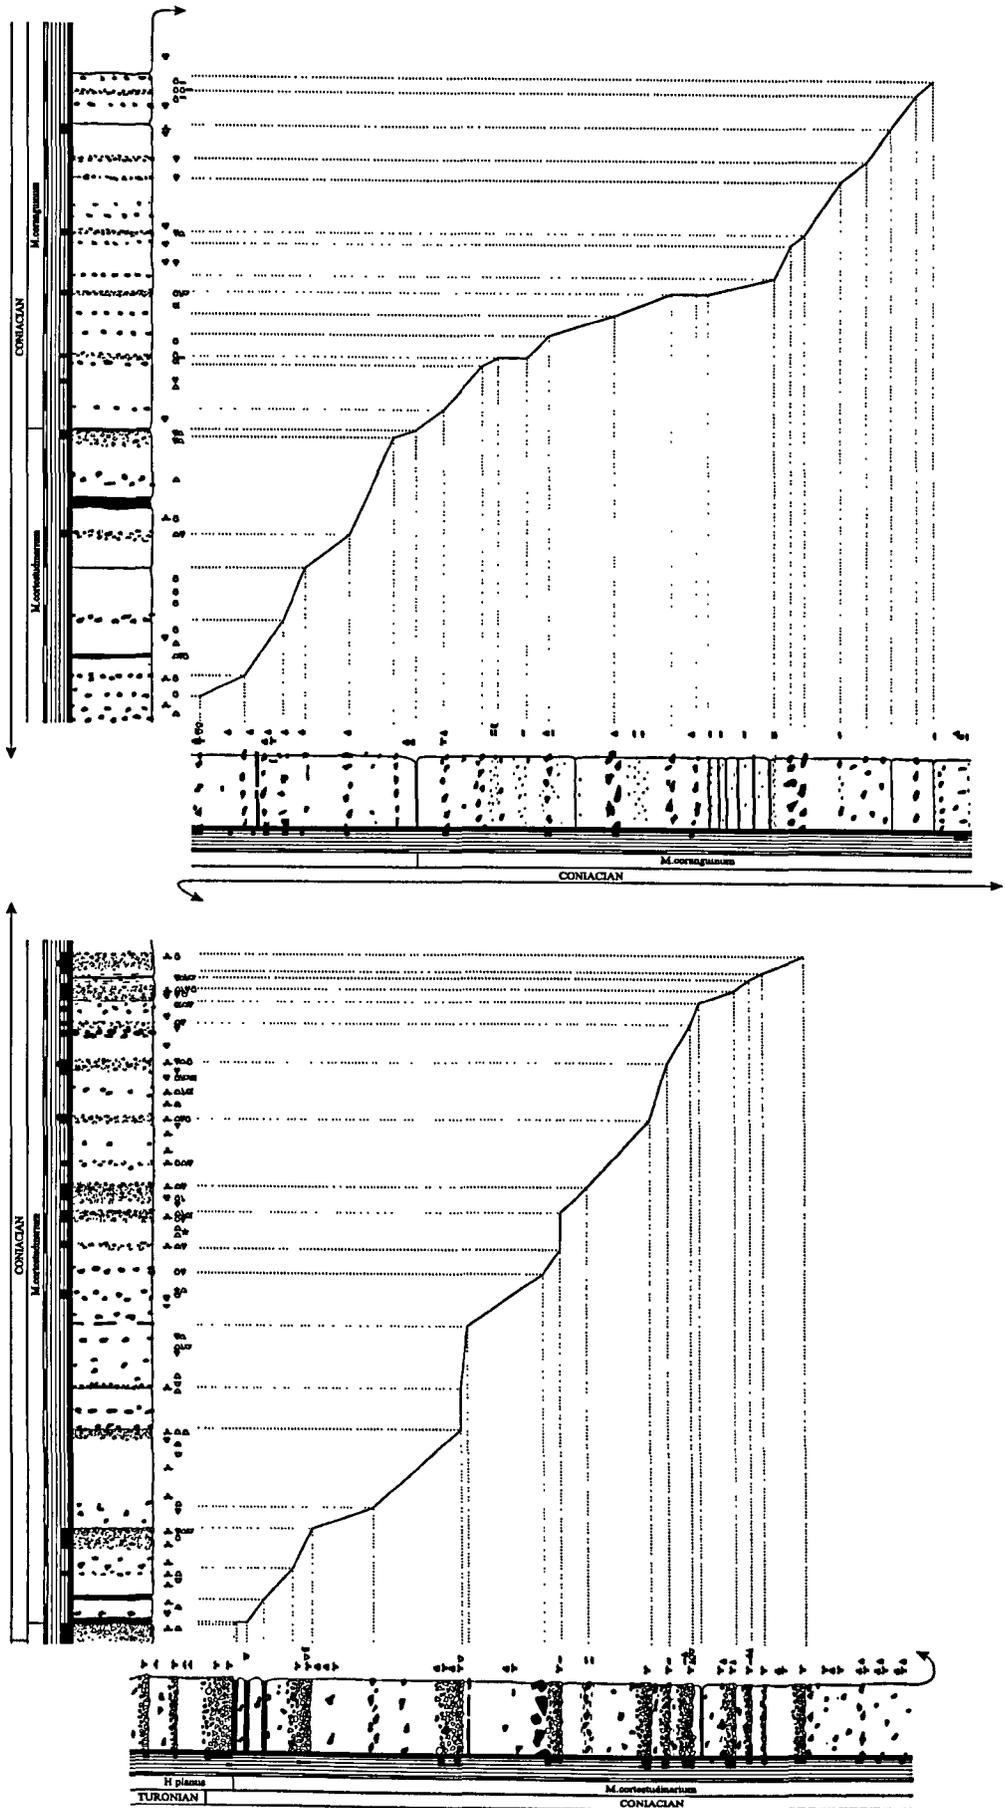

See inside front cover for the key to the logs. The first-named section is plotted on the horizontal.

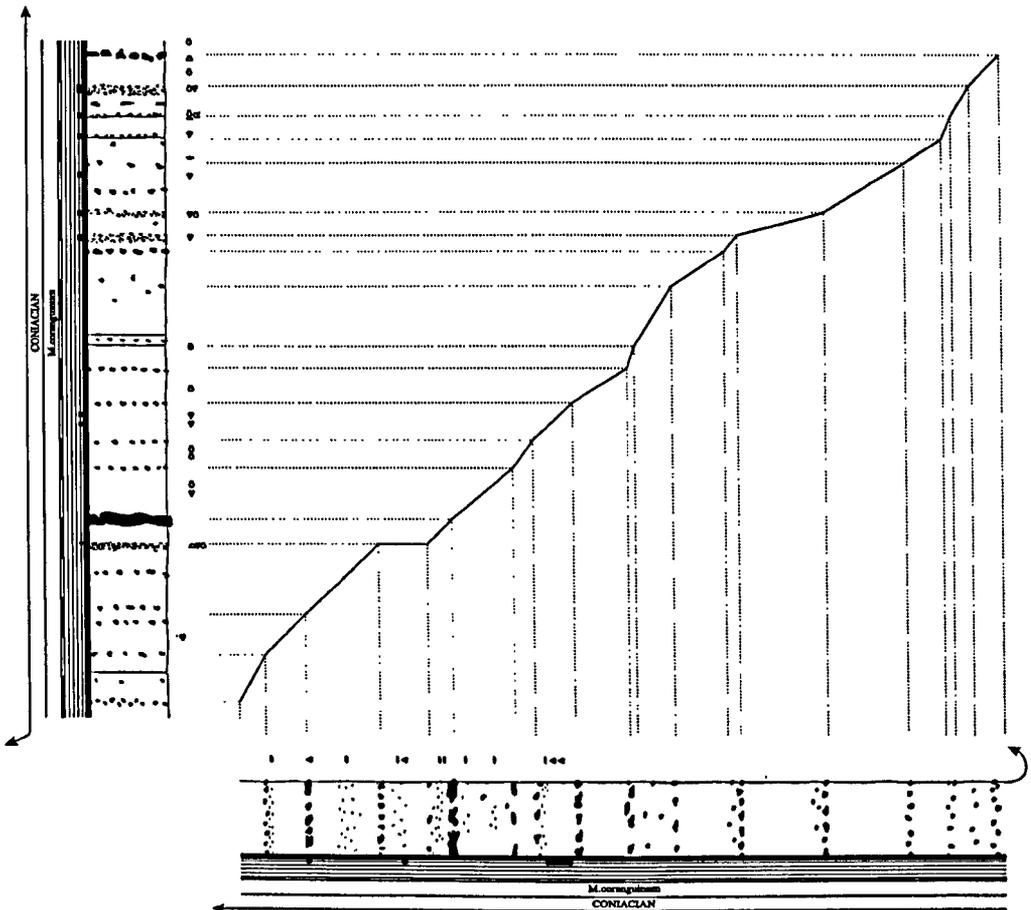

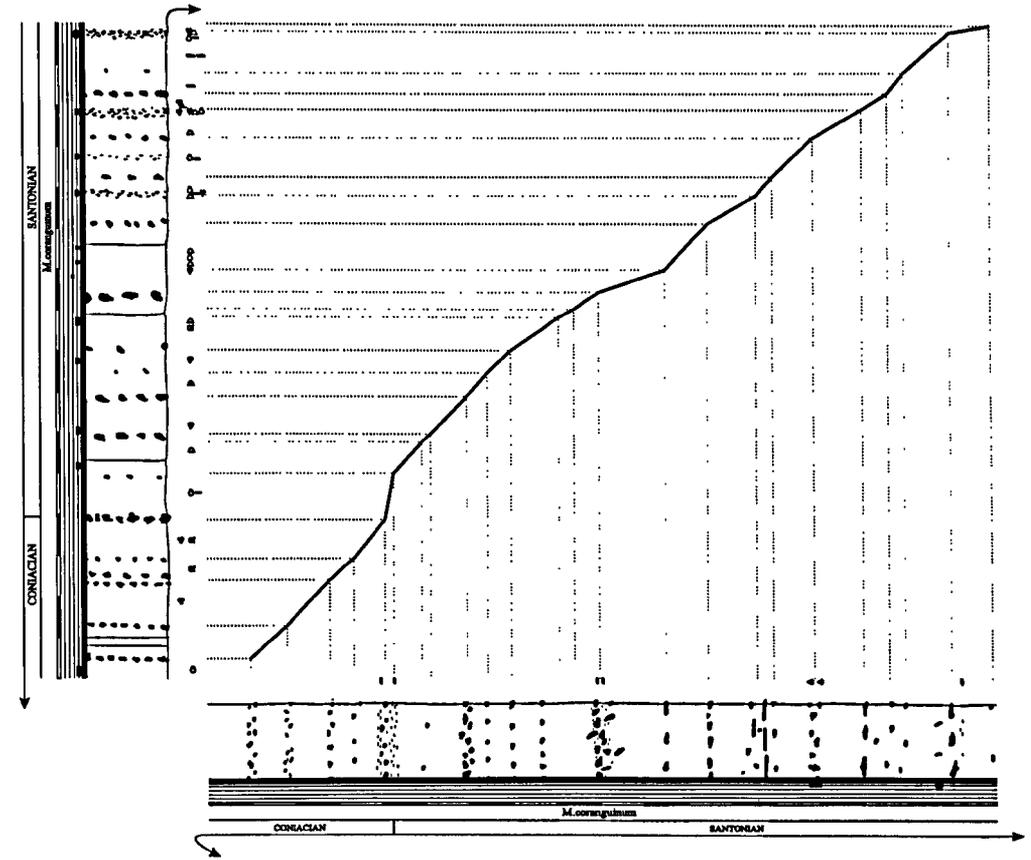

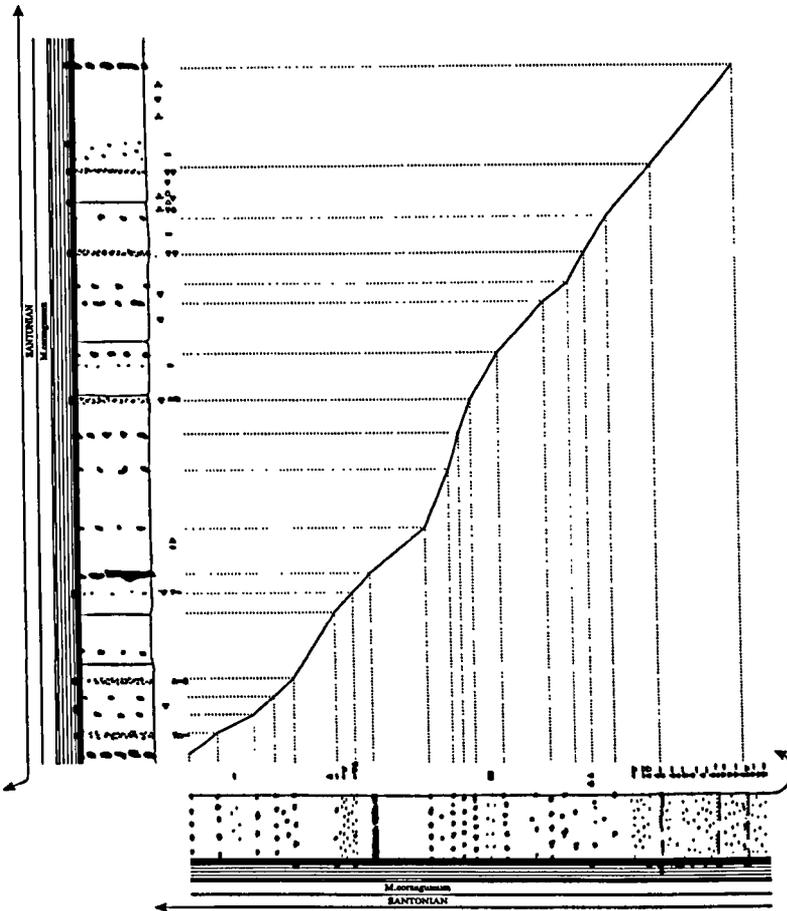

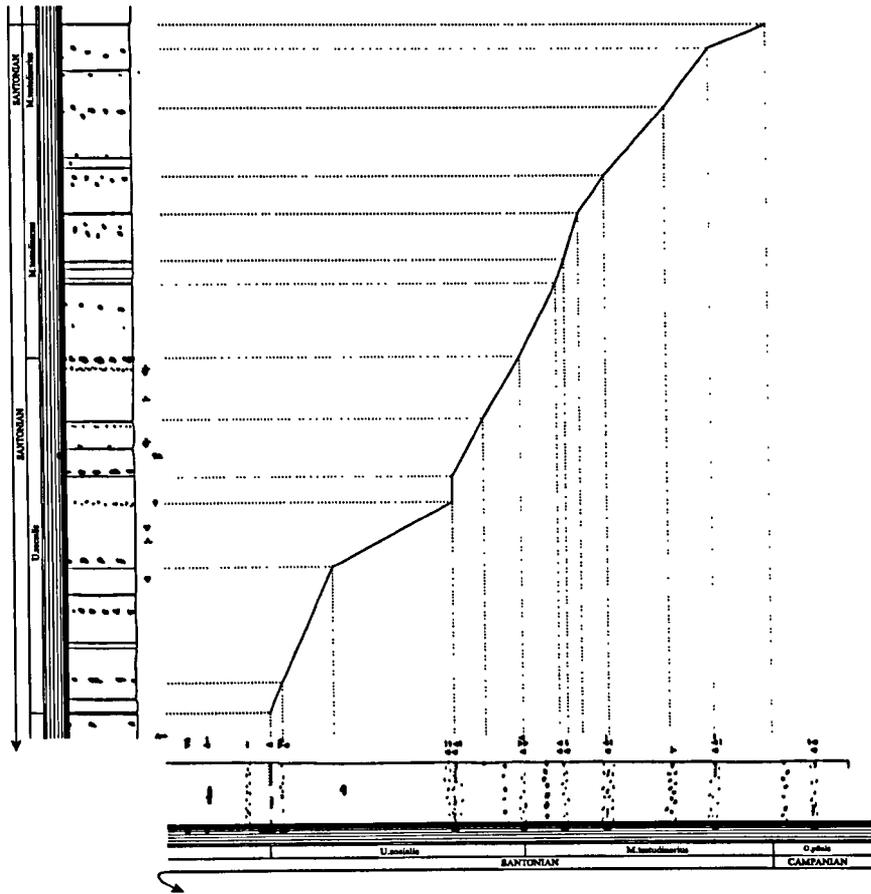

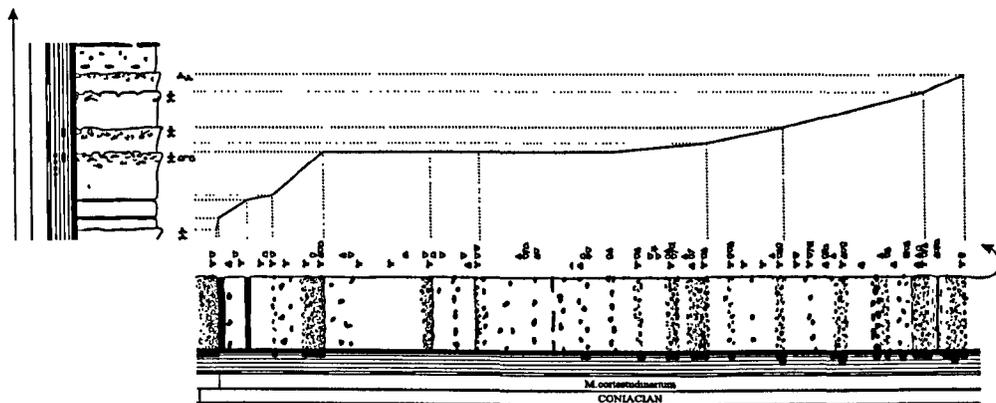

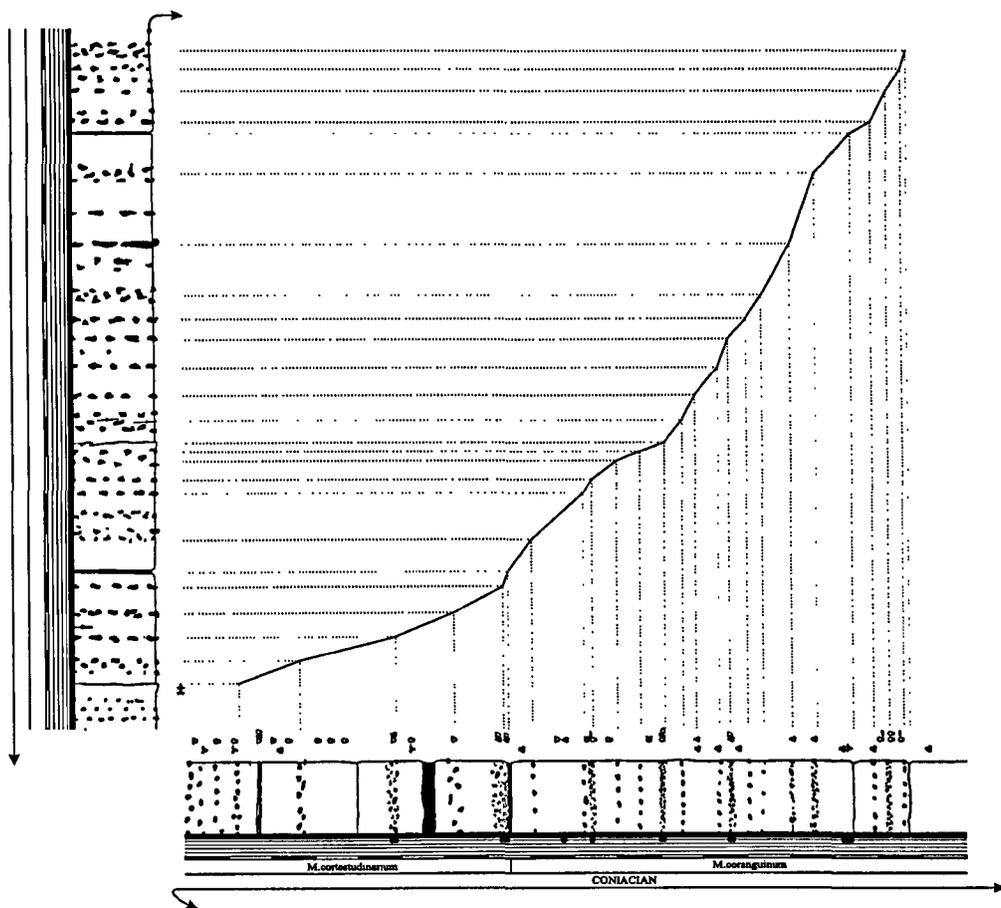

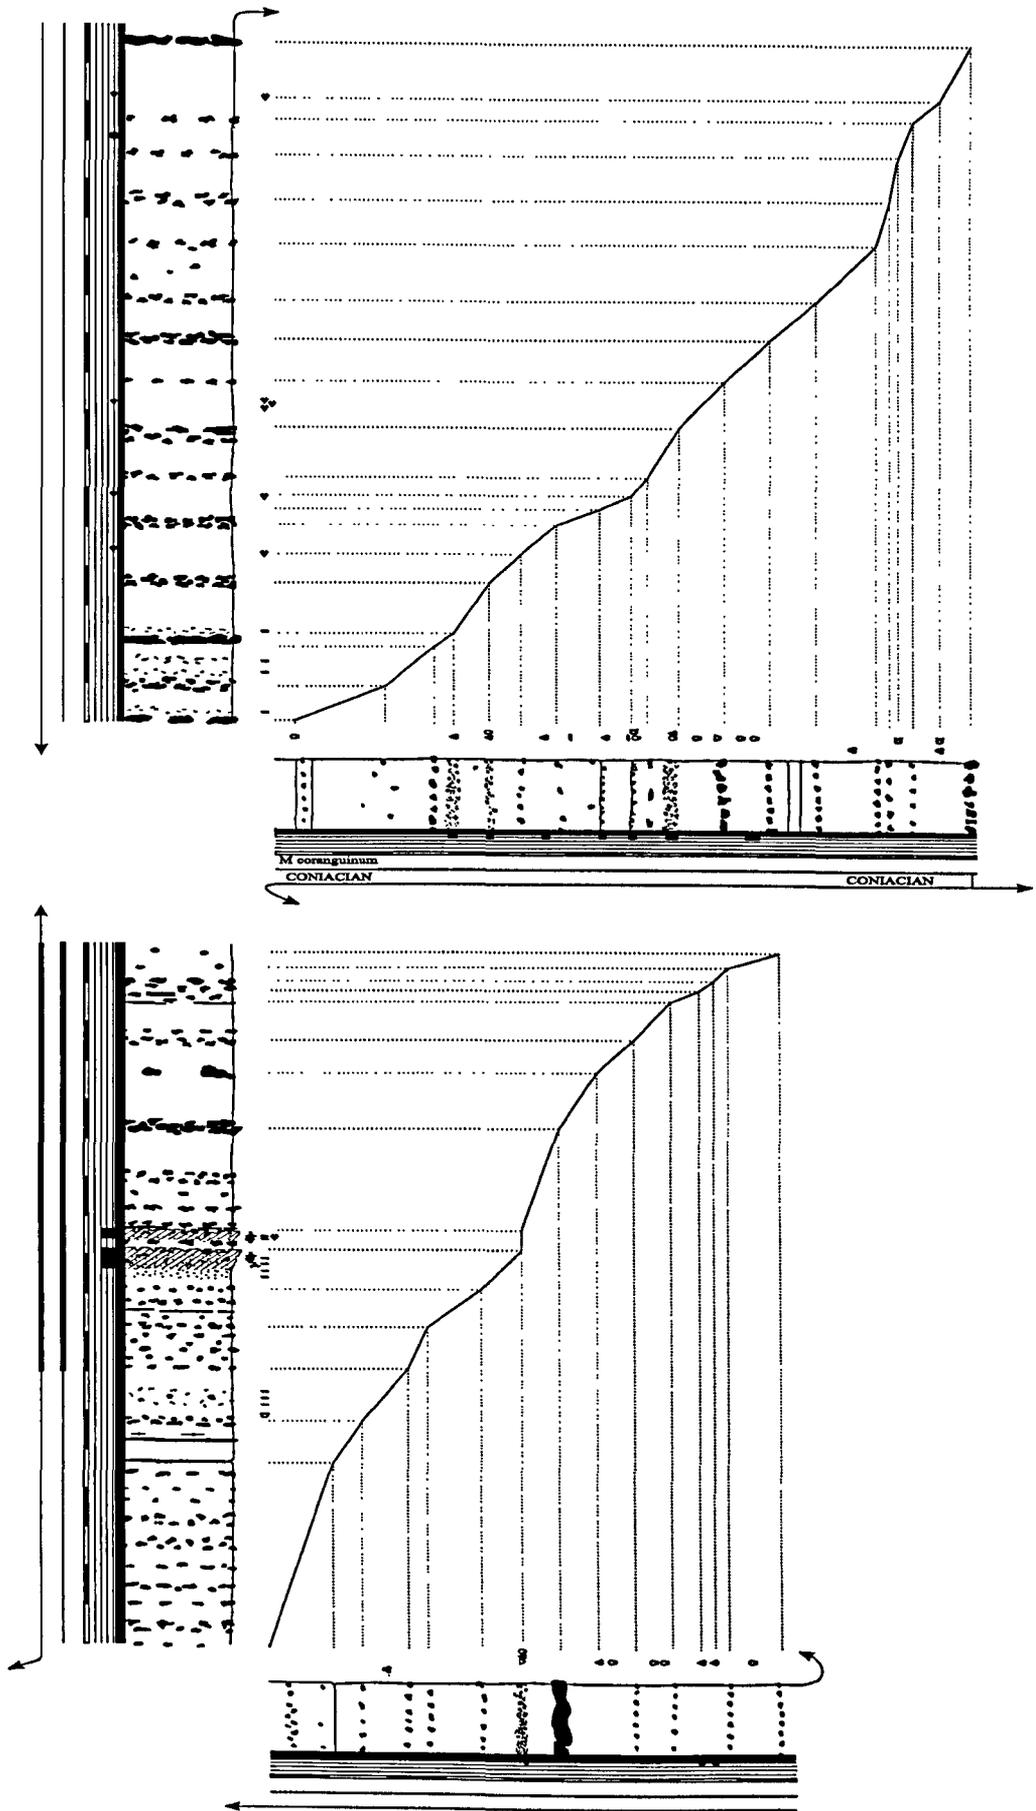

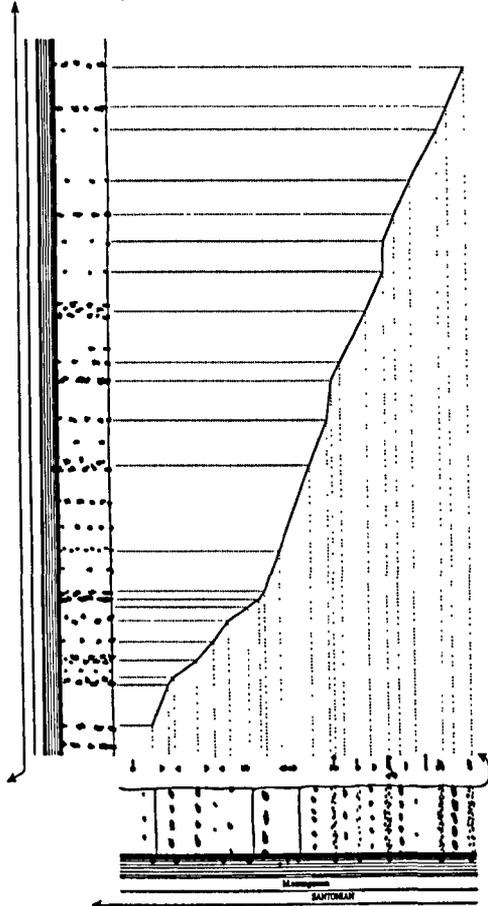

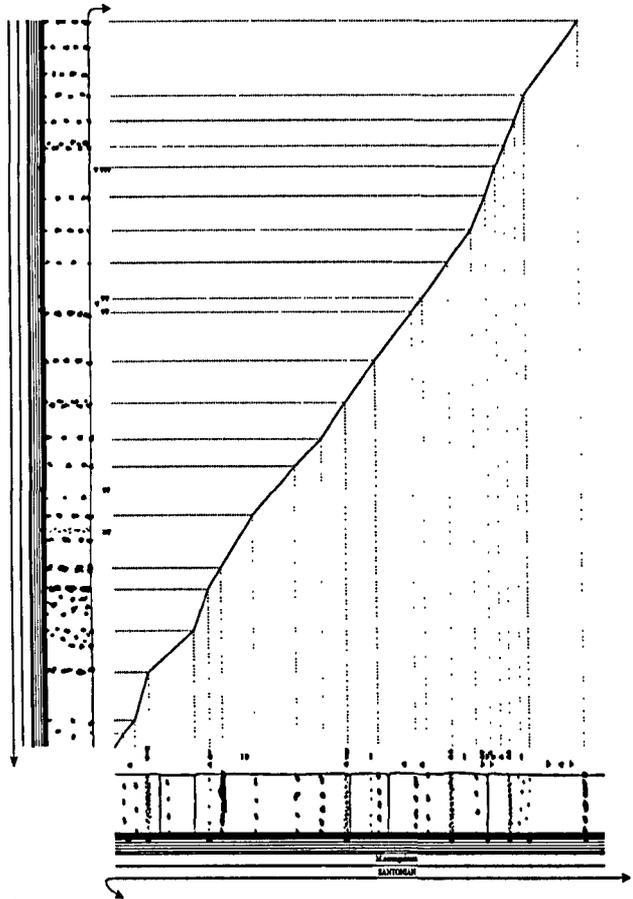

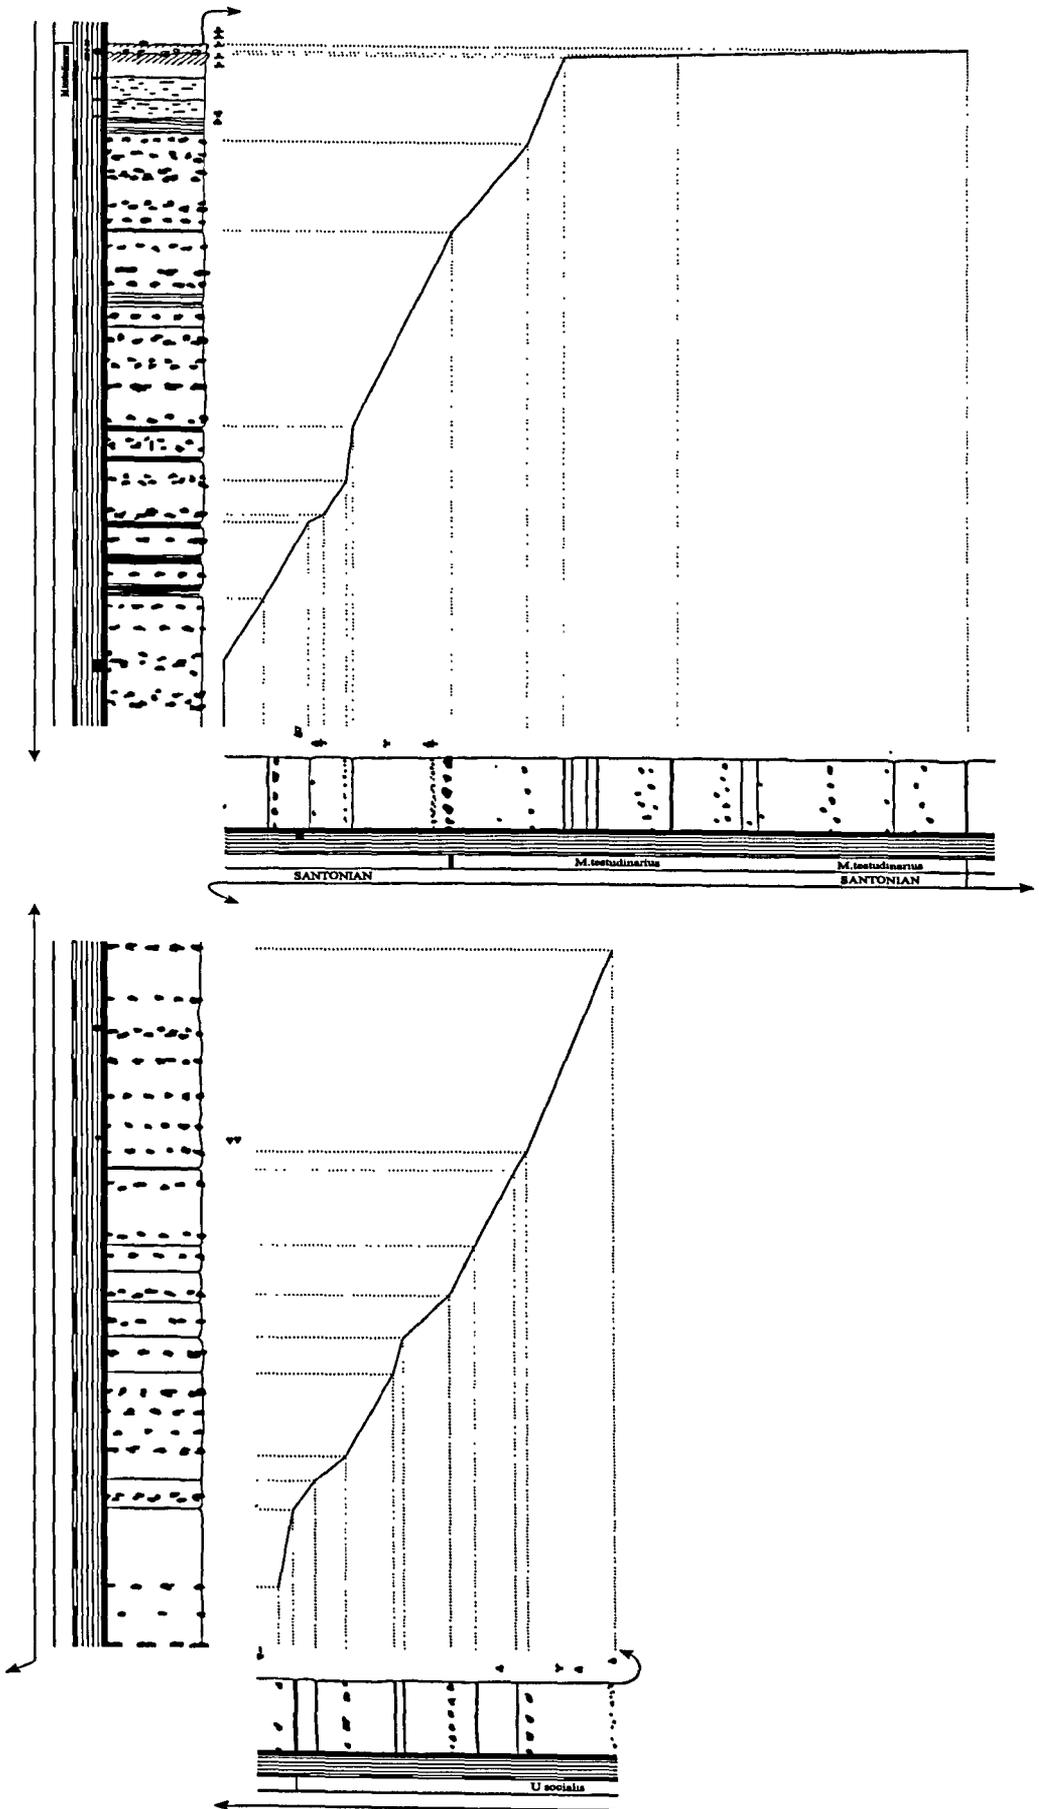

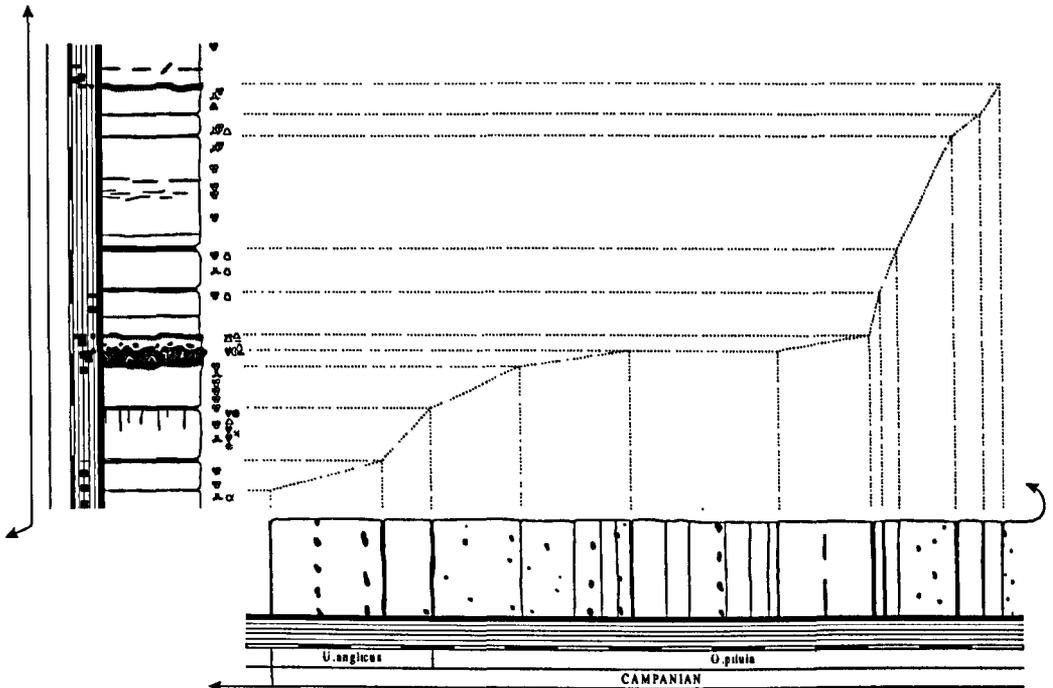

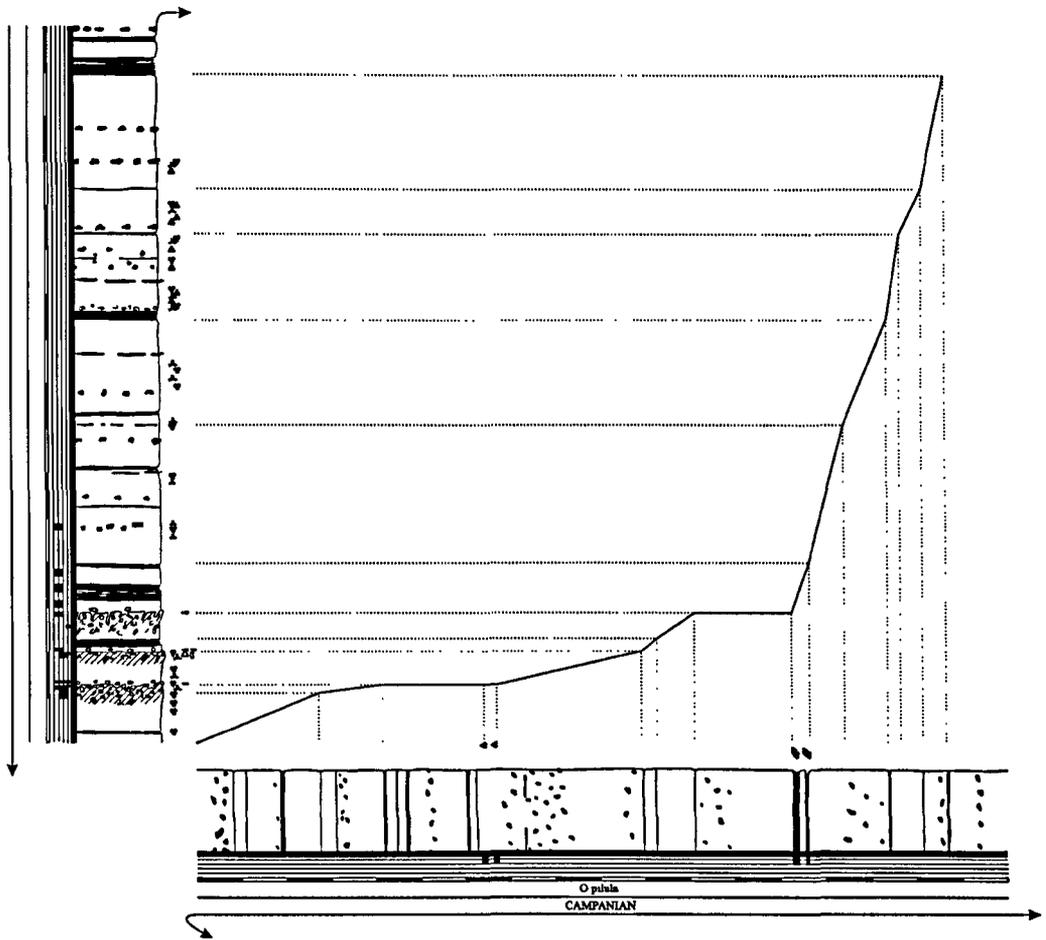

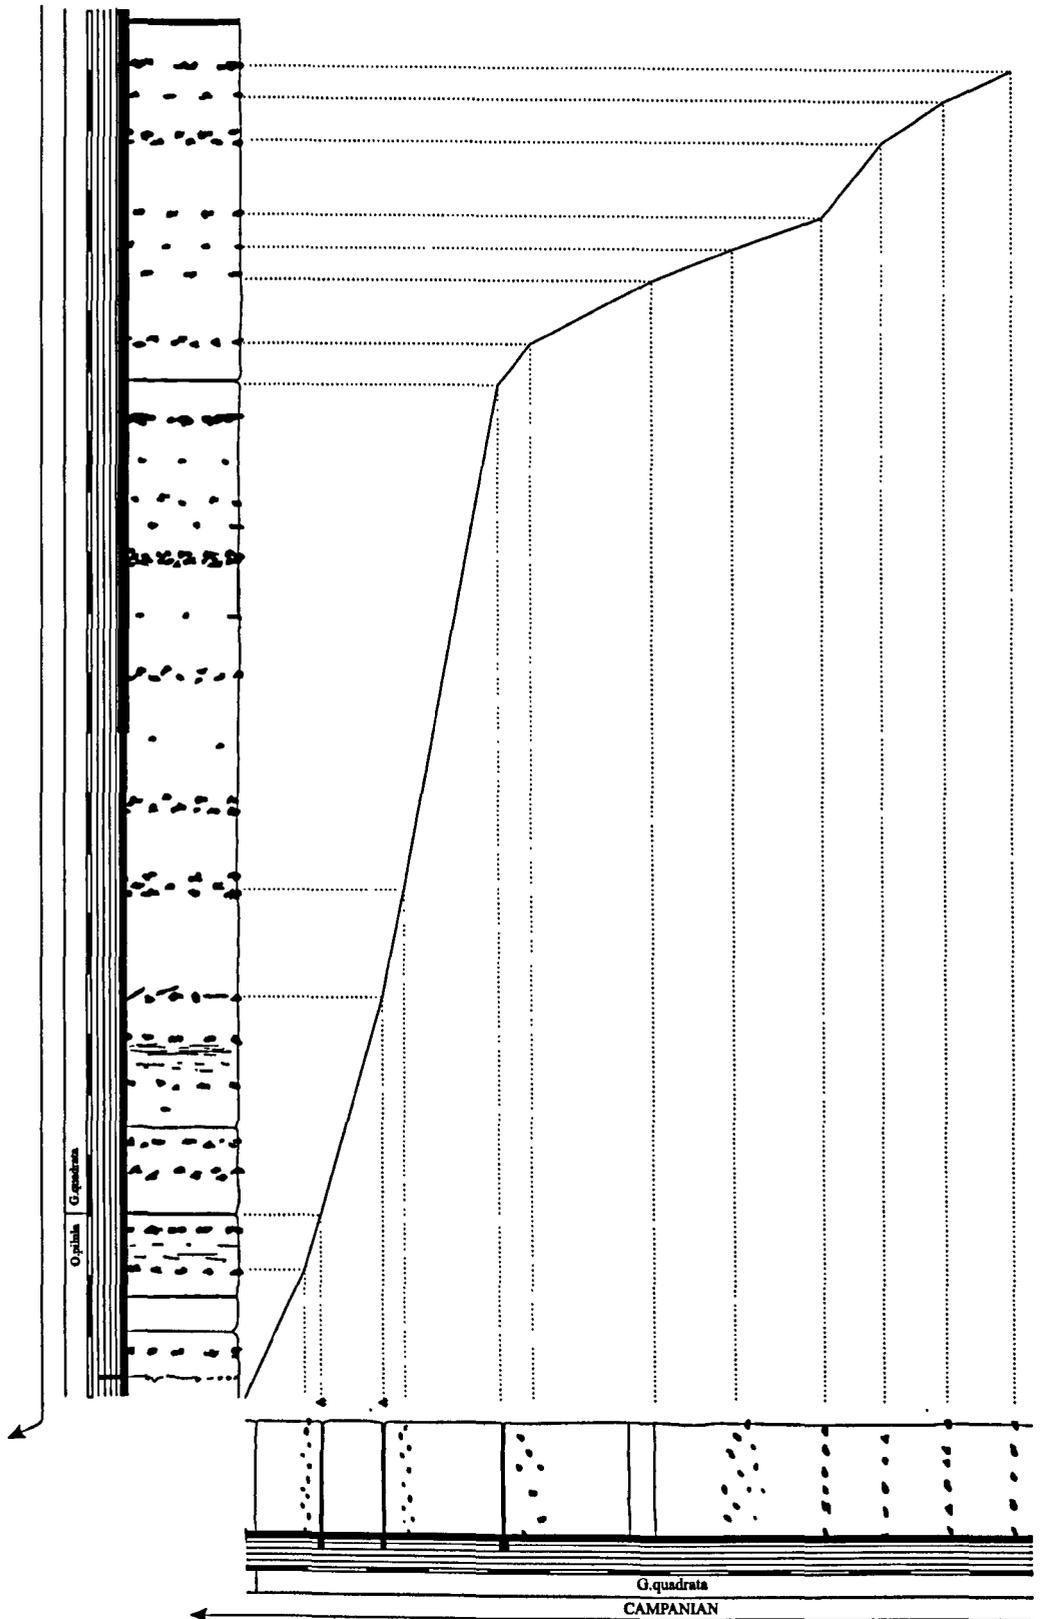

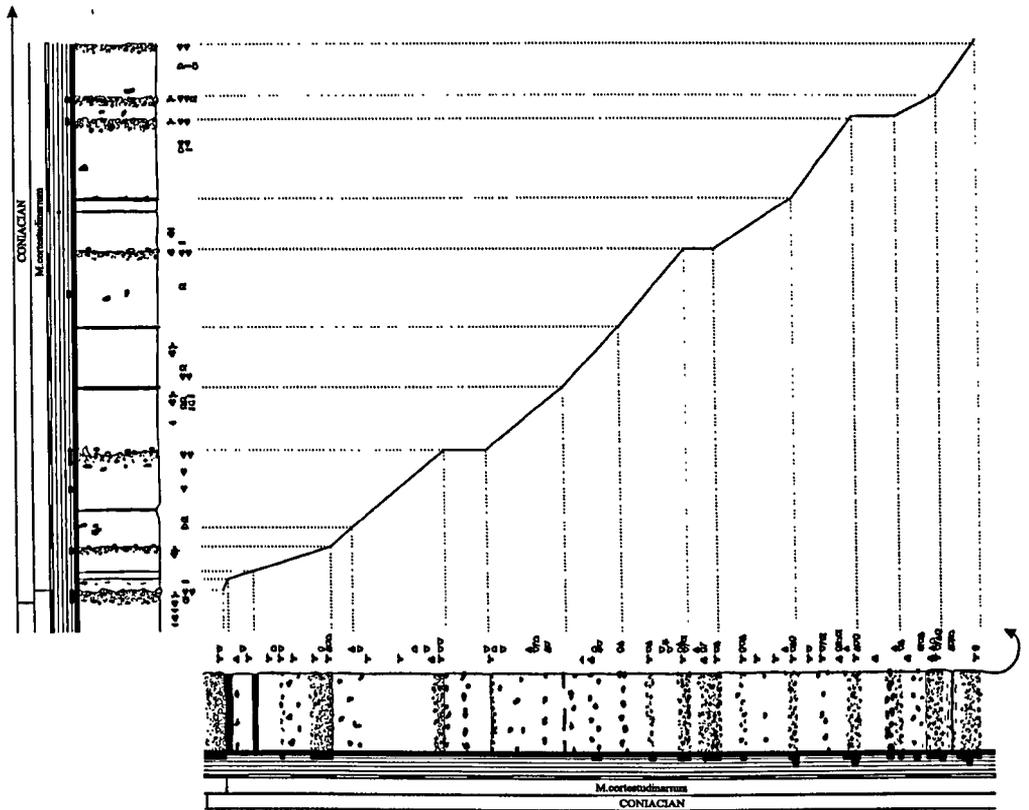

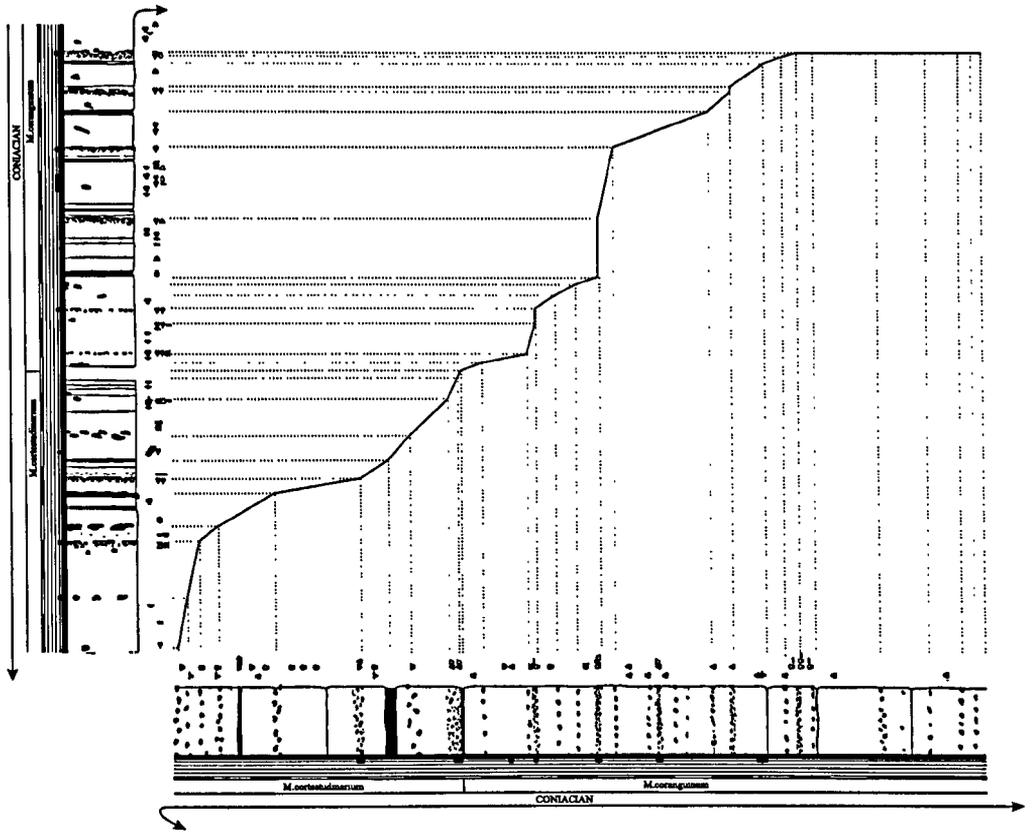

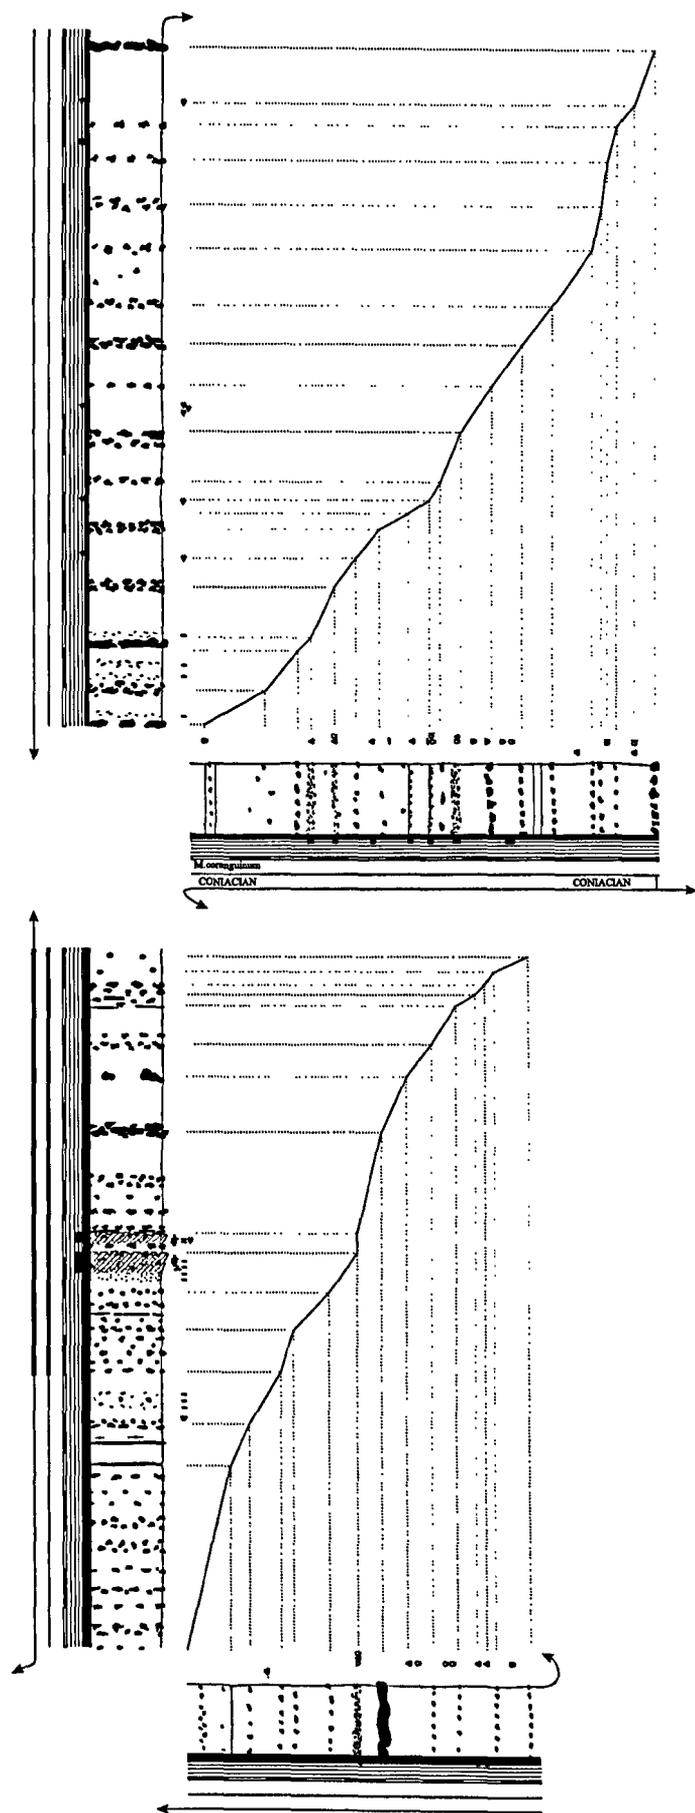

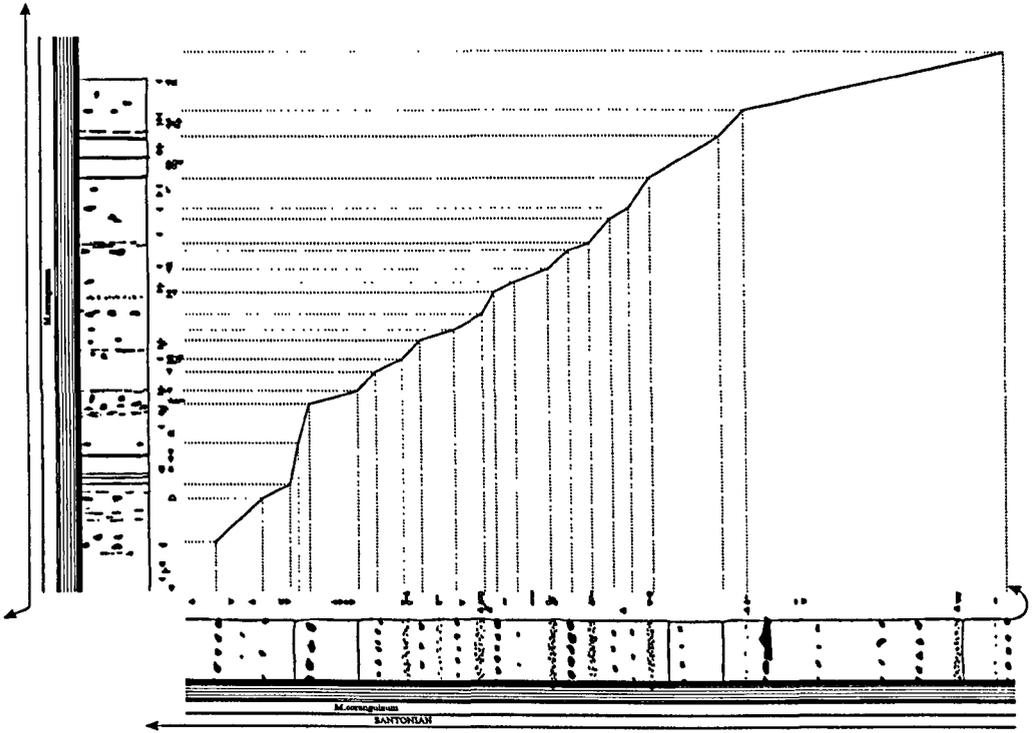

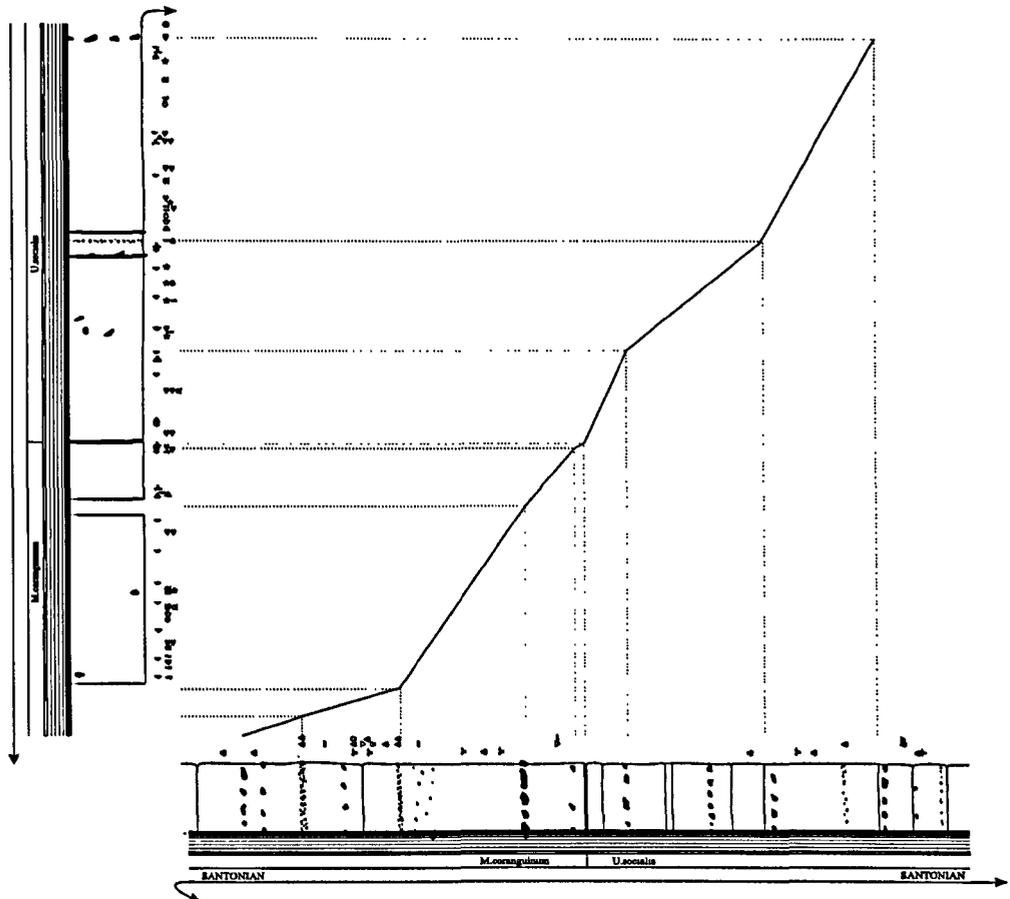

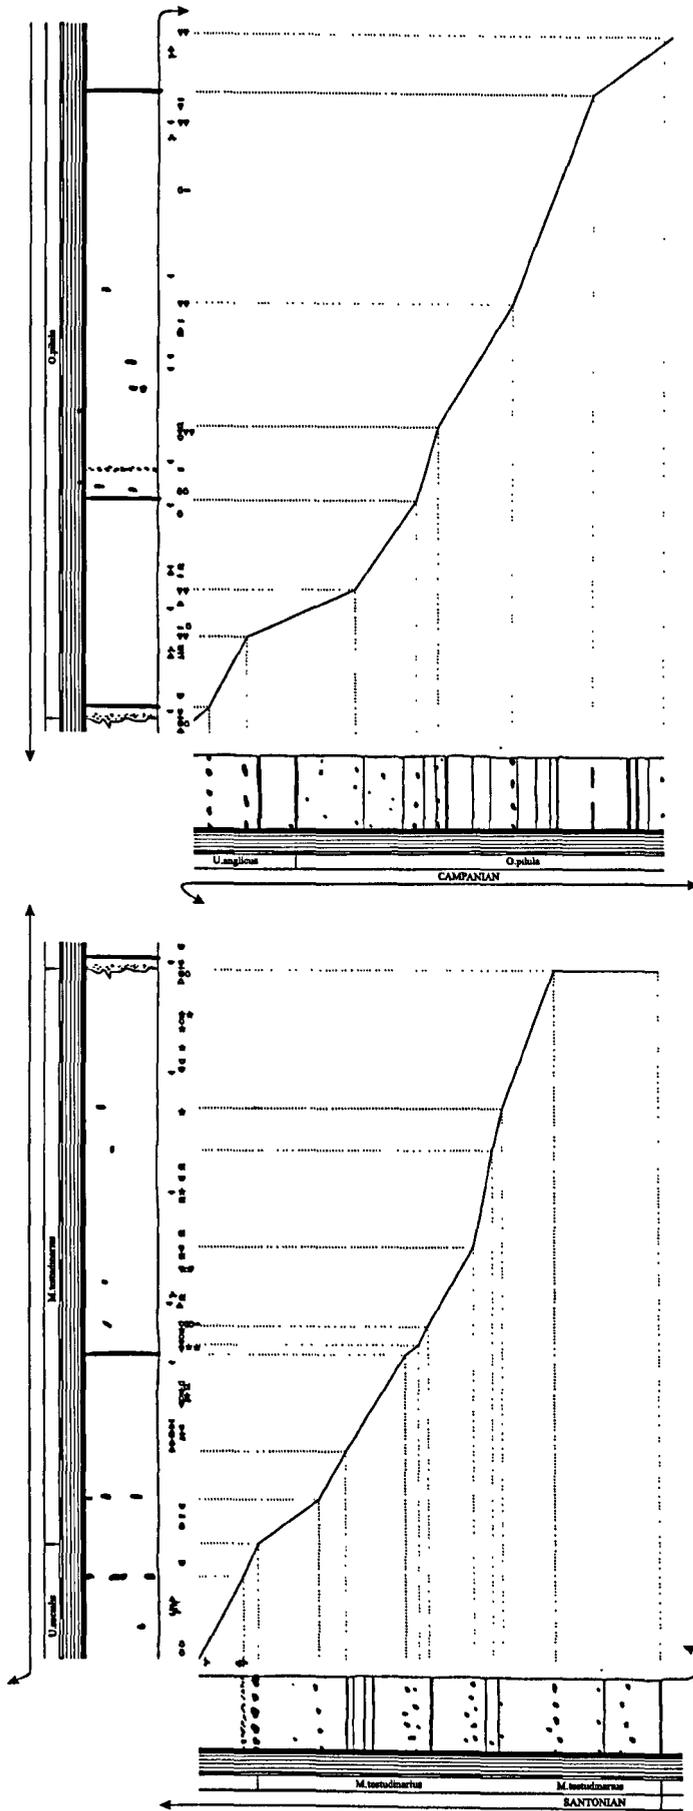

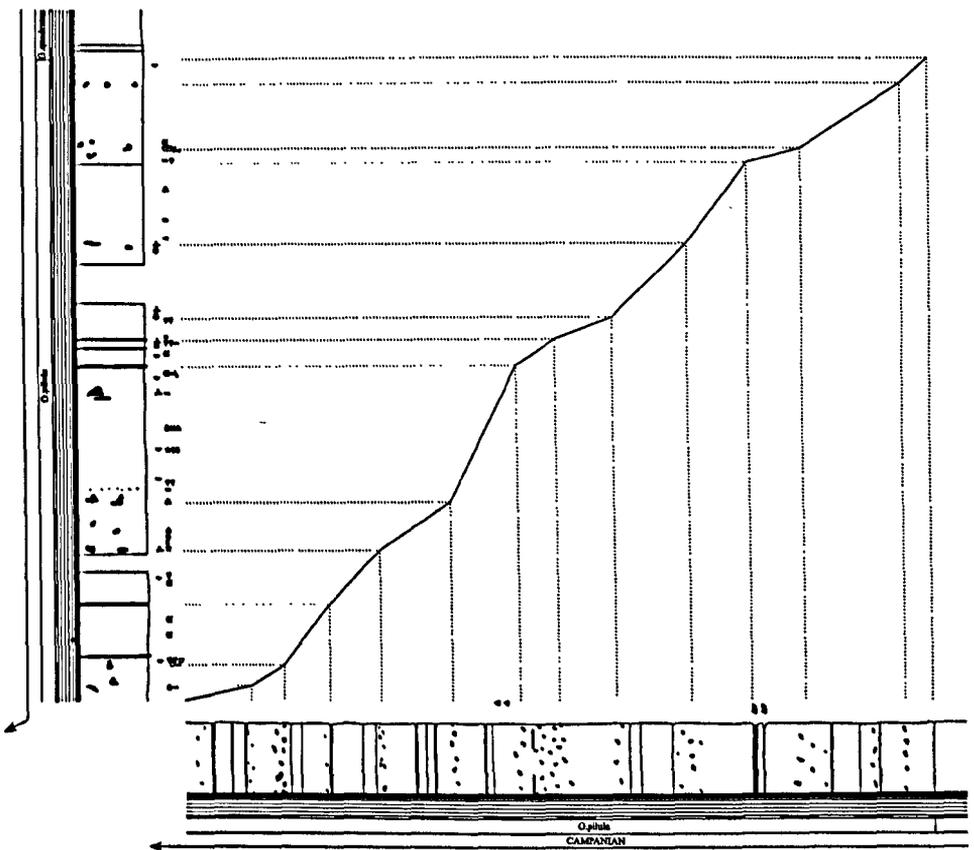

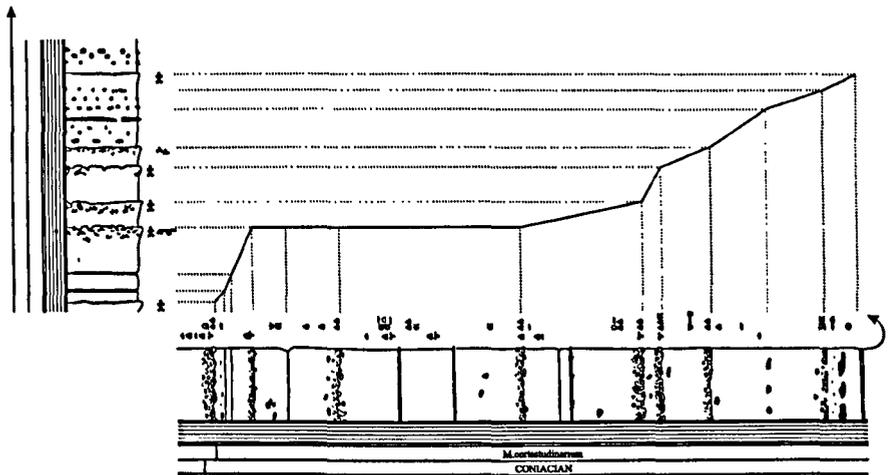

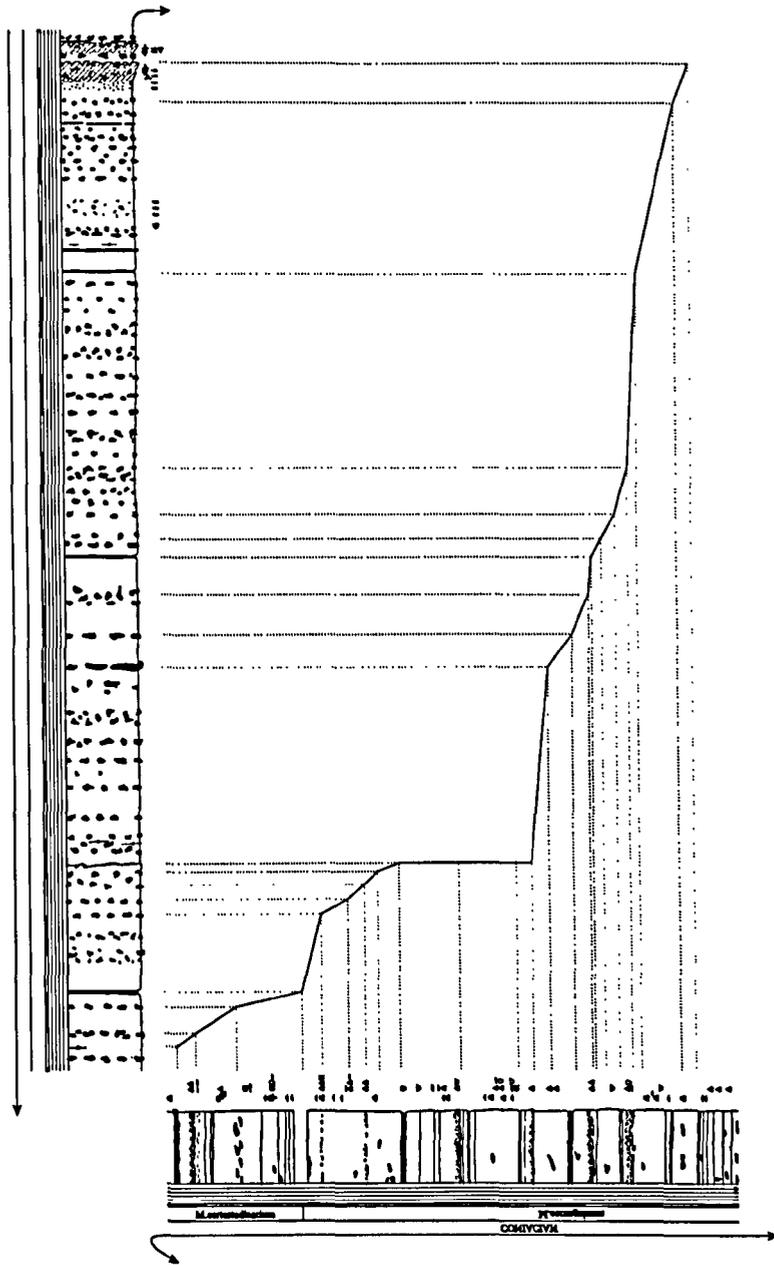

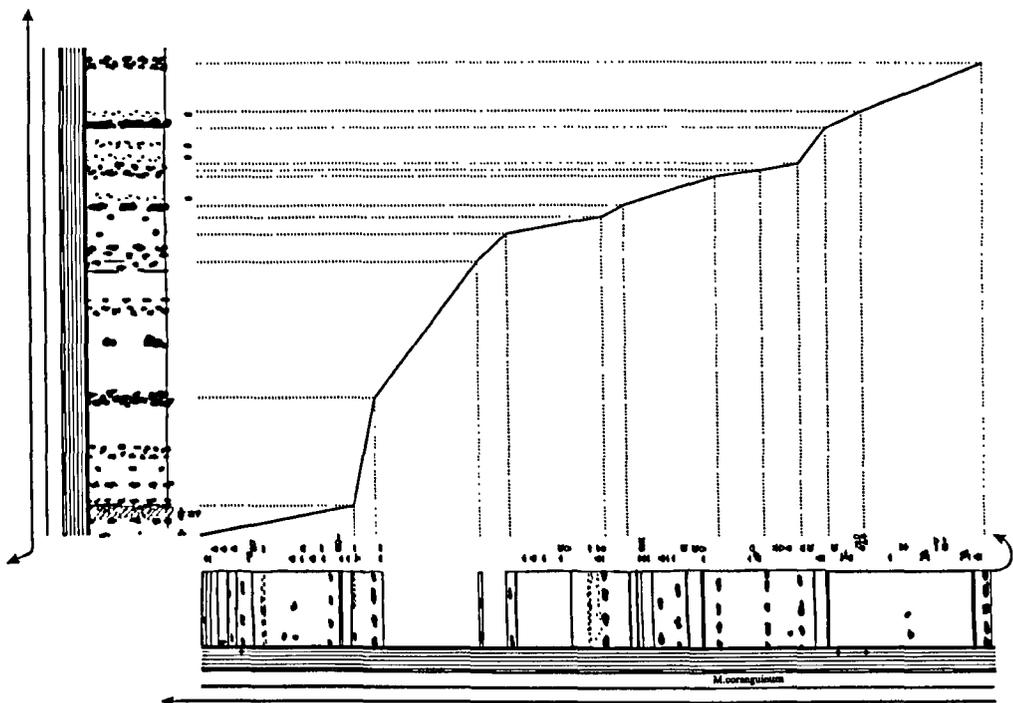

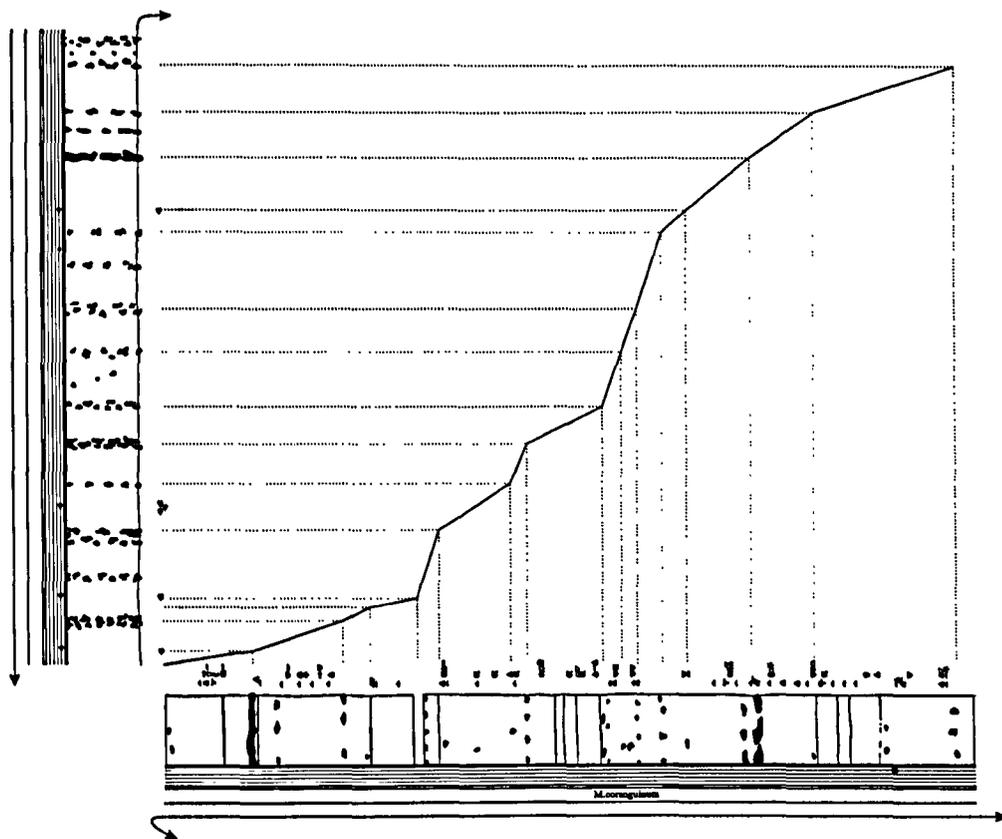

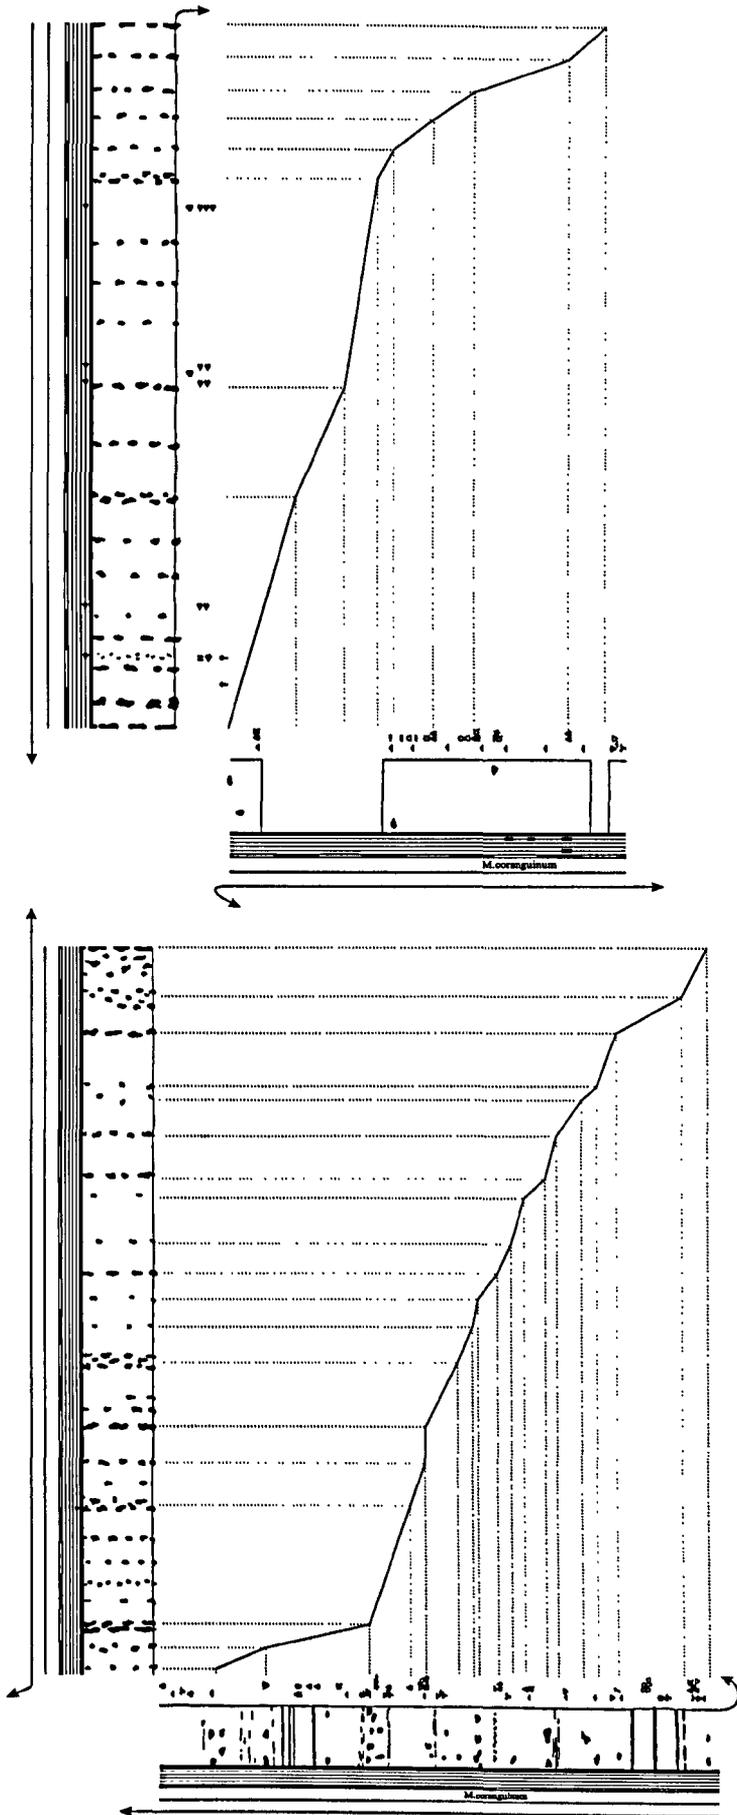

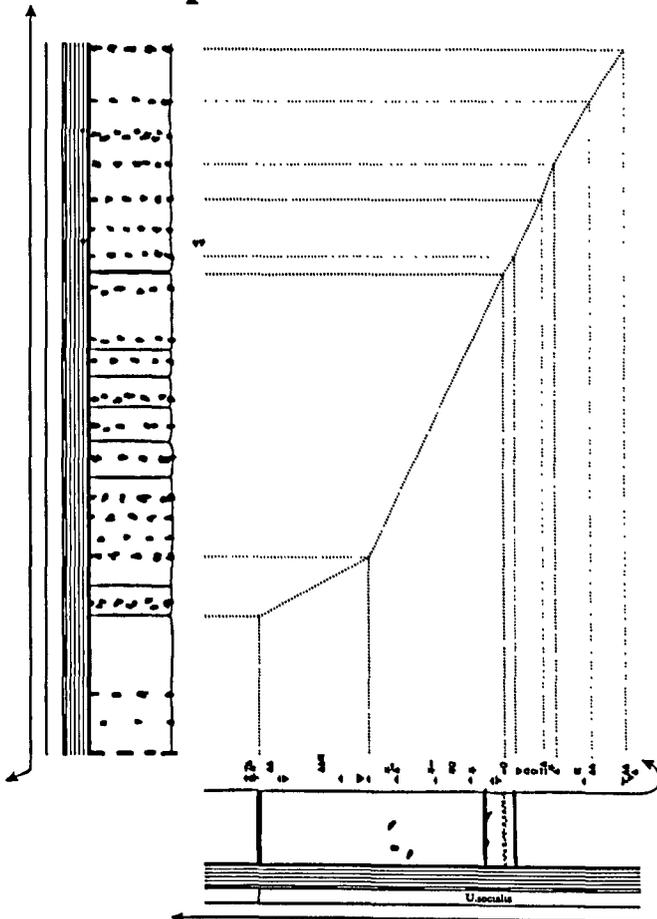

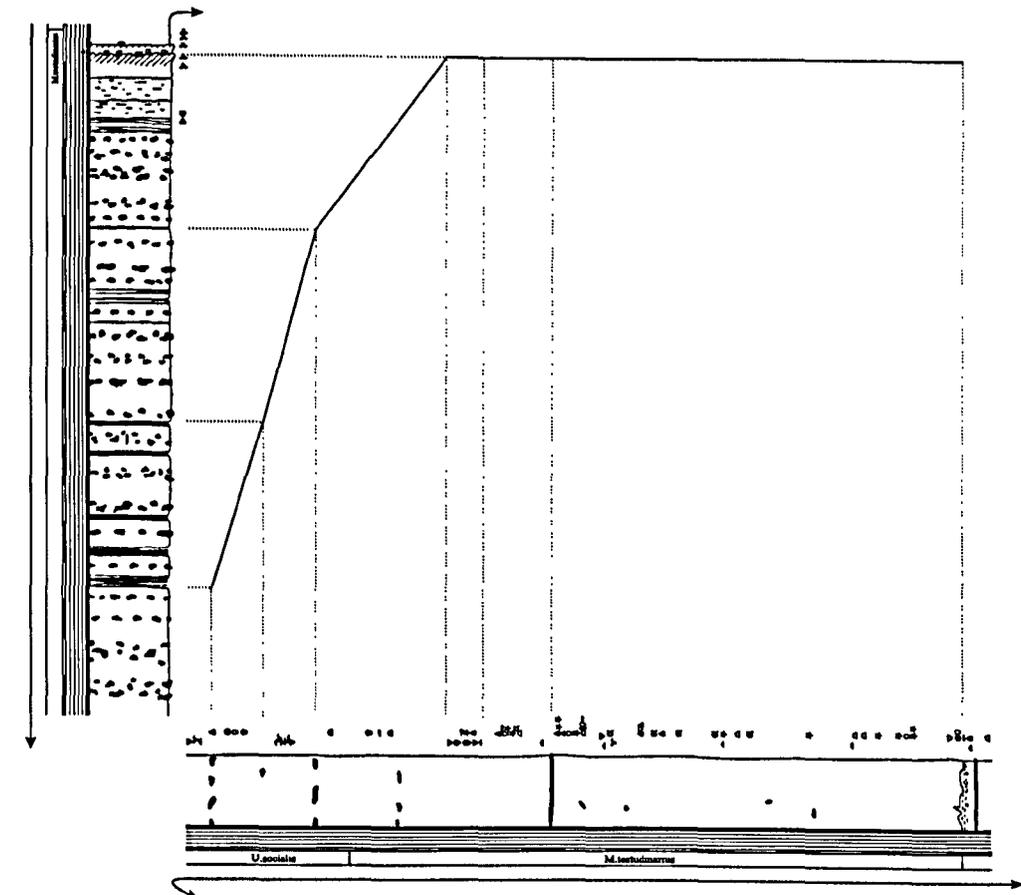

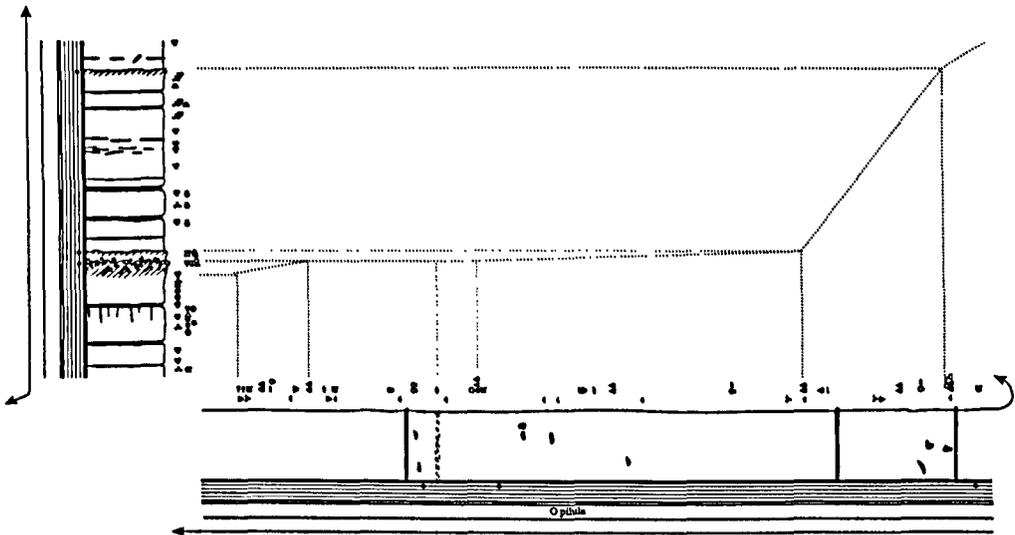

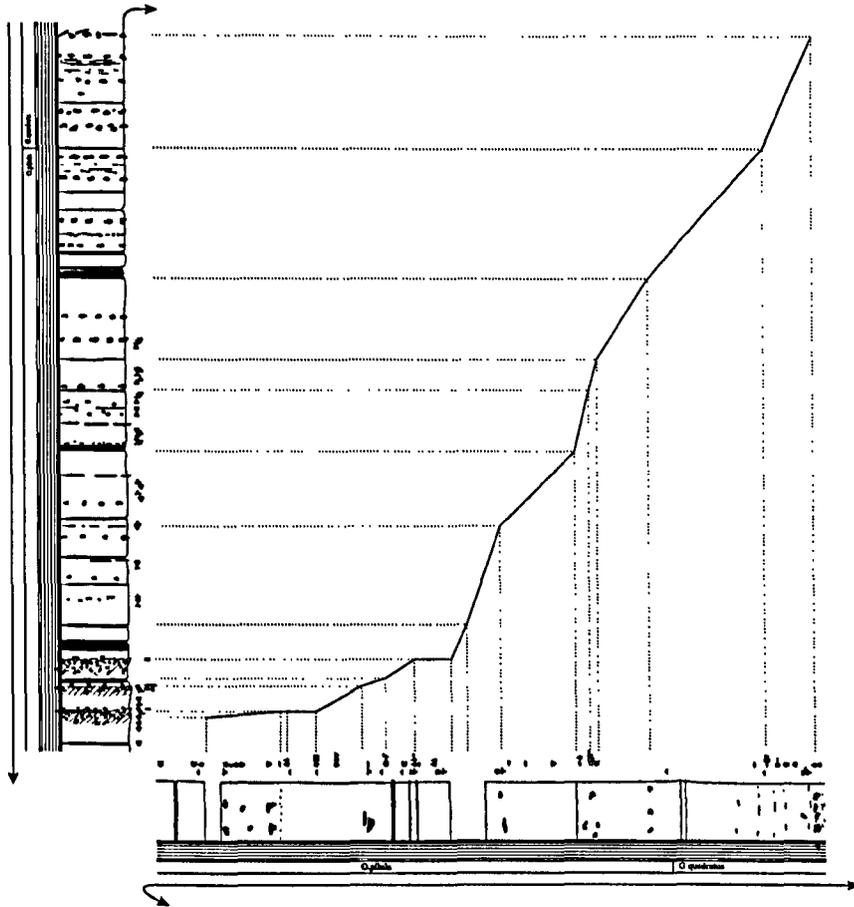

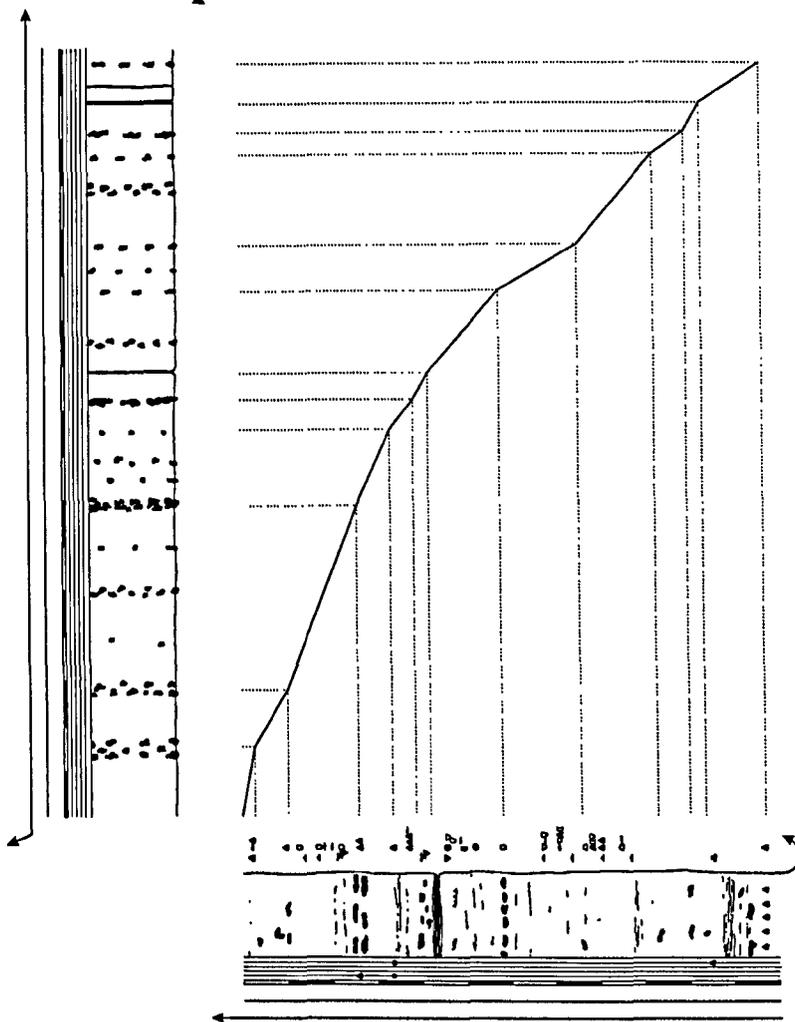

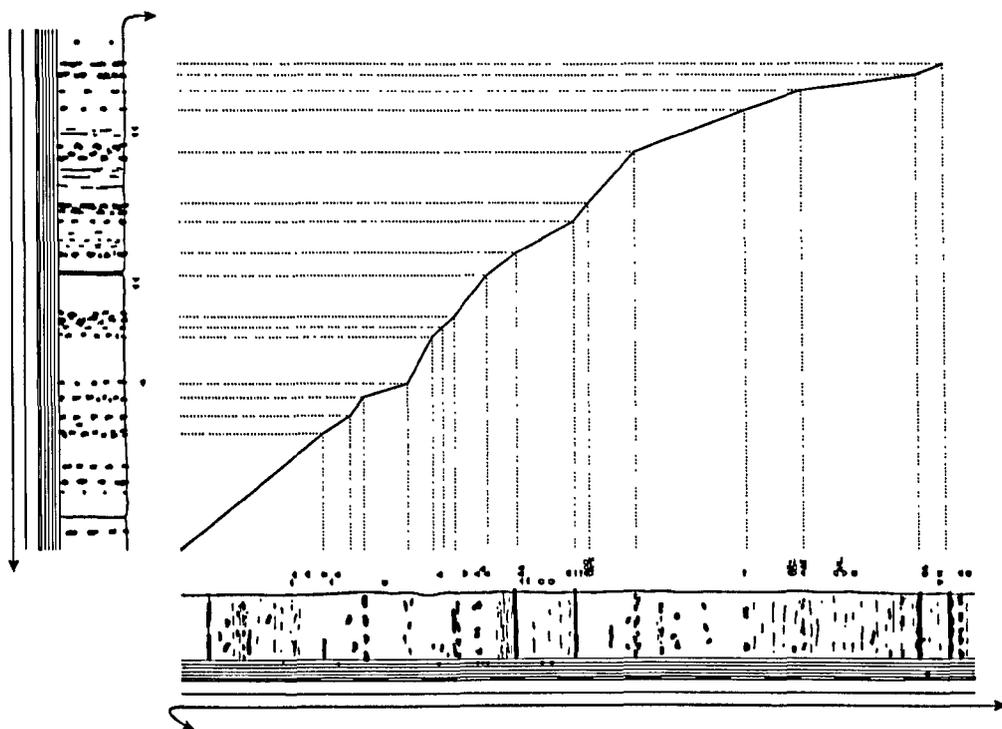

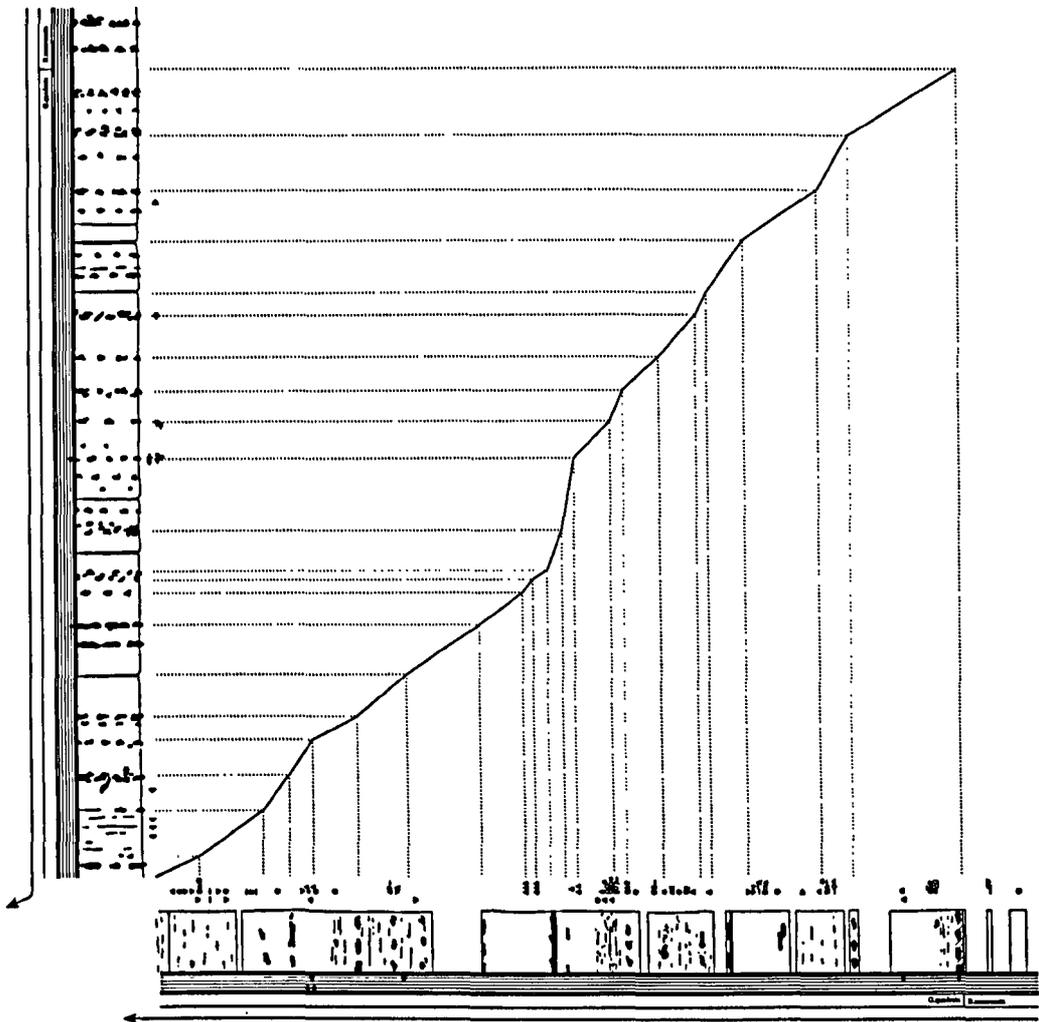

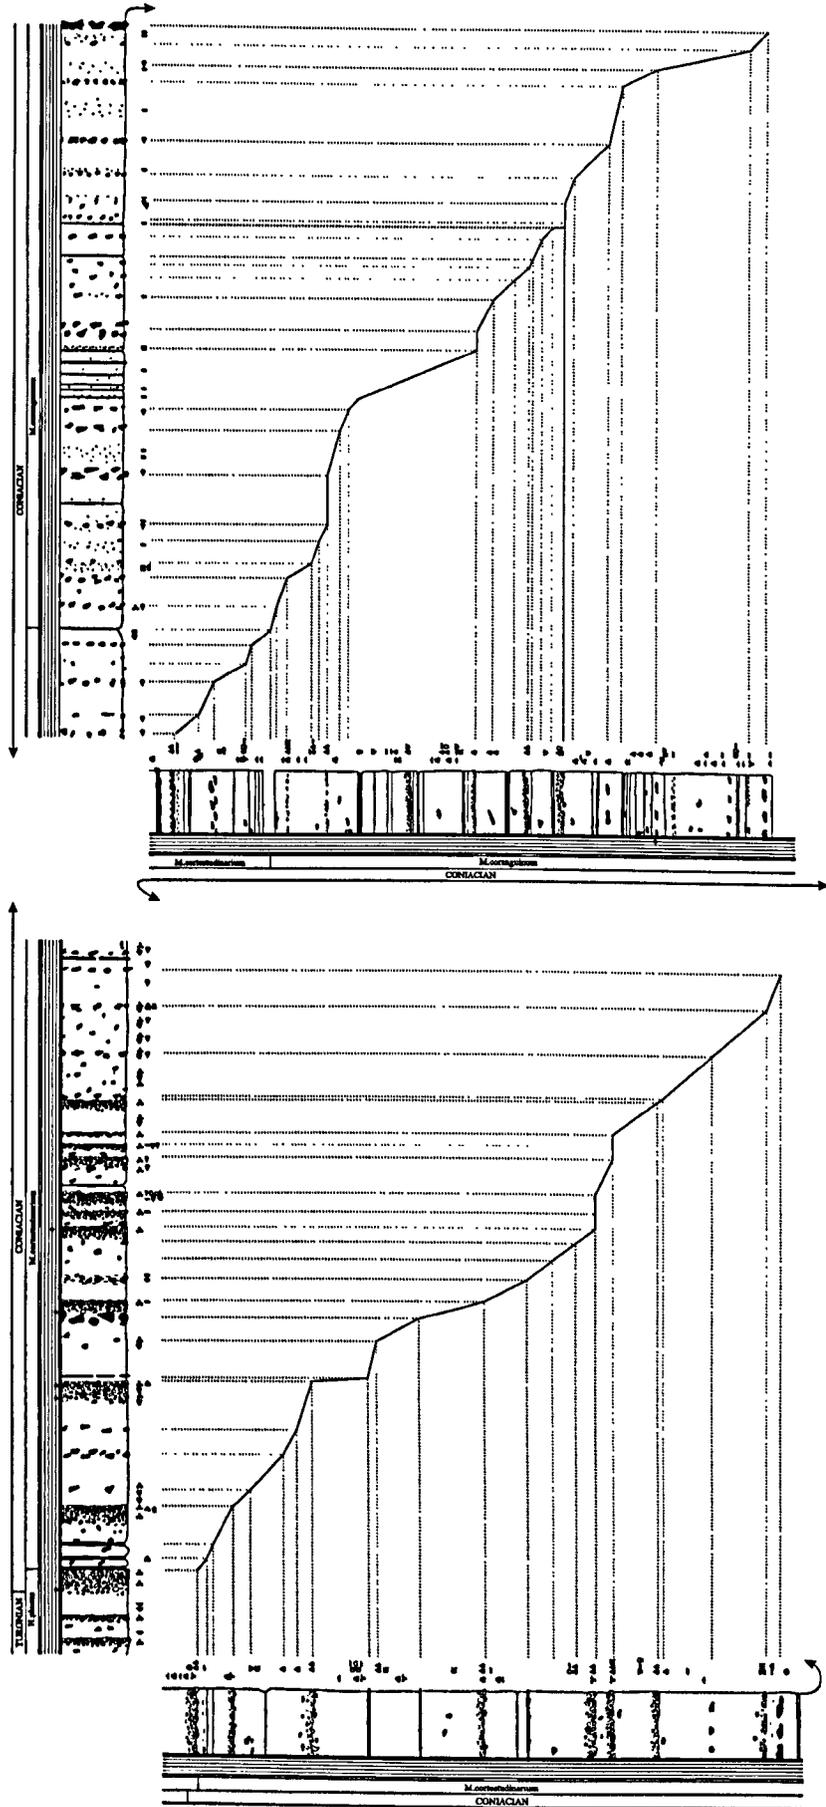

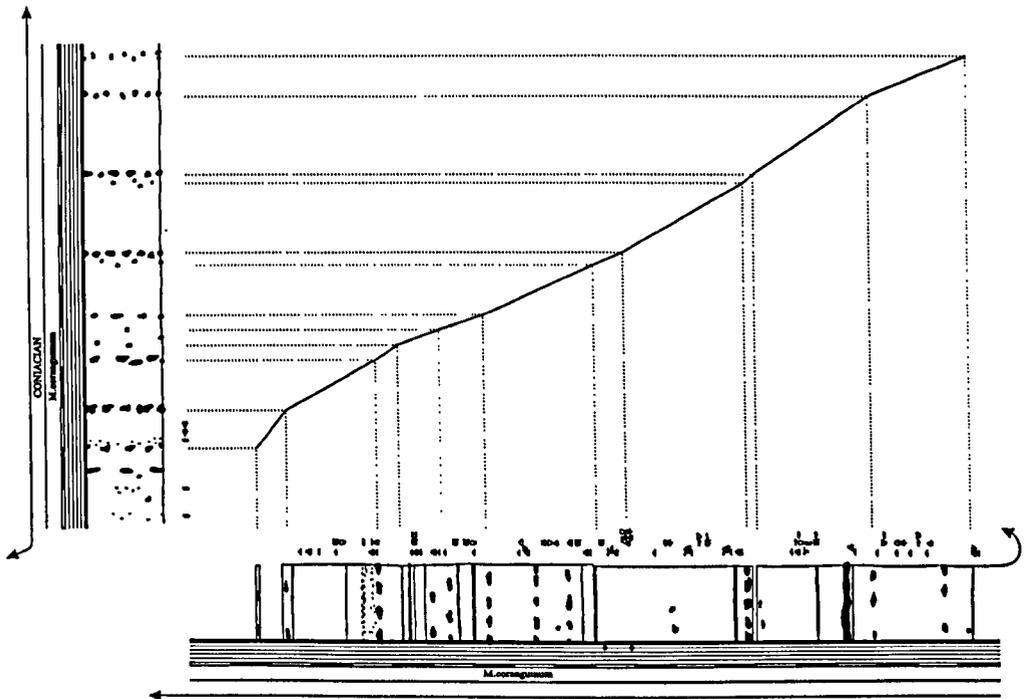

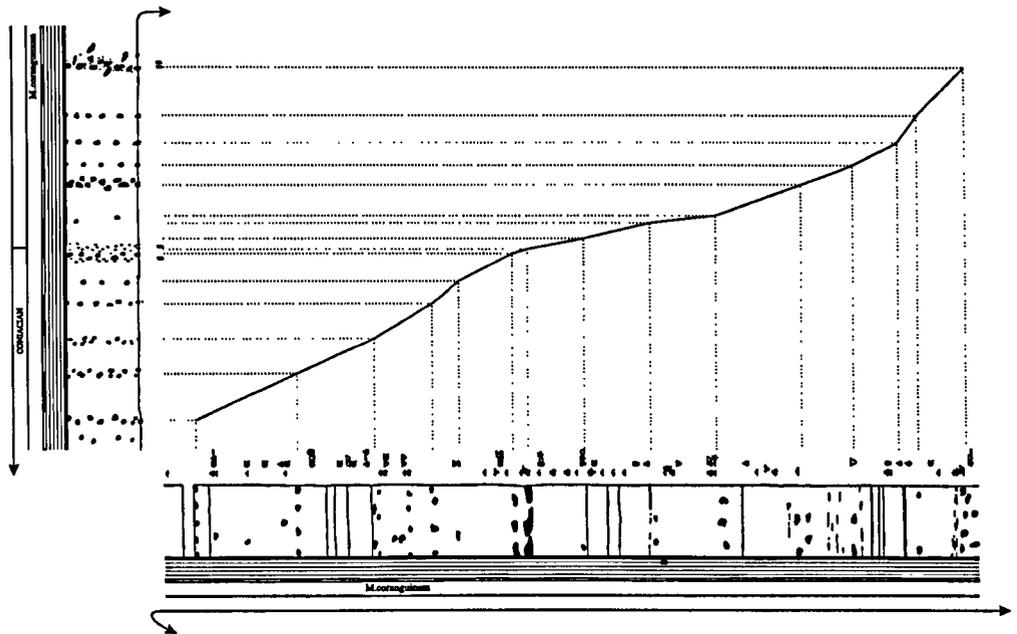

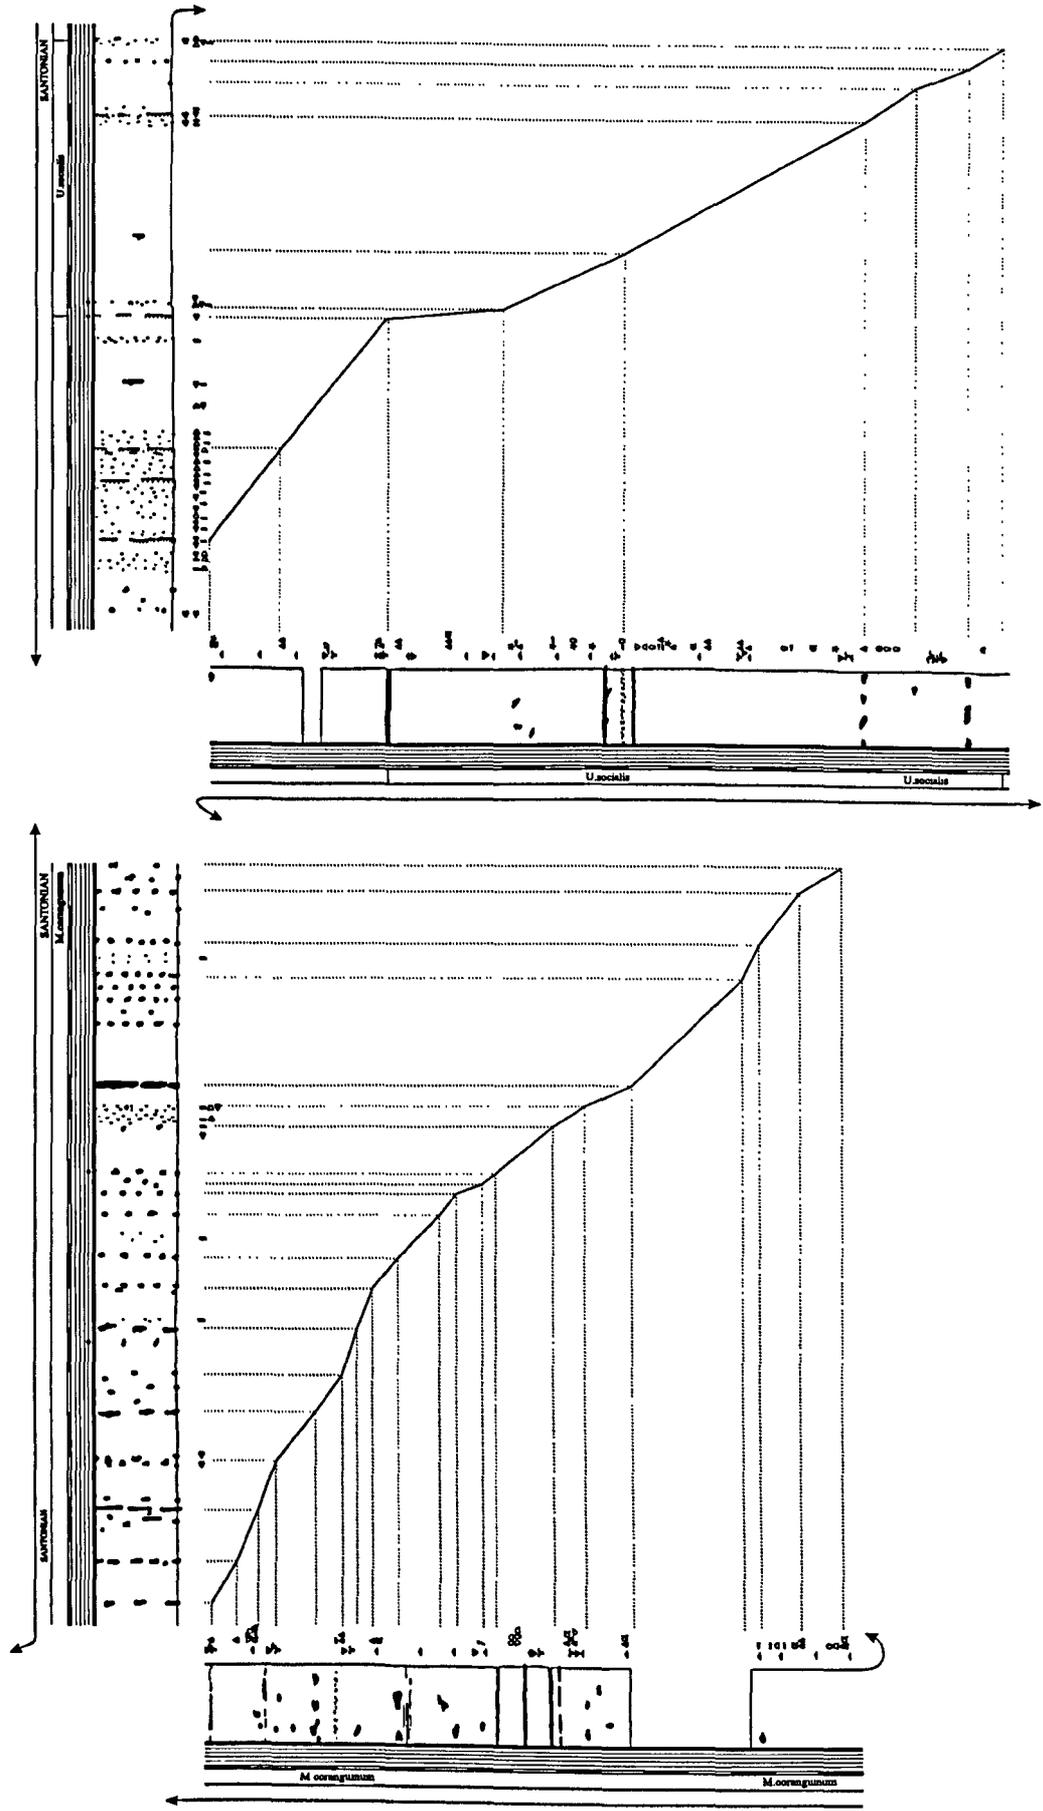

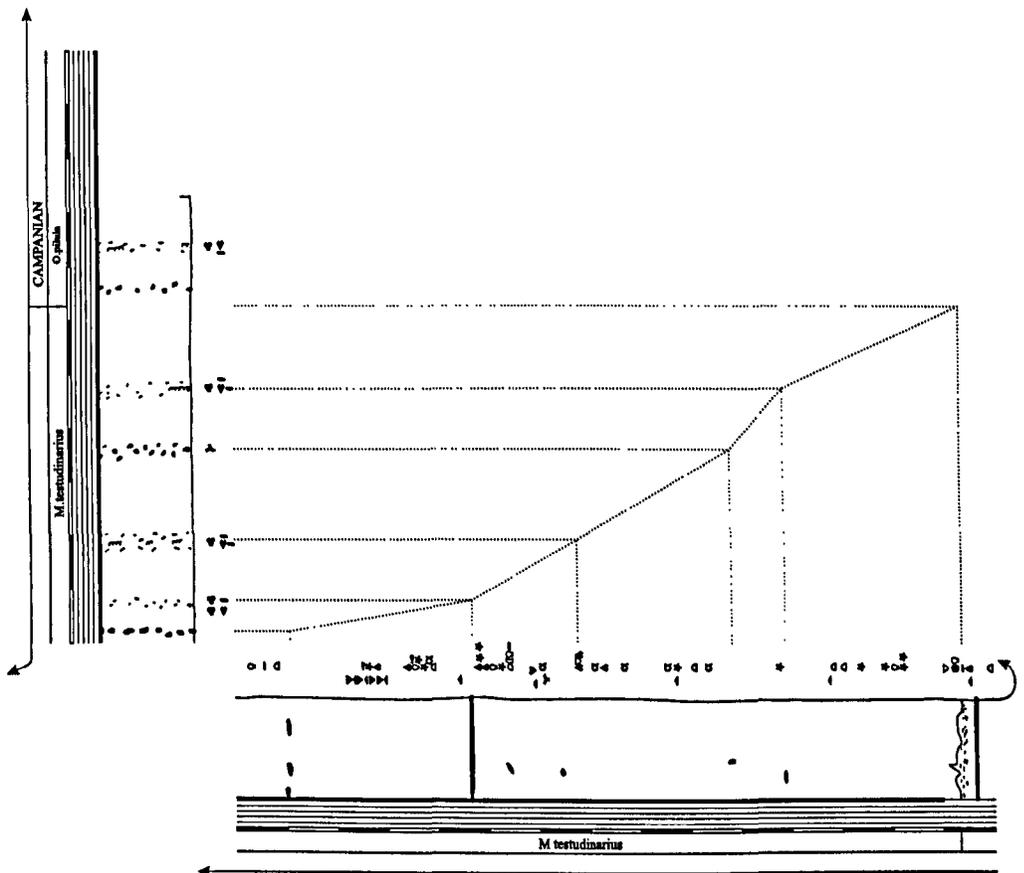

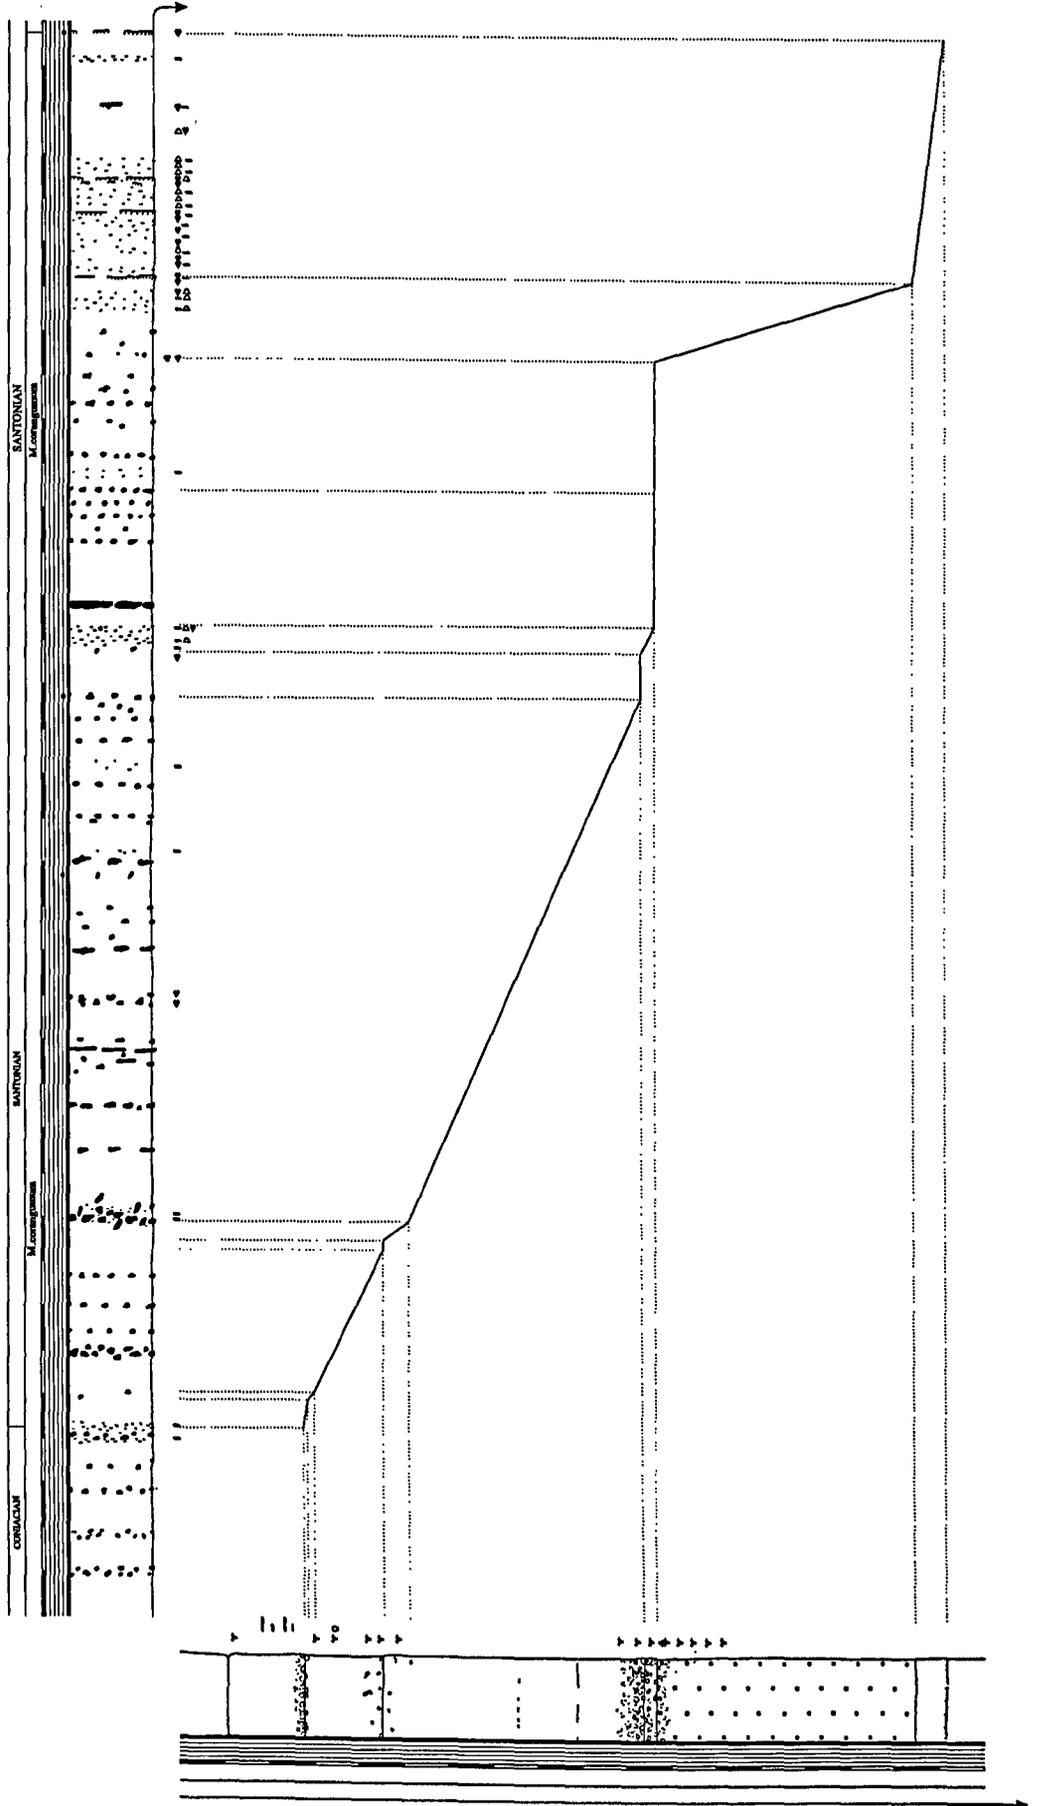

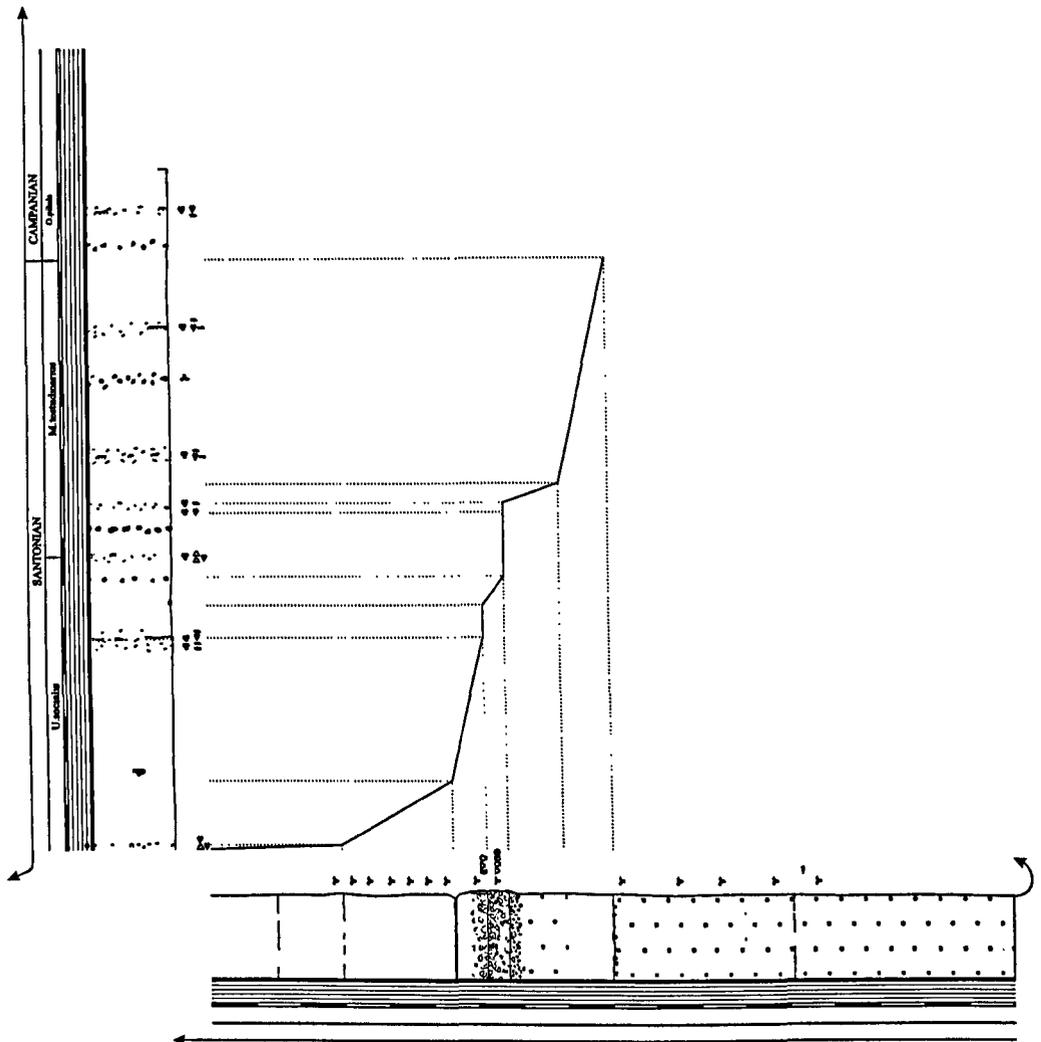

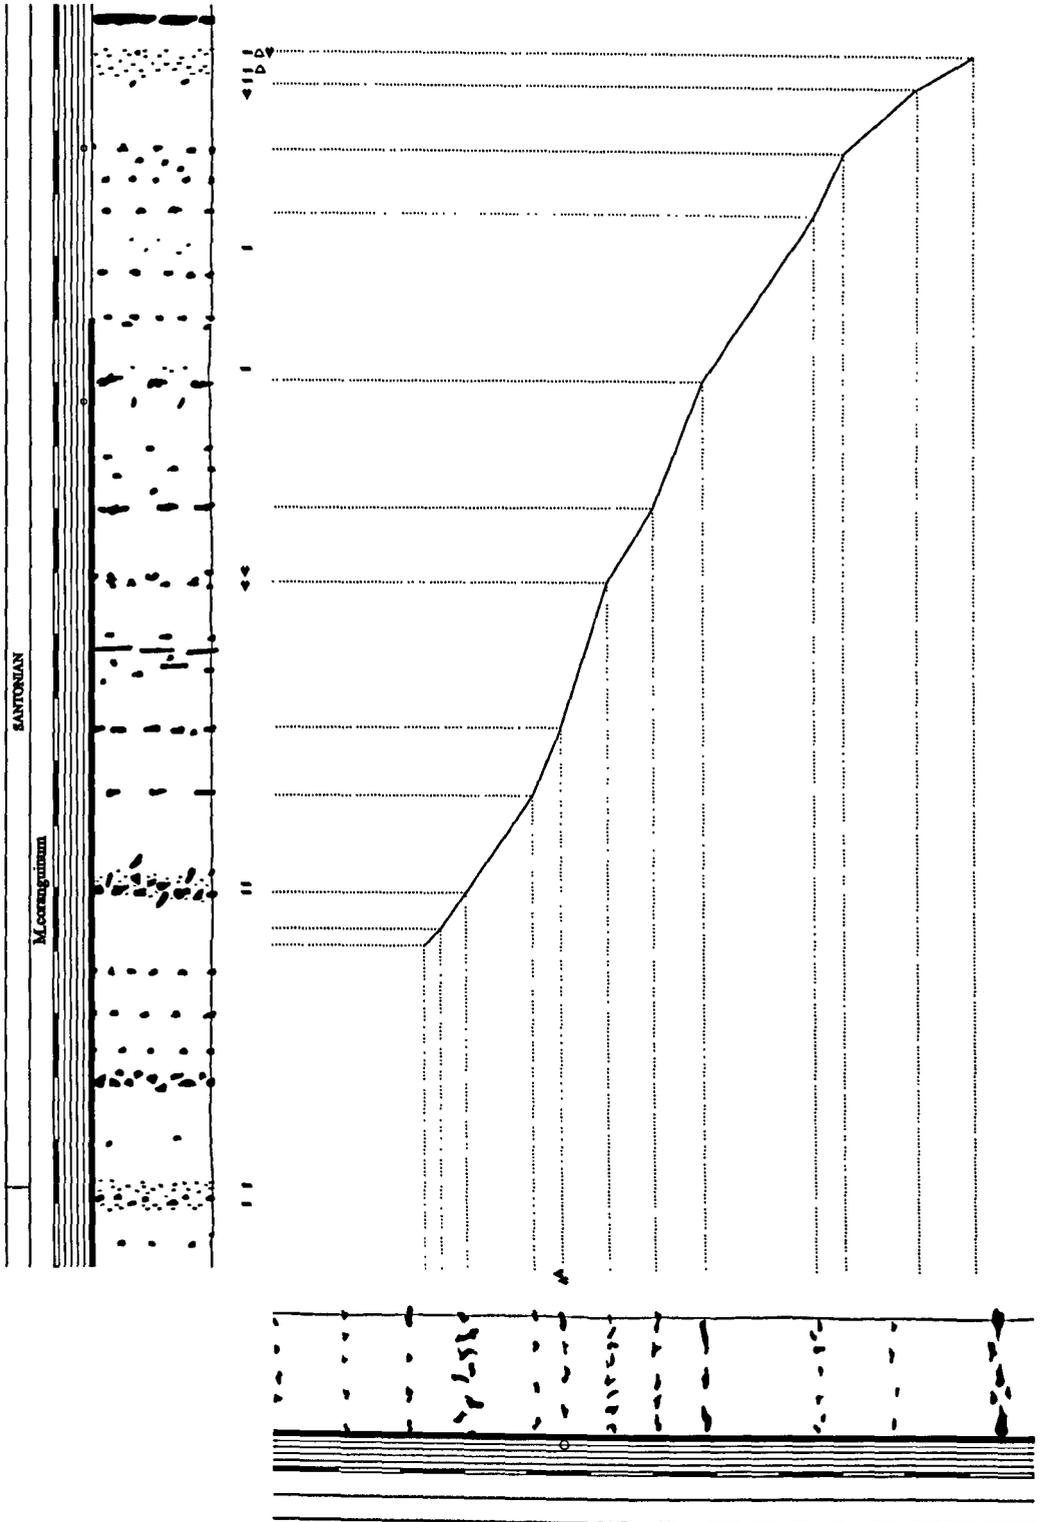

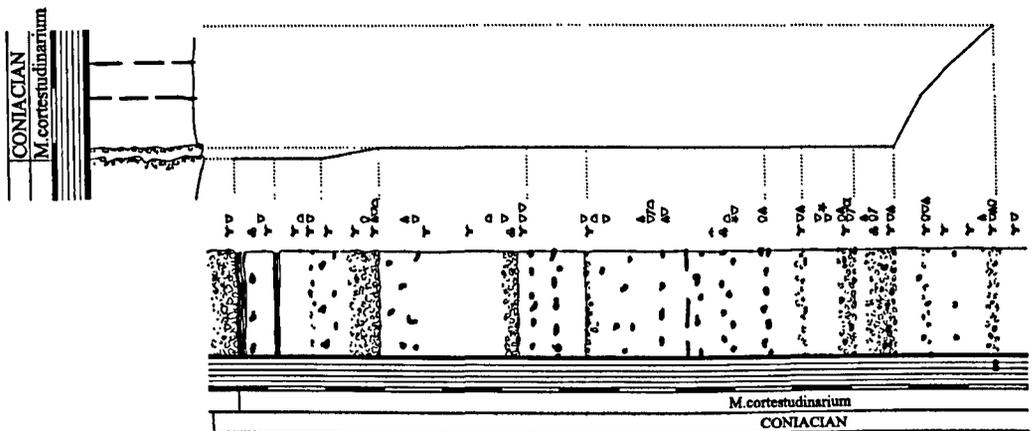

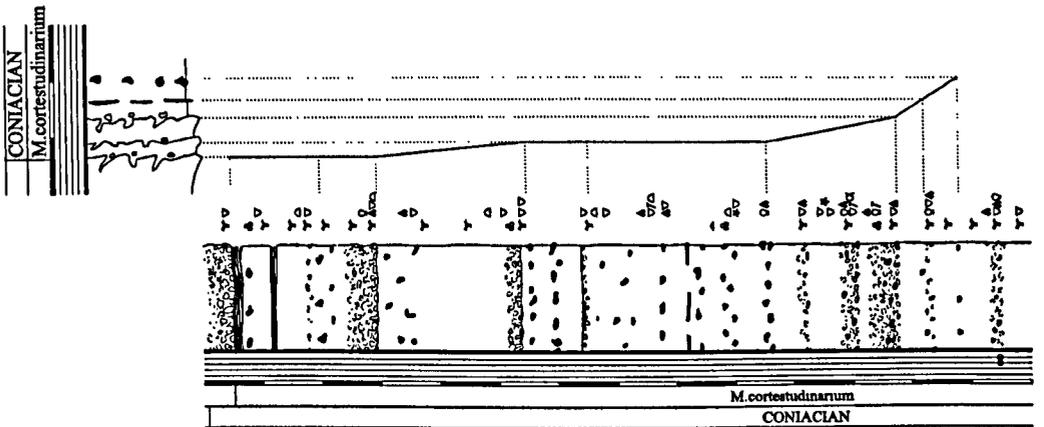

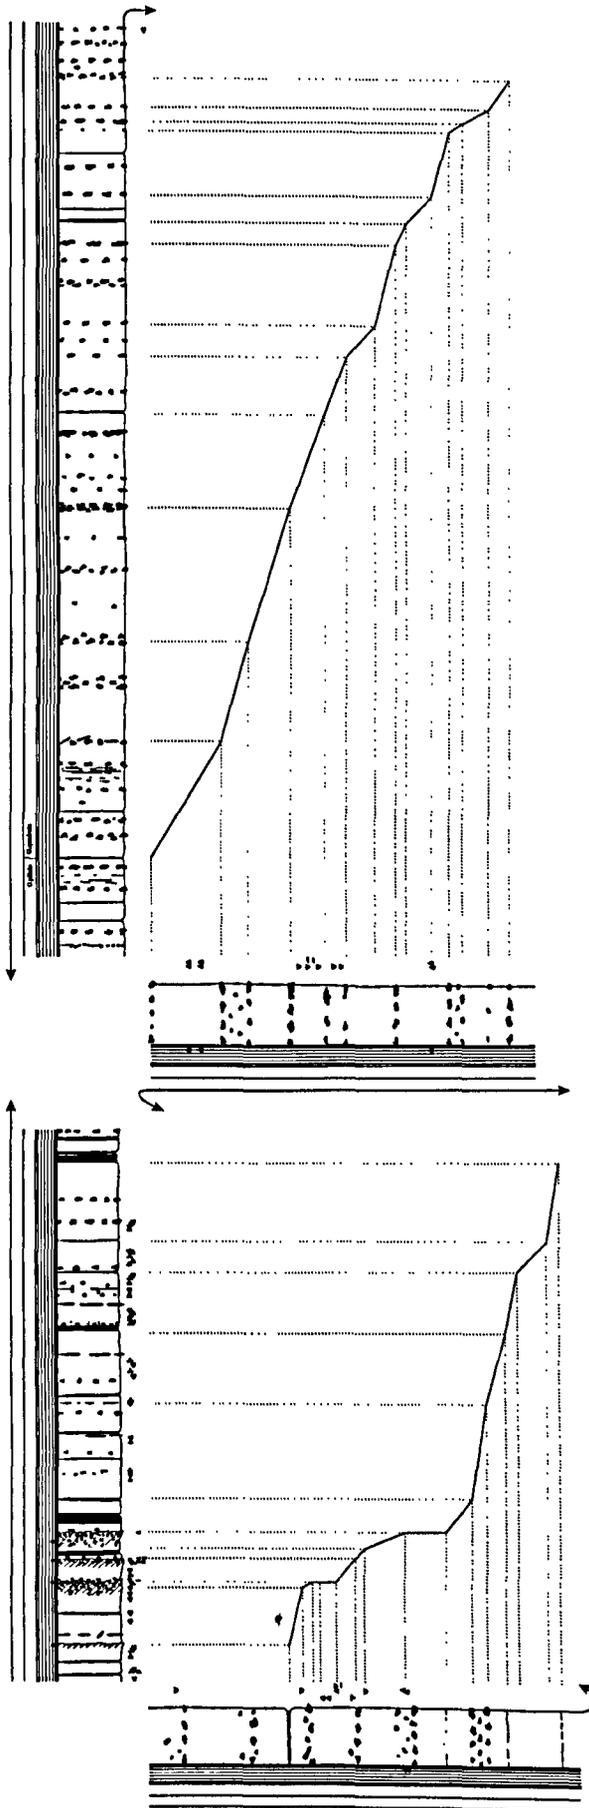

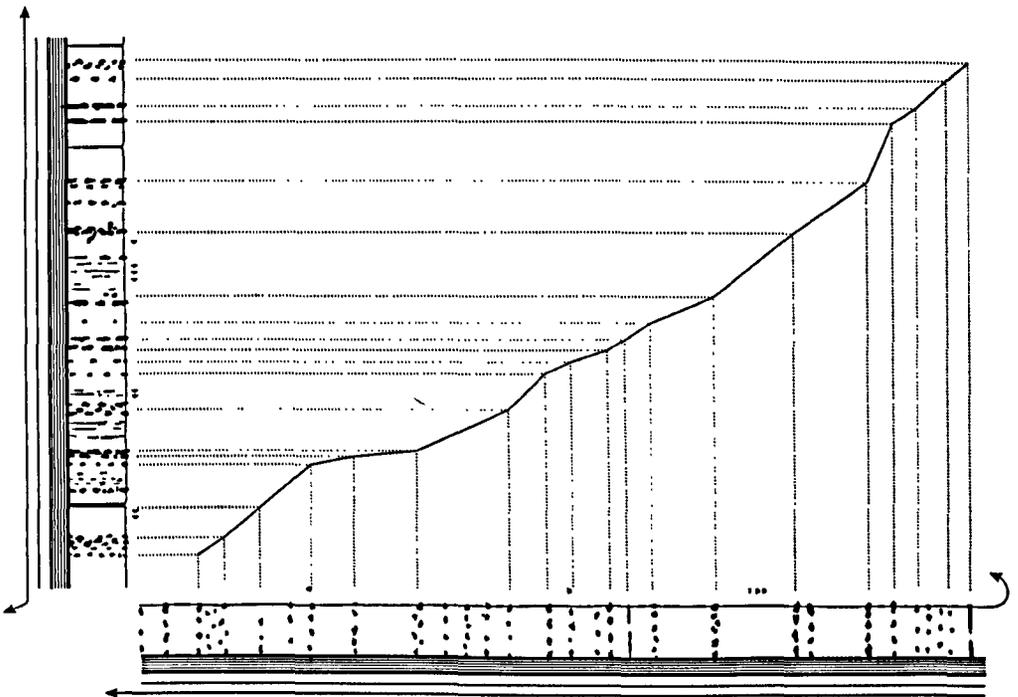

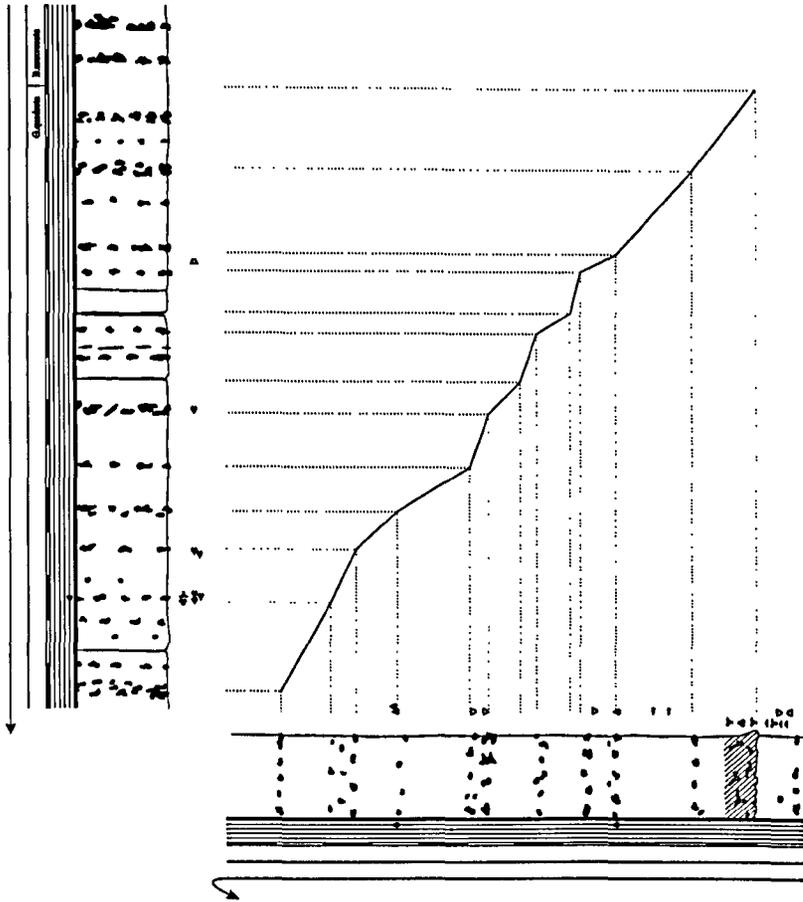

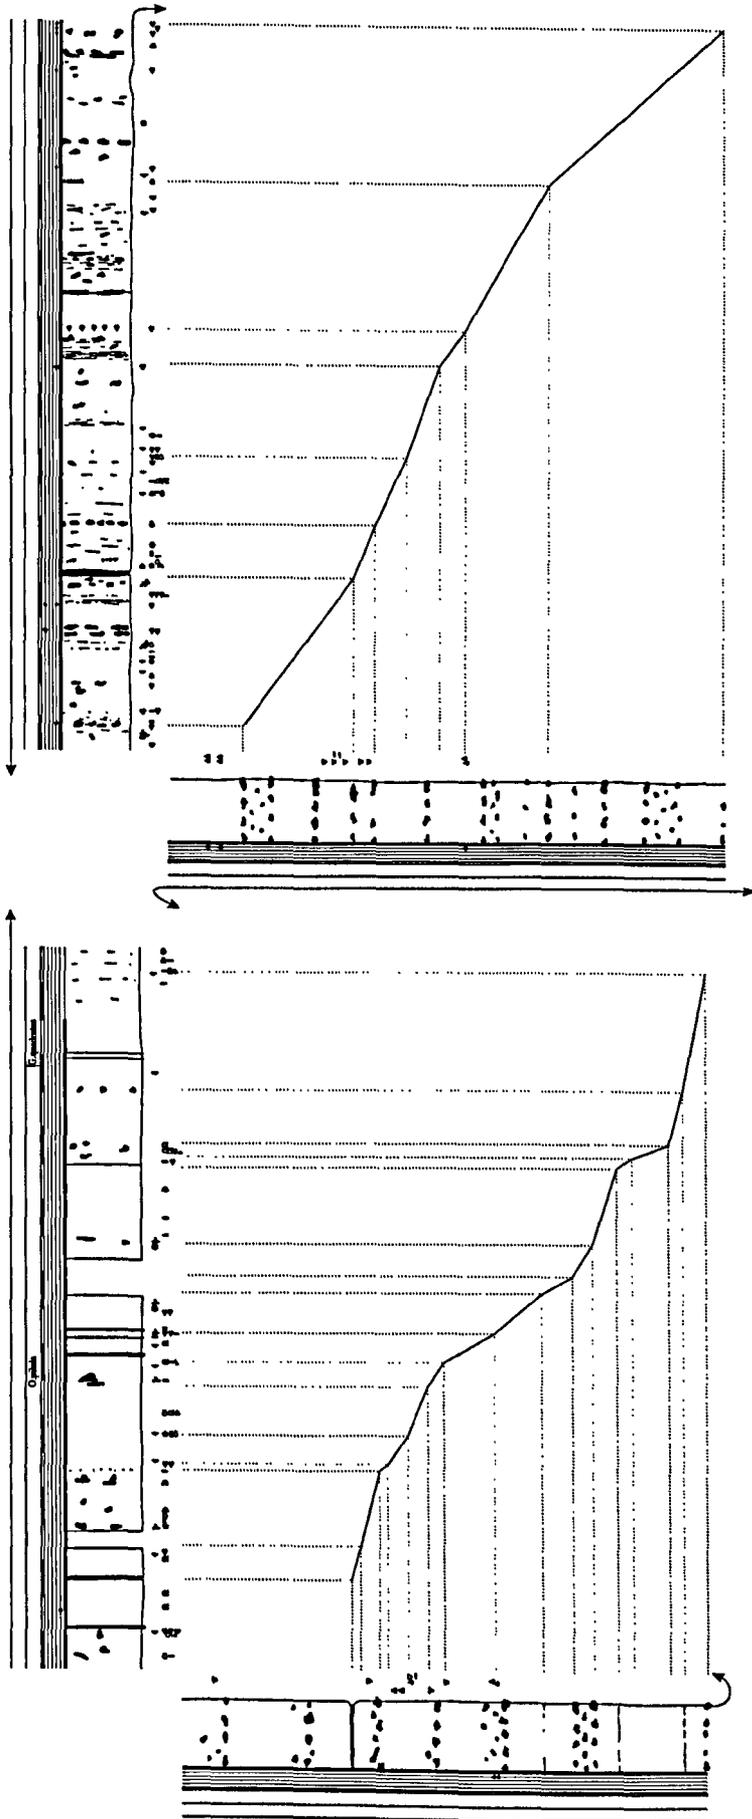

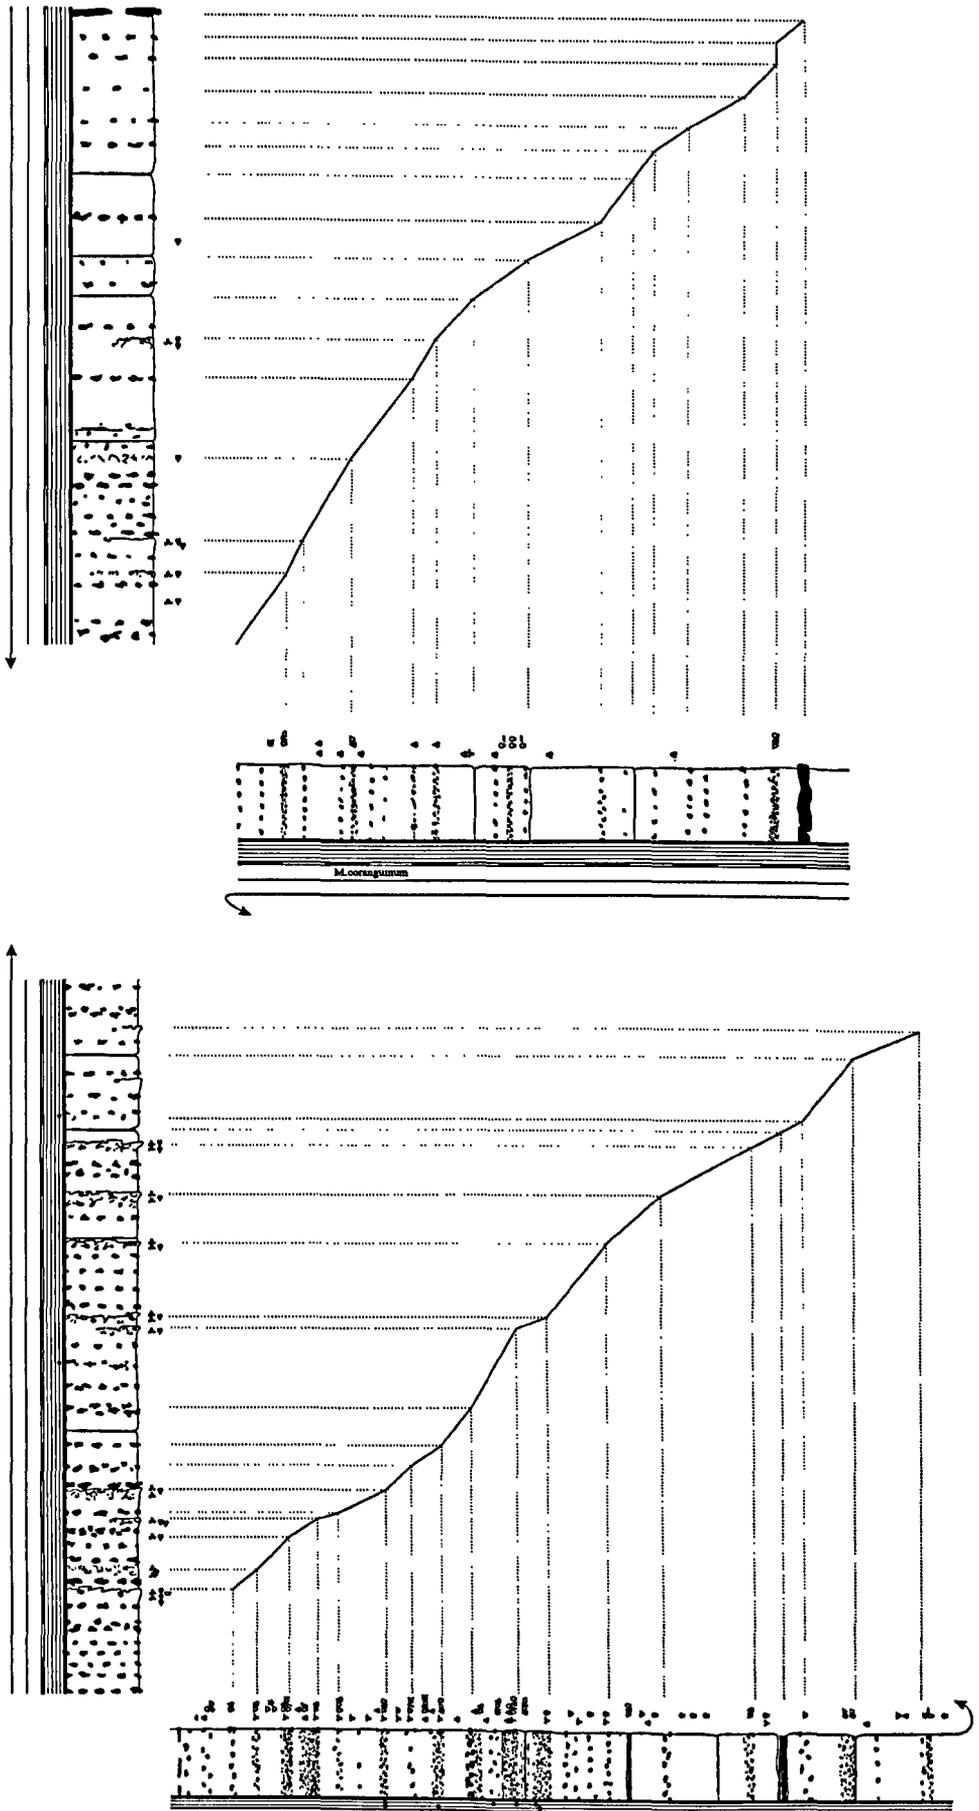

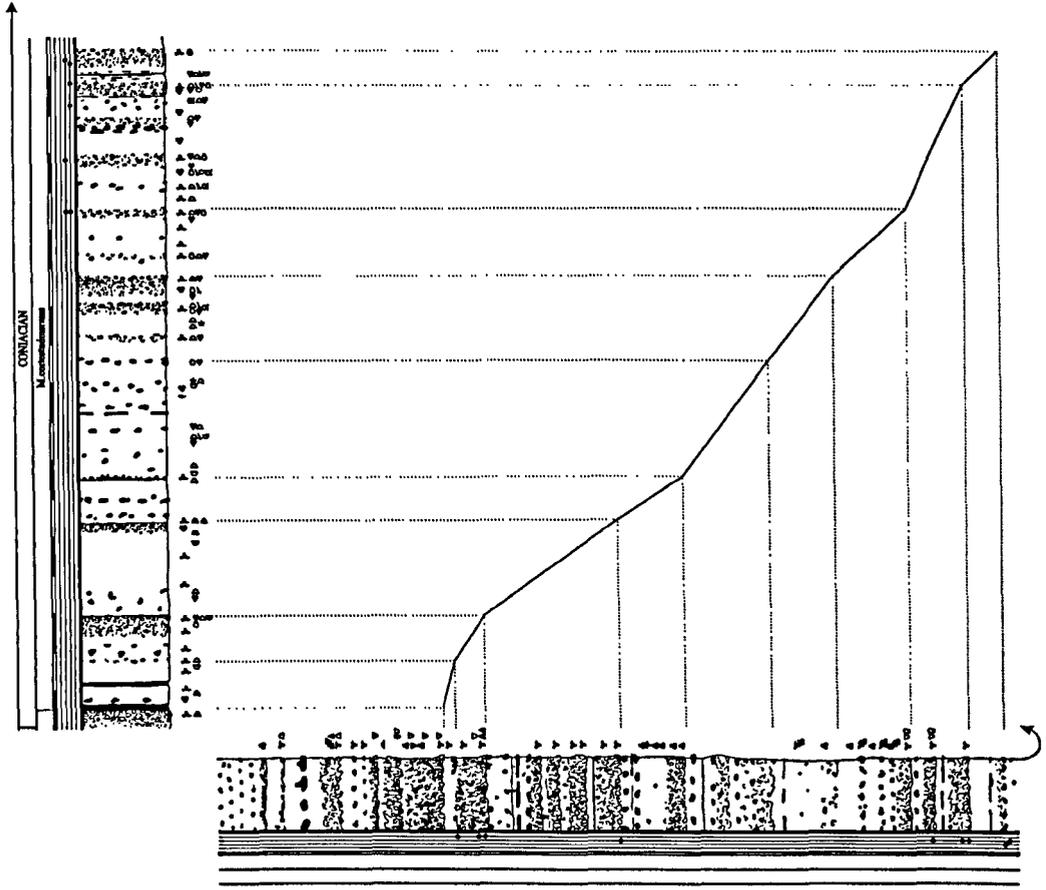

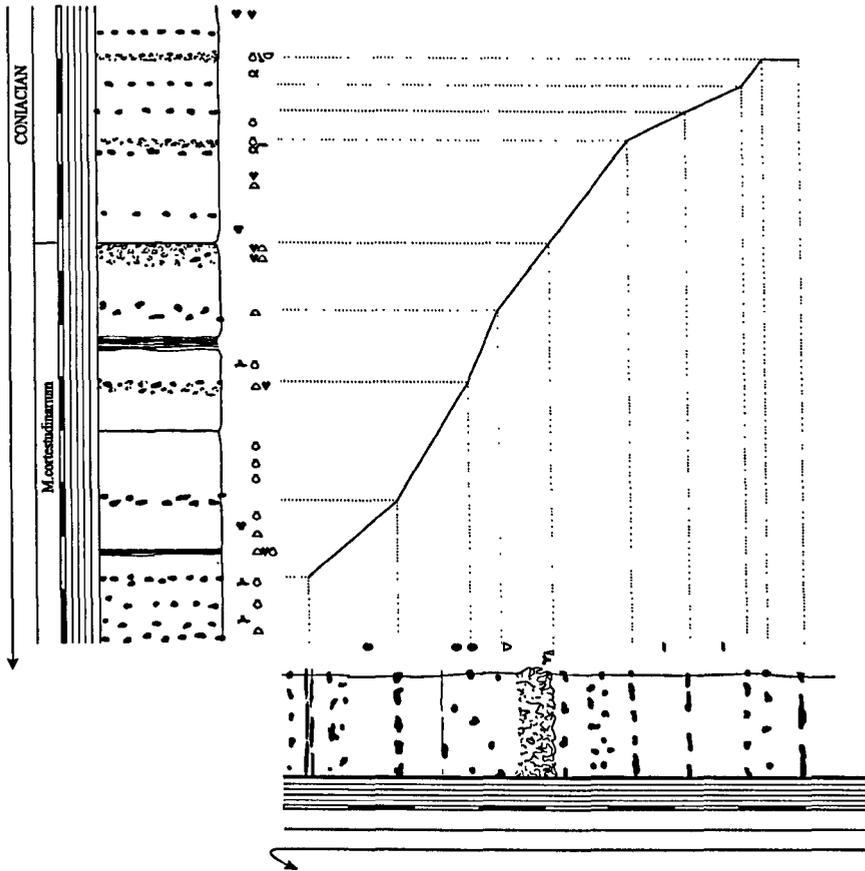

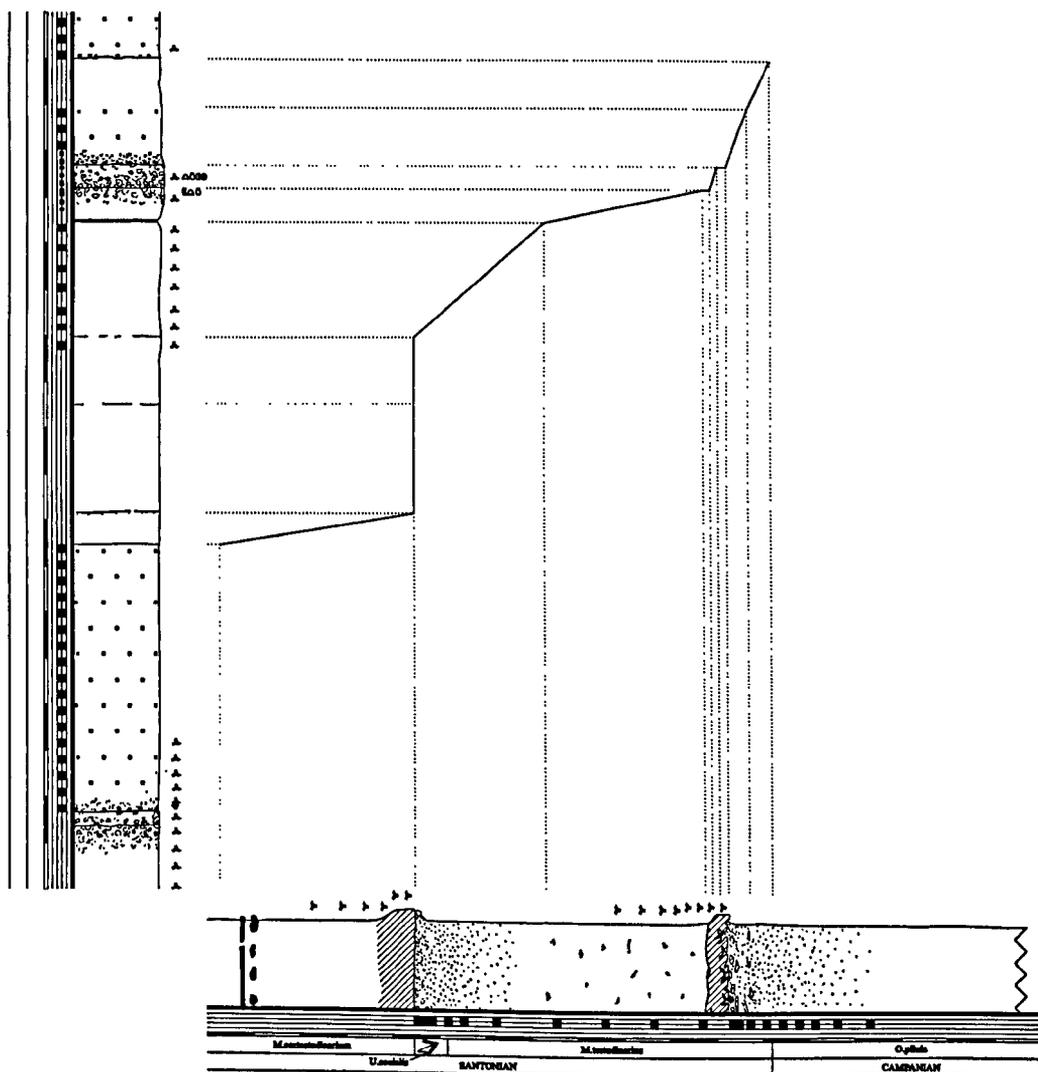

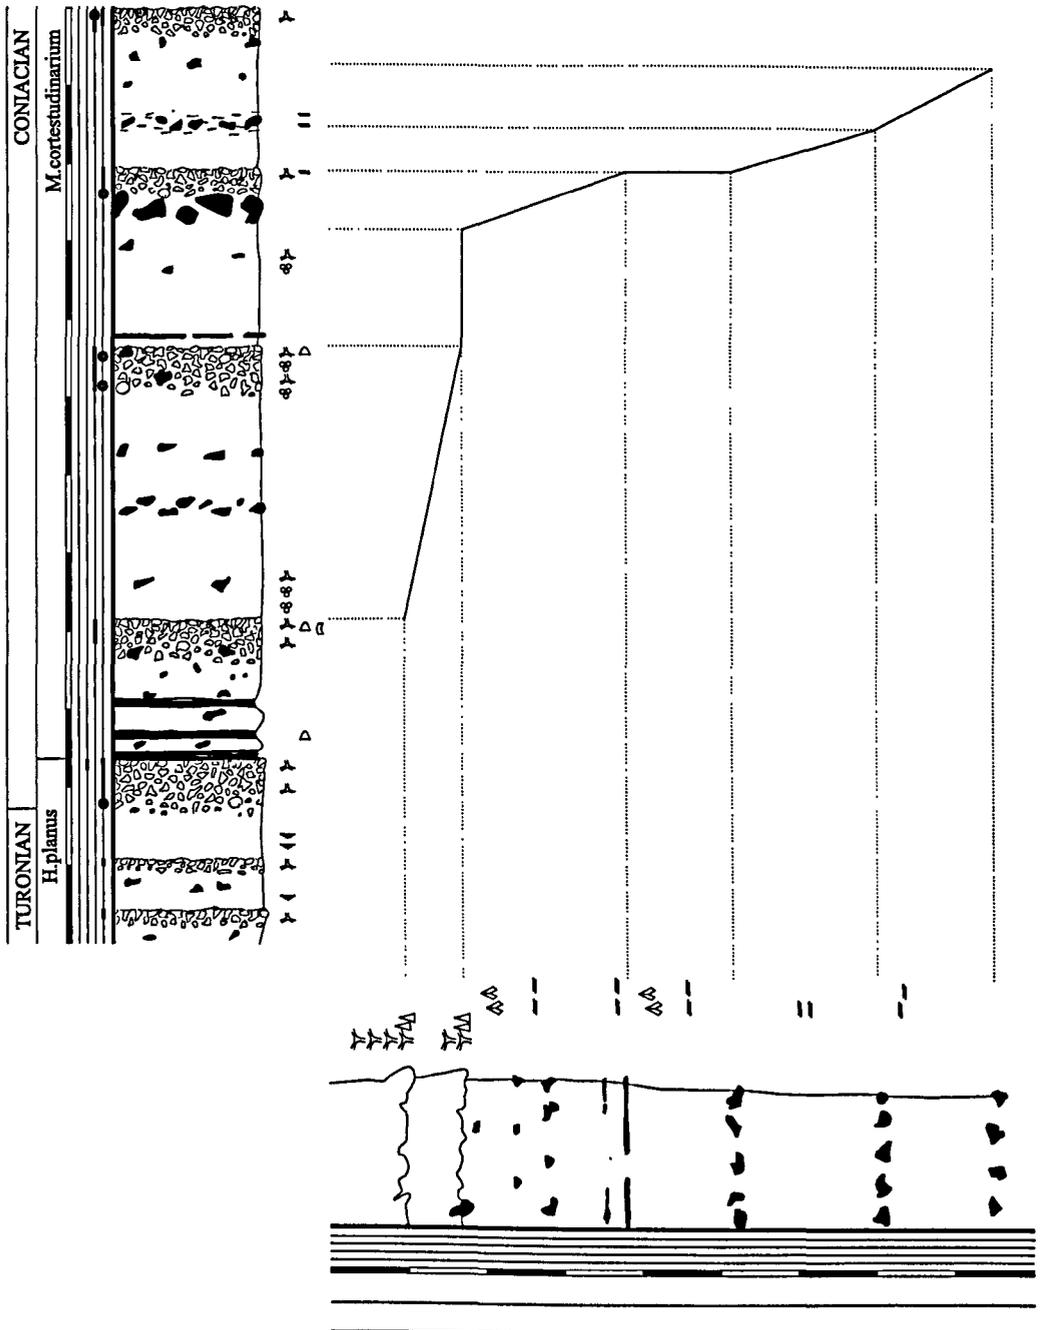

# Appendix C
